Friends of Mrs. Spurgeon Walker are sorry to hear that illness has necessitated her entering the King's County Memorial Hospital at Montague for a few days.

On Sunday, October 28th, Mr. Joseph Johnson picked several beautiful strawberries in his garden. This is but another report of the strange off-season growth which seem this year to be more prevalent than usual.

Dragger Operations Bringing Huge Sea Harvest To Souris

More than five hundred thousand pounds of haddock and eighty thousand pounds of flounder have been landed by draggers at Souris in the past four weeks for the Island Fisheries Co. Mr. Charles Boylan, office manager for the company, quoted these figures yesterday and forecast that with luck the new type fishing craft would run the total to over a million pounds of haddock during the season ended. It is estimated that the sum total of all the haddock caught off Island shores in the past quarter of a century would not equal this figure. The same can be said of the flounder landings. When the draggers started operations only three skilled fillet-

Canadian Destroyers Weather Fierce Typhoon

ABOARD H. M. C. S. ATHABASKAN OFF KOREA, Nov. 1.—(CP)—The worst typhoon to hit the Japanese area in 20 years pounded two Canadian destroyers savagely and severely and, among many other predicaments, wrecked every lifeboat aboard one of them. No lives were lost but the sea men aboard this destroyer and Sioux came through hours of violent winds of 70 miles an hour and towering seas which rolled feet-deep over the decks and battered and tossed the tough little warship as though they were toys. A third R. C. N. destroyer serving off Korea, the Cayuga, was outside the storm area. Once it was all over and they could laugh again, Athabaskan's seamen nicknamed the typhoon "Ruth" and sent off this message to the Australian destroyer Tobruk which was inquiring about the experience: "I met Ruth on a Sunday night in a dark alley known as Korea Strait. She was typical of her kind, only worse. She bit, spat, scratched, kicked and took me for my roll. All the same, she was quite a gal and worth knowing once. Sorry I can't introduce you but she left for parts unknown." Athabaskan, in company with two Royal Navy ships, originally sailed from her U. N. naval base in Southern Japan in an attempt to escape the storm. The three warships made the navigable semi-circle which meant comparative safety. But they did not get away without a buffeting.
