A Hard Profession.

Old Dr. Johnson once said, addressing a class of medical students, that the study of medicine was a most arduous undertaking; that the most comprehensive mind and the most industrious student could scarcely do more than explore the portals to medical knowledge during the brief time allotted to study before commencing practice.

He should explore every avenue of natural knowledge, must become familiar with chemistry, natural philosophy and natural history, but, above all, he must learn the construction of his own frame, the means by which he lives, moves and has his being.

"The good that men do in this life lives after them." During the life time of Dr. Johnson he invented what is known as Johnson's Family Liniment, a standard family remedy of surpassing merit.

"Miss Budd's heart is like a volume in a circulating library." "How is that?" "Not to be kept longer than two weeks."

Rev. Ralph Brecken says: Having tried Puttner's Emulsion for coughs, influenza, etc. I am pleased to testify to its beneficial results as compared with any remedy previously used.

Hawker's nerve and stomach tonic is a perfect blood and flesh builder, and a nerve and brain invigorator, as well as a valuable aid in digestion.

The Professor—"What is happiness?" The Philosopher—"The condition of forgetting that you are unhappy."

A Member of the Ontario Board of Health Says: "I have prescribed Scott's Emulsion in consumption, and even when the digestive powers were weak it has been followed by good results."

"He behaved dreadful at the swarty," said Mrs. Partington. "Acted like a perfect idiot."

Puttner's Emulsion has a delightful flavor and agrees with the most delicate stomach.

For twenty-two years I have had dyspepsia almost every day. I can hardly eat, and my stomach is so full of gas that I have to get up every hour to walk in the street, and back without getting any rest.

Now I can eat and sleep as well as I ever did, and I am able to do my work as usual. I have cleared my head, and my mind is as clear as a bell. I can now sleep peacefully, and I am able to do my work as usual.
