

Fuel in the Northwest.

COLONEL RICHARDSON, in an interview, thus refers to fuel near Battleford. He says that seventy miles from there lignite is found in considerable quantities on the banks of the Saskatchewan, and makes an excellent substitute for coal—in fact it throws a greater heat, lasts well, and leaves nothing but a pure ash behind, totally devoid of cinder or clinker. It can be used to great advantage for domestic purposes, as has been demonstrated by an experiment at Edmonton, to which station Colonel Richardson sent a quantity, and it was most favorably reported on. As a proof of its value, it may be instanced that, mixed with a certain proportion of coal, it can be applied to blacksmith's work. If used by itself for the latter, unless very carefully handled it burns the iron, so intense is the heat evolved. It is believed that not only are there beds of lignite in that region, but also indications of coal in seams, sixty or seventy feet thick, which will have to be worked by boring into the banks of the river. This fact in itself is an indication of the value of the territory, and should be the means of inducing a large number of emigrants and others to take up their residence in the new country. When on the subject of coal it should be mentioned that Colonel Richardson says that when he left Winnipeg there was a coal craze there, as that mineral was reported to have been discovered in the Pembina Mountains, some two hundred miles from the city. The promoters of the scheme for working the seams are of opinion that the coal can be taken direct from the mines to Winnipeg down the river on flat-bottomed boats.

MISCELLANEOUS.

While a man was employed at Petrolia, Ont., on Friday last, in clearing a car tank with benzine he became overpowered by the gas, and was rescued by the fireman of the works, Mr. Geo. Cook, at the cost of his own life. Mr. Cook became asphyxiated while in the tank and before he was got out life was extinct.

It is reported that the story told in Britain by the returned farmer delegates is causing numbers of British farmers to direct their thoughts towards Manitoba. The consequence is that each English mail that reaches Winnipeg is laden with letters of enquiry addressed to the Dominion Land Agent there.

A LEGAL CONUNDRUM.—The following question is to be discussed by the Halifax Law Club at the next meeting: 'A hires a wharf from B, for the purpose of shipping a cargo of cattle, and nothing is said about the condition of the wharf or the number of cattle it could safely bear. A drives his cattle on the wharf and breaks it down, whereby the wharf is injured, and a number of the cattle are lost. Who is responsible for damages, A or B?'

The Allen weekly mail S. S. *Sardinian*, Capt. Dutton, arrived at Halifax on Friday from Liverpool with the English mails and 429 passengers—382 immigrants, 21 intermediate and 24 cabin. She also brought 802 tons of Canadian freight and 1,363 tons for Baltimore, for which port she will sail to-morrow. The *Sardinian* made the quickest passage ever made by weekly boats from Liverpool to Halifax, beating the best passages of the *Peruvian* and *Moravian* by three hours. The mails and passengers will be forwarded immediately by special trains.

STRANGE DEATH.—A young man named Allen McKiel, a resident of Long Reach, died rather strangely a few days ago. He had cut his foot slightly with an axe while chopping wood, and as the wound was not a serious one, had taken no precautions in covering it. A day or two after receiving it inflammation and erysipelas set in, which speedily communicated to his body, hastening death in a very short time. He had been in the habit of wearing a pair of colored socks, and it was stated by his friends that the coloring had poisoned the wound.—*Globe*.

HUMOROUS.

A chasm which often separates friends—Sarcasm.

Speaking of natural terms, was Noah's wife his first mate?

Remark by Josh Billings: 'I never had a man cum to me for advice, but before he got thru he had more advice to offer than to ask for.'

The height of thoughtfulness—a citizen is attacked by a thief on a lonely street. The thief takes his watch and runs. The victim runs after him crying: 'Sir, one word. Don't trust that watch; it is slow!'

The *Toronto Globe* has been sued for libel, by Boyle, who with McIntosh and others was alleged to have sold out the interests in the recent printing contracts.

A "BANKRUPT" CITY.—Our I. C. Railway traffic receipts show that fifty-three car loads of English goods, via Halifax, reached St. John yesterday. And still we are ruined—ruined—ruined—you know!—*St. John Sun*.

"Two ladies without any character!" was the loud announcement of an usher at a fancy ball, who had been told to announce persons in the character assumed, and who saw that the ladies in question were in ordinary dress.

It is stated that an important conclave is to be held at St. Petersburg to decide upon Russia's future policy,—whether war shall be declared against England, Russia's conquests pushed on in the direction of India, or her attention turned to internal reform and re-organization.

MR. TILDEN'S WEALTH.—If Mr. Tilden cannot become President, his riches would probably be envied by many who have occupied the White House. Mr. Tilden is far richer than people think. There is said to be reason for believing that he is worth nearly \$20,000,000. His stock speculations during 1869, show profits in two months of \$500,000 and of \$1,000,000 during the year.

FAIR NOTICE.—Here is the way it is done in Australia. An Australian paper recently contained the following notice:—

"I, Fanny Harris, have not heard of my husband, George Harris, for seven years, and if I don't hear from him previously, I intend to get married again in two months."

A very business-like notice, certainly. The absentee should now put in an appearance. Coming later may cause unpleasantness.

Alex. Robertson, of Dundonnachie, Perthshire, whose name has been prominently kept before the Scottish public during the past twelve years in connection with his legal battle with the Duke of Athol, is in Ottawa. His main object is to ascertain the feasibility of settling a colony of Scottish farmers in the Northwest, and to confer with the Dominion Government as to the inducement which might be offered to the farmers at home to enter upon such a course, and what facilities would be placed at their disposal.

IN SEARCH OF THE HYLE ESTATE.—Says the *New York World* of Thursday:—"Ex-Governor W. F. M. Army, of New Mexico, the First Vice-President of the Association of claimants for the Hyde estate, sailed for England yesterday, in the *Algeria*, taking with him two large trunks filled with documents which he hopes will enable the Hyde Association to get possession of the many millions of pounds sterling belonging to the Hyde estate and kept in the Bank of England, and also two other trunks filled with specimens of the ores of gold and silver mines in which he is interested, and in which he hopes to interest English capitalists. In another trunk he has a bed-quilt composed of 2,000 pieces of silk and made by Mrs. Stewart, who is eighty-five years old and one of the Hyde claimants, for Queen Victoria. Mr. Army will begin proceedings at once to get possession of the Hyde estate. He said that there were over fifteen hundred claimants already, and that the pedigrees of other claimants would be forwarded to him weekly. Two more representatives of the estate will go to England in December. Mr. Army said that Judah P. Benjamin had been retained as the Associations counsel."

Astonishing Success.

It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor dying consumptive, at least to try one bottle, as 40,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your Druggist about it. Sample Bottles to try sold at 10 cents. Regular size 75 cents. For sale by all Druggists.

CATARRH.

Constitutional Catarrh Remedy CURES CATARRH.

Hear what a Reverend Gentleman says of the Constitutional Remedy.

T. J. B. HARDING, Esq., Brockville, Ont.:—DEAR SIR—It is now two years since your "Constitutional Catarrh Remedy" was introduced to me. I have waited this long to see if the cure would remain permanent before doing this, my duty, to you, as at first the happy effects seemed to me to be "too good to be true."

I was afflicted in my head for years before I suspected it to be Catarrh. In reading your Circular I saw my case described in many particulars. The inward "drop" from the head had become very disagreeable, and a choking sensation often preventing me from lying long. I would feel like smothering and be compelled to sit up in the bed. My health and spirits were seriously affected. When your agent came to Walkertown in August, 1876, I secured three bottles. Before I had used a quarter of the contents of one bottle I found decided relief, and when I had used two bottles and a third, I quit taking it, feeling quite clear of that ailment, and have not used any since until of late I have taken some for a cold in my head.

A sense of duty to sufferers from that loathsome disease, Catarrh, prompts me to send you this Certificate, unsolicited, with leave to make what use of it you may see proper. Yours truly,

W. TINDALL, Methodist Minister.
