THE DAILY EXAMINER.

FEBRUARY 26, 1892.

East Simcoe.

The news from East Simcoe is that Mr. W. H. Bennet, the Conservative candidate, has been elected by a majority of thirty-six votes over Mr. Spohn, the unseated Libaral, who obtained a majority at the general election, less than a year ago, of two hundred and seven. The difference in favor of the Government is thus two hundred and forty-three.

Twenty bye-elections have so far been won by the Government; only six by the Opposition. And the end is not yet!

The seat for East Simcoe is the sixth which has been taken from the Opposition within a month. Better results of the Opposition's campaign of election petitions no supporter of the Government could desire.

Notes and Comments.

—Montreal Gazette: The more the people think about unrestricted reciprocity the less they think about it. Hence the continued defeats of its political advocates by the constituencies.

—Mr. McGreevy is reported to have secured Hon. Mr. Blake as his counsel in the coming trial at Ottawa. Mr. McGreevy does not appear to have read or paid attention to the Witness articles showing that the boodle prosecutions were only sham.

—The Austrian Emperor, at the opening of the Hungarian diet, declared his trust that the present peace of Europe will be of long duration. He gave no indication, though, of curtailing his preparations for war. The real trust of all peace-loving kings of Europe is in their bayonets.

—The Ottawa Free Press agrees with our Patriot that "as a great moral exemplar for the other provinces of the Dominion, Ontario is a deplorable failure." It will be admitted that the notorious Free Press and the Patriot are both excellent judges of morality.

—Since the recent discovery of the germ of malaria, it has been demonstrated that, as was suspected long ago, quinine acts by poisoning this organism. The germ disappears from the blood of malaria patients after the administration of quinine, and it is quickly killed if quinine is permitted to act upon it quickly.

—The Montreal Gazette says: Mr. Laurier told the Two Mountain electors on Saturday that he found the Ontario farmers better educated on the question of unrestricted reciprocity than those of Quebec. That was in the afternoon. In the evening he received proof of his assertions. The Ontario farmers defeated two unrestricted reciprocity candidates.

—At the annual meeting of the North Perth Conservative Association, the following resolution was passed:

"That we recognize in the Hon. J. J. C. Abbott, the present leader of the great Conservative party in Canada, an honest and worthy successor of our late lamented leader, and we do hereby pledge ourselves to give him and the Government he so ably leads, a united and loyal support."

—The Liberal ship has three Jonahs on board. They are the editor of the Globe, who advocates unrestricted reciprocity in his paper because he believes it the first step to political annexation; Sir Richard Cartwright, who from the platform calls people who differ from him curs and pups, and Mr. Mercier, the unrepentant participant in the proceeds of robberies from his own Provincial treasury.

—Danish authorities have been investigating the matter and declare that the outbreak of foot-and-mouth disease in London, on account of which Danish cattle were scheduled, is not traceable to their herds. The cable says, however, that the distemper has broken out in nineteen places in Schleswig-Holstein, and Schleswig Holstein is on the border of Denmarck. Their bad neighbors will make it hard for the Danes to re-establish their respectability.

—Prof. Saunders, director of the experimental farms, acknowledging a request from Calgary for the establishment of a branch experimental farm near there, says a large number of applications have been received from all parts of the Dominion for additional experimental farms, and it would be a most difficult thing, in case the requests of one district were acted on, to satisfy other districts which seem to have equal claims. However, he had no desire to prejudge the case, and would be glad to discuss it with the Minister on his return to the capital. It is hoped that if the requests are favorably considered, the claims of P. E. Island will not be overlooked.

—A cablegram from San Salvador says Gen. Enriquez has been unanimously proclaimed dictator. The constitutional party of Gautemala has, in consequence, incurred the active hostility of President Barillas, who alarmed the public by the announcement that Enriquez was at the head of an insurrection directed against the present government. Barrillas ordered Enriquez to present himself to the authorities at Zacapa. Enriquez proceeded toward that city accompanied by two brothers and a party of friends. One hundred soldiers were lying in ambush and fired upon Enriquez and his party killing all. The killing is imputed to the Gautemala government.

—A Canadian judge asked the other day "who is Pacaud?" This may have been a joke; but judges have a habit of asking questions which indicate that they are "legal monks," knowing nothing of the ways and doings of the world around them. This peculiarity is satirized in a play where a solicitor sings:

> For the baby unborn
> Is not such a greenhorn
> As the octogenarian judge.

Perhaps the judges follow the advice which they sometime gives to jurymen, to refrain from reading the newspapers so that they may consider the case with an unbiased mind. Perhaps, when they ask what is meant by a full hand, or three of a kind, they know the answer but want to get it on record.

—The World, of Chatham, N. B., remarking that an Ottawa letter reports that Mr. W. C. DesBrisay has been offered a position on the editorial staff of a leading United States paper says: "Mr. DesBrisay has had a very considerable journalistic experience, having been for several years editor of the Charlottetown Herald, and subsequently of the Summerside Journal. For the last three years he has resided in Ottawa. Last session he wrote a parliamentary correspondence for the Charlottetown Examiner, sundry incisive portions of which were freely quoted in the Canadian press. Mr. DesBrisay's particular assignment in his new sphere will be Canada and Canadian politics, in which our neighbors are beginning to show more interest of late."

—In an able article, entitled "America for the Americans," to appear in the March number of Harper's Magazine, Edward Anthony Bradford writes concerning some recent discriminative legislation. "I is not for a moment intended," he says, "to compare our treatment of foreigners in degree with the persecutions of the Middle Kingdom and the Russian pale. But the fact remains, albeit unappreciated if not unsuspected, that the United States and several separate States, have recently enacted laws depriving aliens of property rights which other nations concede freely, but not more freely than did the United States until within a year or two. It is a singular commentary upon modern methods of legislation that this reversal of the custom of a century, carrying our strong, prosperous, intelligent nation back a long step toward the weak and ignorant customs of feudalism, was enacted without strong impulse from the people, and without legislative delibration worthy the name. In the House, for instance, a half-hour for debate was refused and, under the operation of the previous question, it was made law that no foreigner should thereafter own real estate within the territories of the United States. The cry, not of the people, but of the legislators, was 'America for the Americans.'"

Personal.

Attempts to kill President Moutt and General Canto, of Chili, have been discovered and thwarted.

Hon. John Yeo, Port Hill, and John McLean, M. P., Souris, left for Ottawa yesterday afternoon.

The late William Henry Smith, formerly Government leader in the British House of Commons, left personal property valued at £1,764,000.

Joseph Unsworth, Esq., Superintendent of the Island Railway, accompanied by his private secretary, Mr. Bagnall, left for Ottawa last evening.

Mr. Geo. H. Ham, Travelling Passenger Agent of the C. P. R., was among the passengers in the Stanley to-day. During his stay in this Province Mr. Ham made many friends.

The last issue of the Chelan Falls Leader says: "Mr. John T. Hardy and Mr. and Mrs. Montgomery arrived from Charlottetown, P. E. I., and will engage in the hardware business at Chelan Falls."

A Toronto correspondent writes: The Hon. Geo. E Foster's magnificent speech on Friday evening in reply to Laurier has certainly a great deal to do with swelling up Smith's splendid majority in South Ontario.

Rev. J. Carruthers, of Charlottetown, preached at Fort Massey Church yesterday. Rev. Canon Brock preached at St. Stephen's Church in the forenoon, and in St Luke's Cathedral in the evening on "The claims of reason and faith in reference to God's revelation."—Hx Herald.

It is reported that Mr. W. C. DesBrisay is about to take a position on the staff of a leading United States newspaper. We believe that there are some grounds for the report, Mr. DesBrisay's talents having attracted attention in a country where ability is appreciated. However this may be, our readers will be glad to learn that he has engaged to furnish The Examiner with sessional correspondence from Ottawa.

News Notes.

Imports of woollens to the United States in 1891 amounted in value to $43,235,409

President Harrison has issued his annual proclamation prohibiting sealing in Behring Sea.

A number of Ottawa capitalists have organized for the purpose of building a new opera house at the capital.

Dominion Statistician Johnson advises Canadians to have nothing to do with American silver until the free coinage question is settled by Congress.

The Treasury Board has granted the application of the directors of the Merchants Bank of Prince Edward Island to extend the provisions of the Bank Act to this bank from March 1 next.

The Stanley arrived at Pictou from Georgetown about half-past eleven o'clock this forenoon.

At the Capes.—The ice boats arrived at Cape Tormentine at 12.55 o'clock with 31 bags of mail matter, and left again shortly before 2 o'clock with 60 bags of mail.

The Banking Fleet.—The Newfoundland banking fleet in 1891 numbered 270 vessels; 15,212 tons; the number of men employed was 8,719; the quantity of fish taken was 147,948 The average catch per schooner was 530 qtls., and the average catch per man was 40 qtls. The vessel which brought in the largest catch for the season was Messrs. John Munn & Co's schooner Mary M., Capt. Neill, her total being 2,350 qtls.

Another Tunnel.—A recent despatch from Huron, Mich., says: The St. Clair tunnel company has purchased considerable land immediately adjacent to the site of the present international tunnel, and, it is said, will begin operations for the construction of another tunnel inside of sixty days. The new tunnel will be used for western traffic, while the old will be utilized for the eastward.

Newspaper Sold.—The Montreal Herald was put up at auction on the 22nd, and knocked down to J Brooks Young, of the New England Paper company for $11,350, the company being one of the largest creditors. Some weeks ago, R. White, of the Montreal Gazette, offered $15,000 cash for the paper, but the offer was refused. The future of the Herald is as yet uncertain

By looking at the quotations of the Virginia tobacco markets it will be found that the highest price paid for "fillers"—which is the tobacco which forms the body of the plug—very closely corresponds with the invoiced price of tobacco leaf imported into Ontario. As over four-fifths of all the leaf imported into the Province is for "Myrtle Navy" stock, this fact is official proof of the claim that the "Myrtle Navy" is made of the finest Virginia leaf.

Special Despatches to The Examiner.

Victory Again!

East Simcoe Redeemed!

A Difference of 240 Votes in Favor of the Government Since March Last.

Collapse of the Grit Party.

Toronto, Feb. 26

The final returns from East Simcoe show that Mr. Bennett, the Liberal-Conservative candidate has been elected by 36 of a majority. The Grits tried to keep their courage up to the last with the delusion that Spohn was re-elected by a small majority. They now concede the utter collapse of their party.

Elections To-day.

The Conservatives Pretty Sure.

Pacaud's Complaint.

London, Ont., Feb. 26.

There is great excitement in town over to-day's electoral contest. After a careful summing up, the claim is made that nothing but the most unblushing corruption can prevent the Hon. John Carling's election. It is true, the younger men of the party would have preferred Mr. Meredith's entry into Dominion politics. But there is no break in the ranks, and the county may await with confidence Mr. Hyman's defeat.

Quebec, Feb 26.

The Laurier party as good as concede Quebec West to the Government to-day.

L'Electeur complains that the Mercieritesare without one cent which is, no doubt, very galling to Mr. Pacaud and others of Mr Laurier's Quebec friends, who, during the past five years had nothing to do but put their hands into the provincial treasury when a local or federal election was on hand.

Narrow Escape.

San Francisco, Feb. 26.

The jury in the case of M. B. Curtis, the actor, on trial for murdering Policeman Grant, reported that they were unable to agree and were discharged. The jury stood ten for conviction, two for acquittal.

Death of a Well-known Haligonian

Halifax, Feb. 26

Mr. C. B. Bullock, son of the late Dean Bullock, and one of the best known barristers of this city, died this morning of rheumatism, after a few days illness.

Formal Declaration.

St. John, Feb 26.

The adjourned session of Queen's County Election Court was held at Gagetown yesterday. The judges formally declared Mr Baird (Conservative) elected to the seat.

Grain Elevator Burned.

Greenfield, Mass., Feb. 26.

A grain elevator owned by S. S. Sprague & Co. was burned here yesterday. The loss is $100,000.

Weather Bulletin.

Toronto, Feb. 26.—10 a. m.

Mostly cloudy and mild, with light local showers.

Hockey at Victoria.

(Special by Telephone.)

A very interesting and exciting game of hockey was played in the Skating Rink at Victoria last night between the Salvage Corps and Allcomers. All the players belonged to Charlottetown. The teams were made up as follows:—

SALVAGE CORPS.

Capt—J Rundle.
Goal—J B Dawson.
Point—S McLeod.
Forwards—N Rundle, J F Whear, J A Moore.

ALL-COMERS.

Capt—F W L Moore.
Goal—Geo Moore.
Point—A S Urquhart.
Forwards—S C Moore, A Saunders, L G Whear.

The game was a great success. About 300 or 400 people were present, and they enjoyed the fun. The best of order prevailed, and Secretary Urquhart, of the Hockey Club, deserves congratulations The ice was a little bit soft, otherwise there would have been nothing to complain of. The Citizens' Band of Summerside furnished music during the games.

In fifteen minutes after the game began, the Salvage Corps by hard play secured the first goal. Fortune went with the other side after that, and the All-comers won the next goal in five minutes. Half time was called, and for half an hour skating was indulged in.

When play was resumed the All-comers settled the fortune of the day by making a goal after five minutes struggling. The score thus stood: All-comers 2 goals, Salvage Corps 1.

OUR SEEDS SUIT THIS CLIMATE.

THIS is where we have the advantage, and our customers as well. Our Seeds are suited to the climate and soil of Prince Edward Island; have been tested and proved and found to be the best. Here is where we claim superiority over all foreign seedsmen, and the rapid increase of our business shows that the people of this Province see where their interests lie. Scores of people who formerly sent abroad for their seeds do so no longer. We get their orders, and the benefit is theirs as well as ours.

Successful seedsmen are reliable men. A man must deal honestly to prosper in the Seed business. His seeds will tell their own story when they grow. Many of those highly-praised, finely-illustrated specimens of vegetables in the pages of the big catalogues are what they are said to be when grown in certain latitudes, but planted under different conditions of soil and climate the result is failure. The plants miss the favoring conditions of their native land.

Our Seed Catalogue contains a list of several hundreds of varieties of Seeds, fully described and illustrated. If we knew of better seeds than those we have in stock we would get them, for we think the best none too good for us to sell or for our customers to buy.

If interested, write for our Illustrated Seed Catalogue for 1892. Address:
