

Special Island Booth Designed For Amherst Fair

Officials of the P.E.I. Department of Industry and Natural Resources will send their first display to the Maritime Winter Fair at Amherst which opens on Friday of this week.

A booth has been set up in Charlottetown exactly as it will be seen in Amherst, and will be taken down today and re-assembled at the Fair. The display occupies a space fifteen feet by ten feet, and walls have been built in sections and painted a rich blue.

Slogan for the exhibit is "Products of Land and Sea," and under this lettering on the background is shown a section of farmland and coastline. An outstanding feature of the display is the use of a real birch tree which stands close to the background. From the branches of this tree are hung various pieces of handicraft such as hooked rugs and weaving.

All products of the sea are kept on the right side of the booth and land products are on the left. Display shelves have been built on either side and carry out the color scheme.

Displayed among these items on the left are canned products by various Island companies, including such foods as chicken, beef, strawberries, blueberries, cranberries, etc. Also shown on this side of the exhibit are hams, bacon, eggs, shortening, etc. An attractive display of Island pottery is also included.

Among the products of the sea are canned lobster, clams, and fish. Irish moss is also shown. This side of the display is placed on white fishnet and sea-gulls are fastened to the net above the shelves.

Across the front of the booth is a wall built of brickwork in shades of grey and blue. It is understood that various members of the department will be on hand at the Fair to explain to visitors the merits of the products of Prince Edward Island.

The booth has been designed and constructed by Mr. Barry H. Bugden, Charlottetown.

Queen Mary's Carpet To Be On Display Here

The people of Prince Edward Island will soon have the opportunity to see the most famous carpet in the world when, between 9:30 in the morning and 9:30 in the evening of Thursday and Friday, Nov. 9th and 10th, next, it will be on exhibition in all its regal splendor on one of the walls of the Confederation Chamber in the Provincial Building.

The presence of the world-famous carpet in Charlottetown on those days is the result of a Dominion-wide drive, sponsored by the Imperial Daughters of the Empire, to raise \$100,000 to purchase the carpet so that it may remain forever in the possession of the Canadian people. When the amount is raised, the carpet will be presented to the National Gallery at Ottawa in the morning of Queen Mary, the Canadian people's Queen. Mary, who spent eight years in making the carpet, has contributed the \$100,000 to the British Government to assist it in its struggle to obtain more dollar currency.

Twenty-five cents admission is being charged to see the carpet and it is expected that thousands in this Province will crowd the Provincial Building during the two days it is on exhibit here. Children who are accompanied by their parents will be able to see the carpet upon paying an admission fee of ten cents. Those who wish to contribute a dollar or more toward the purchase will be given an official receipt which can be used in deducting exemptions from income tax. The receipt, too, would be a valuable memento to the donor's children as evidence that their parents had made a contribution toward giving Canada everlasting possession of the Royal Carpet.

Reported Plea By Premiers Is Unconfirmed

HALIFAX, Nov. 1 — (Wednesday)—(CP)—A Halifax paper said today that it had learned that Premiers McNair of New Brunswick and Jones of Prince Edward Island plan to make a direct appeal to the Federal Cabinet for support prices for their provinces' potatoes.

The newspaper said they would have the "moral support" of the Nova Scotia Government in their efforts.

Representatives of the three Maritime Provinces met two weeks ago in Ottawa with members of the Agricultural Prices Support Board seeking the floor prices on the 1936 crop but received little encouragement.

The story said: "Premiers McNair and Jones, it was reported, now plan to make personal visits to Ottawa to press the case on a 'higher government level.' It was possible, it was learned from authoritative sources, that the two would seek a meeting with the Federal Cabinet as a whole or Prime Minister St. Laurent.

"Nova Scotia Agricultural Minister A. W. MacKemie said, in commenting on the report, that the two Premiers would have the moral support of the Nova Scotia Government if they did carry the issue further.

"Nova Scotia, itself, would not send a representative to join them, he said, because 'we are not as greatly affected as New Brunswick and Prince Edward Island are. We don't grow potatoes on the scale they do for exporting.'"
