Attack of Royal Canadians at Peardberg

ent is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battle field has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures, size 30x24, on heavy, superfine, calendared paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called "Attack of Royal Canadians at Peardberg." There are literally hundreds of figures on this picture. The men in the distance are swarming with men, while here and there a pros- trate figure speaks only too well of the Boer riflemen. It was on this battle- field the gallant Major Arnold met death bravely. Indeed it is only too true, that many of those gallant hearts that beat so high when the cheering thousands bade them God-speed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandsbaagte, and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to any one who will examine them. They are RED HOT SELLERS! Agents sell money. Big profits. Enormous success. One agent sold 68 in one day. Sample and terms 25 cts. (None free); four \$0.75; 10 for \$2.25; 25 for \$5.00; 50 for \$11.00. Write today for a dozen and make money. Home Novelty Mfg. RESOLUTION PASSED.

The following resolution was passed by the Grand Division at its session at Park Corner, Nov. 2nd:

Whereas the Prohibition Act passed at the last session of the Local Legislature, whilst meeting to some extent the wishes of the temperance people still contains defects that will, if not amended, render it easy to evade its provisions and tend to lower all attempts at prohibition in the eyes of the public.

Therefore Resolved: That this Grand Division would recommend amendments to said act in the following, as well as in other particulars:

(1) There should be a clear statement in it of what an intoxicating beverage is by percentage of alcohol contained and would recommend 2 per cent. as the per centage.

(2) Provisions should be inserted that will effectually suppress the sale of liquor in clubs.

(3) The vendorship provisions should be charged so as to remove all temptation to the vendor to increase sales.

(4) The provision for fines should be first and second offences only, the first a money fine or term of imprisonment, and all subsequent offences imprisonment with or without hard labor.

(5) More adequate provision for collecting fines and such other amendments, alterations and additions as are evidently necessary to make said act more stringent and effective.

Resolved, also, That this body use its influence in every way possible to secure the improvements to the said act as indicated in the foregoing resolution to insure when the time comes to have it enforced it shall be thoroughly effective to accomplish the end intended.

Situation in Spain.

MADRID, Nov. 9.—At a cabinet council held to-day under the presidency of the queen regent, General Azcarraga, the premier, said there was now no Carlist under arms in Spain and that the rising had failed completely. In order, however, to destroy the entire Carlist organization in the country, he said, the suspension of the constitutional guarantees would be maintained. General Azcarraga also announced that a Spanish-American convention had been signed in Washington by which the islands of Caygayan, and Cibutu, in the Philippine archipelago, had been ceded for \$100,000.

A ROUGH GAME.

So full of peril is the lumberman's life than even his sports and games must be spiced with danger or they will pall upon his taste. On the long winter nights a cruel game called "Jack, where be ye?" is frequently played.

The middle of the largest room in the camp is cleared. Two men are securely blindfolded and, having previously drawn lots for the first whack, they kneel on the floor. In his right hand each man holds a stout leather strap, in his left another leather strap, or a rope is held by the end, either close to the floor or, in some camps, actually on it. The latter strap, being kept taut by the combatants, guarantees a uniform distance between them. They are quite near enough to hurt each other severely, which not infrequently happens.

Now, the man who has been lucky enough to draw the first call shouts, "Jack where be ye?" to which his opponent must immediately answer, "Here I be. Then the first man strikes at the place where he imagines his adversary to be with the heavy leather strap. If he hits his man, he is entitled to another blow—may call out again, "Jack, where be ye?" and the other must answer, "Here I be." This is continued till the first man misses, when he must take his turn at being struck.

The others form a ring around the two combatants, bets are made, and each faction encourages and applauds its chosen man. There are regular rounds, and the game is usually kept up until one or the other has had enough or perhaps till one is carried off the scene wounded. Hard heads can stand hard knocks, and volunteers for the sport are numerous. At the beginning there is generally no malice. A hard blow is struck—it is expected—it is the game. But it occasionally happens that the game develops into a fierce duel.—Pearson's.

HOW ZULU WOMEN SEW

The skill of the Zulu of South Africa in sewing fur is a household word in South Africa, and some of the other tribes compete with them. The needle employed is entirely different from that used by the ordinary needlewomen. In the first place it has no eye; in the second, it is like a skewer, pointed at one end and thick at the other.

The thread is not of cotton but is made of the sinews of various animals, the best being made from the sinews in the neck of a giraffe. It is stiff, inelastic, with a great tendency to "kink" and tangle itself up with anything near it. Before being used it is steeped in hot water until it is quite soft and is then beaten between two smooth stones, which causes it to separate into filaments, which can thus be obtained of any length and thickness. Thus the seamstress has a considerable amount of labor before she commences with the real work in hand.

Finally she squats on the ground (for no native stands to work or do anything else who can possibly help it) and, taking her needle, bores two holes in the edges of the rug or garment on which she is working. The thread is then pushed through with the butt of the needle, drawn tight, and two more holes are made with a like result, the skewer progressing very slowly, but fast enough for a country where time is of no value whatever.

The skin upon which the seamstress is working is damped with water before she commences, and as the damp thread and hide dry out they bring the work very closely together.

Mania for Operations

Among the Doctors. No Need of the Knife to Cure Piles. A Surer, Cheaper Easier Way, Dr. Chase's Ointment.

Dread of the surgeon's knife causes multitudes of people to suffer on year after year with piles, when they could be cured without risk, expense, or danger of an operation by using Dr. Chase's Ointment, the only preparation guaranteed to cure any case of itching, bleeding, or protruding piles. Rev. J. A. Baldwin, Baptist minister, Arkansas, Ont., writes:—"For over twenty years I was a great sufferer from itching and protruding piles. I used many remedies and underwent three very painful surgical operations, all without obtaining any permanent benefit. When about to give up in despair I was told to use Dr. Chase's Ointment, and did so, finding relief at once. I used three boxes, and am almost entirely cured. The itching is all gone. I have advised others to use it, believing it would cure them as it has me."

Dr. Chase's Ointment is the only positive and actual cure for every form of piles, 50 cents a box, at all dealers, or Edmondson, Bates and Co., Toronto.

MEMORIZING OF SCRIPTURE.

A more important resolution the General Assembly could scarcely have passed than the resolution to offer a diploma for the memorizing of Scripture, which custom has unfortunately, of late years, fallen into some disuse in our Sabbath Schools and families.

The Word of God stored in mind and heart is like the sap in a tree. It vitalizes. An insufficient supply of sap means that the tree is starved and therefore that it will wilt. An abundant flow of sap results in vigorous growth. The Word is verily a living word, and the Christian who neglects it falls short of his proper development.

To have the memory well-stored when young is like the gathering of the mountain springs into a great reservoir, from which there will be continuous outflow. Little risk of spiritual barrenness where, from such a reservoir, there is, day by day, and hour by hour, the flowing forth of the living stream of truth into hear, and conscience and will.

The diploma will be offered, immediately after the New Year, to any scholar who will repeat to the satisfaction of his minister or Sabbath School superintendent the prescribed passages of Scripture. These will comprise about two hundred verses and the list will be issued on a neat card at a nominal price. Be on the lookout for it.—Home Study.

HE WAS EXPERT.

Some of the stories published in the English papers regarding the Strathconas are funny reading. For instance, this one is now going the rounds: "A private in the first Canadian contingent tells how he overheard a party of Boer prisoners talking about the wonderful things they have seen the Strathconas do in the way of hitting coins and bottles and lassoing horses and cattle. They were especially struck with the latter, and they described some of the exhibitions they had seen. Why, said the Canadian, those are mere trifles. Now, out in the Northwest, I saw one of these Strathconas do something [really] wonderful. A hornet had lighted on the neck of one of his comrades, and the latter was afraid to touch it for fear it would sting him. He told his troubles to his friend, and the friend made a lasso, threw it around the hornet's stinger and removed it without pulling the hornet off his neck." The Boers were duly impressed.
