Sanatorium

On Wednesday afternoon the Sanatorium School room was the scene of an interesting gathering of friends and relatives who attended the closing of class work for the school term 1958-59.

Dr. E.M. Found, Superintendent welcomed the guests and outlined the work of the school under the capable direction of Mrs. Lloyd Hawks whose interest and love for the children had been reflected in their splendid behaviour and desire to keep up with their studies as well as to regain their health. He reminded the audience that now-a-days a great deal was spoken and written on the subject of Rehabilitation but here today we were witnessing a good example of Rehabilitation of the sick in that all the children in the school room have recovered and are recovering their health but have lost little time from their studies which will be continued from their homes in the near future.

Dr. Found expressed warm thanks to Mrs. Hawks and Miss Gertrude Arsenault, Supervisor of the Children's Ward and all other nurses and members of the Dietary and Housekeeping Staff who worked together to help the children in the Sanatorium enjoy a life as nearly normal as possible while regaining their health.

An interesting and well performed programme was then carried out. The scholars formed a panel interview over a mock radio station S.R.P.S. and carried out an instructive review of Canada, her people, history and development. Junior class members took part with readings on nature study.

All the pupils showed excellent training which deserved the favourable comment of the audience.

Prizes were then distributed to the pupils and a dainty lunch was served by the Dietary Staff under
