

# Truce In Far East Sought By Nikita

By JOHN M. HIGHTOWER  
WASHINGTON (AP) — Soviet Premier Khrushchev apparently trying to find some formula for a cold war truce in the Far East as well as in Europe. U.S. officials doubt that he can succeed — if that actually is his present purpose in Red China — but they are impressed with the way he has publicly lived up to the spirit of his talks with President Eisenhower on his trip to Peking.

His warnings to the Chinese Communists against upsetting his efforts to develop more peaceful relations with the Western powers have been taken in official quarters here as further proof of the view that Khrushchev needs at least a breathing spell in the East-West conflict.

His public performance in Red China has been a kind of test in the view of the U.S. government of his follow-up attitude toward his talks with President Eisenhower last month. Appraisals of his cannot be definite yet because no one here knows what Khrushchev and the Red Chinese leaders have been talking about privately, but the conviction is growing that Khrushchev may be trying to use his influence to try to get the Chinese Communists to take some steps toward improving their own relations with the United States.

**FIRST TEST**  
The first test of Khrushchev's intention to carry out the letter and spirit of his discussions with Eisenhower came last Tuesday. At that time, just before leaving for Peking, he confirmed the president's press conference announcement Monday that Khrushchev had agreed there would be no time limit on new negotiations for a Berlin settlement.

What happened was this: When Eisenhower and Khrushchev got into a stalemate over Khrushchev's threat to squeeze the allies out of West Berlin, they

**PIUSVILLE**  
Miss Catherine Gallant, Toronto is vacationing at the home of Mrs. Philip Gallant, and Mr. and Mrs. Delore Gallant. A large crowd attended the bingo at the home of Mr. and Mrs. John T. Gallant on Wednesday evening, in aid of the OWL.

Mr. and Mrs. Allie Gallant recently moved into the house they purchased in Piusville.

Potato digging is in full swing in this vicinity. Reports are the crop is not as heavy as last year. Mr. Earl Lake, Toronto is visiting in Piusville.

**SLOW DOWN AND LIVE**  
Driving upon the public highways is a privilege as well as a legal right. We owe it to ourselves and to the other driver to have our cars in good working condition; to drive at moderate speed; to observe all traffic rules and to DRIVE CAREFULLY.

This aim combined with adequate Insurance Cover will bring relief from anxiety in many Canadian homes.

**O'LEARY**  
Mr. and Mrs. Wilfred Hickey who have been employed for some time in Newfoundland, returned to their home in West Point, and are receiving a very warm welcome from their friends.

Mrs. James Auld, Glenwood, is a patient in the Community Hospital, O'Leary.

Mr. Claude Jelly has redecorated the exterior of his new house which presents a very fine appearance in the village of O'Leary.

Mr. and Mrs. Harold A. Jelly, O'Leary, were receiving congratulations from their friends when they observed their 15th wedding anniversary on September 24th. Mr. Jelly is married to the former Dorothy O'Brien of O'Leary. Rev. Mr. Mercer of Summerside performed the ceremony. They have one daughter, Marie. Mr. Jelly owns and operates the Jelly Department Store in O'Leary. He and Mrs. Jelly and daughter reside in their new home which was built one year ago.

Mrs. Bernie Oulton, Unionvale is a patient in the Community Hospital, O'Leary.

Mr. Theodore Ellis has returned to his home in Ellerslie after being a patient in the Community Hospital, O'Leary.

Mr. and Mrs. Roy Buchanan, Moncton, N.B., spent a very pleasant week-end visiting her sister and brother-in-law, Mr. and Mrs. W. N. MacWilliams, O'Leary.

Mr. Willie Dymont, West Point, is a patient in the Community Hospital, O'Leary.

Mrs. Lillias Aubrey, left Friday morning to spend the winter months visiting her daughter and son-in-law, Mr. and Mrs. Lloyd Henderson, in Quebec.

Rev. Keith Rogerson, minister of the O'Leary United Church pastoral charge, exchanged pulp-

its with Rev. Dewis Rector, minister of the West Cape pastoral charge, on Sunday, Sept. 27th.

Richard, son of Mr. and Mrs. Harold MacNeill, Unionvale, is a patient in Western Hospital, Alberton.

Mrs. Ina Rix returned to her home in Springfield West, after spending a few days visiting her daughter and son-in-law, Mr. and Mrs. Raymond MacIsaac, Glenwood.

Mrs. Gerald Shaw entertained the Haliburton Women's Institute at her home on Tuesday evening, with seven members attending. At the close of the meeting a baby shower was held for Mrs. Shaw. A social hour followed.

Mr. Golding Frizzell who has been employed by the Bruster Transport Co. in Banff, Alberta, arrived home by plane, Friday, and will spend a couple of months visiting his parents, Mr. and Mrs. Sterling Frizzell, Springfield West.

Sincere sympathy is extended to the wife and family of the late Mr. George Bernard an old and very respected man in O'Leary, who passed away at his home late Tuesday night.

Mr. Norman MacDougall, accompanied by his mother Mrs. Neil MacDougall, of Moncton, N.B., were recent visitors at the home of Mr. and Mrs. Bernie MacIsaac, Dunblane, and Mr. and Mrs. Stanley MacIsaac, Glenwood, and other relatives in the vicinity.

Mr. and Mrs. Ted Sabine and two boys, Charlottetown, spent a few days visiting their parents, Mr. and Mrs. Alvin MacIsaac, Hebron, and Mr. and Mrs. Jago Sabine, West Point. They also vis-

**THOUGHTS FOR OUR TIME**  
BY HIS EMINENCE CARDINAL MCGUIGAN

**NO ROOM FOR PRIDE OR COMPLACENCY**  
Perhaps the most characteristic feature of the mental climate of today is man's pride in his knowledge. Largely a result of the scientific revolution it has reached the point where man, so dazzled by the many remarkable facts which he has discovered about the universe and the many wonderful things he has made for his own comfort, has become somewhat over-optimistic about his powers of discovering truth and also about the value of scientific truth.

In other words, scientific truth (we are speaking of the natural sciences) has come, in popular thinking, to include the whole truth. This is on the conscious, rational level. However, the deep anxieties which lurk beneath the rational surface of our thinking point to the incontestable fact that we are not nearly as sure of ourselves as we pretend to be. And this deep uneasiness may yet prove to be our salvation.

No one would think of depreciating the achievements of the natural scientist. The progress made in medicine, engineering, electronics — to name but a few areas — has made our lives so much longer, has rid them of so much pain and filled them with so much comfort, that a man

with other relatives, in O'Leary.

Mrs. Edgar Harris, Knutsford has had the misfortune to fall down stairs. She received a bad gash on her hand which necessitated six stitches, besides a severe shaking up.

Mr. Glen Lidstone, Student at Acadia University, is visiting relatives and friends in O'Leary and Mt. Royal.

The Alma Baptist Church was packed to capacity Sunday night, when the W.M. Society held their Thankoffering service. The church was nicely decorated with flowers and vegetables. Rev. Ross Howard conducted the service and special music was supplied by the Springfield West Choir also a film on Missions was shown. A solo, "The Stranger of Galilee," was nicely rendered by

Mrs. Ross Howard, and a solo by Mr. Lester Gay.

**REAL DANGERS**  
While the dangers are very real, and while it is quite proper to point them out, the fact remains that the achievements have been made and that, for better or for worse, we cannot turn back the clock. That is, we cannot abandon the life we have made for ourselves (although much of it) but rather we must strive to make the best of it. The great danger, at any rate, lies not in the bomb or in any other achievement of the scientist, but in the use which we make of them.

And this is where our fears and deeper anxieties can play a positive role, for they point to the inadequacies of science to answer the questions it has raised. They point to the fact that the really important matters of life lie outside the scope of the scientific method.

Science can help us live a healthy life, but it cannot tell us the purpose of life itself. It can build us beautiful homes, but it cannot tell us how to keep our families together.

What am I doing in this world? What is my final destiny? How

should I behave towards other men? What should I teach my children? These are the important questions about life. These are the first questions to ask, for on the answers to them depend the answers to all other questions.

And to these questions science has nothing to answer. Indeed, a great part of the anxiety which we feel today is a result of our refusal to face these big issues, of leaving them to the scientist to answer.

**SEEK ANSWERS**  
There is, then, little reason for man's taking an undue pride in his knowledge. True, we know more than our ancestors. But do we know more than they about the really important things? This is really disputable. Do we not, like they, have to seek the answers in the only place in which they can be found?

For Sacred Scripture, as interpreted and developed in religious doctrine, is ultimately the only

place in which one can find a totally satisfying and comprehensive picture of man, his relation to God, to other men and to the universe. No human philosophy, no psychology, no natural science — or any combination of these — can provide a proper answer to the mystery of life.

Only the Origin and Source of all life — and being can supply the answers which we need. And if we would have these answers, we must seek them in the places where He has revealed them. But here — to return to the thought with which we began this article — there is no room for pride or complacency in our human knowledge.

For what we know is infinitesimal compared to what we do not know, and what we have learned by our human efforts unimportant compared with what we need to know. But God resists the proud. So if we would have the answers to the big questions of life, we must seek them in all meekness and humility.

**LINKLETTER SCHOOL**  
Following is the standing for Linkletter School for the month of September:

Grade X: 1. Donald Linkletter, 2. Helen Linkletter, 3. Arlene Wood and Laura Rogers (equal).

Grade IX: 1. Allan Rogers, 2. Patrick Coulson, 3. David Linkletter, 3. Merrill Hardy.

Grade VI: 1. Olive Rogers, 2. Wayne Clark and Shirley Linkletter (equal), 3. Alvena Wood, 3. Connie Enman.

Grade III: 1. Wilma Rogers, 2. Ronnie Enman, 3. Earle Rogers.

Grade II Sr.: 1. John Brooks, 2. Gary Linkletter, 3. Roy Linkletter, Joyce Costain.

Grade I Sr.: 1. Mary Costain, 2. Bloice Wright, 3. Sybil Costain.

Grade I Jr.: 1. Betty Linkletter and Kent Linkletter, 2. Pauline Wright.

Highest average in senior grades Donald Linkletter 95.5 percent.

Highest average in primary grades Sharlene Clark 95 percent.

Teachers: Mrs. Elma Linkletter and Mrs. Hester Linkletter.

**GRAIN EXPORTS DOWN**  
OTTAWA (CP)—Combined exports of oats, barley, rye and flaxseed declined to 95,500,000 bushels in the crop year ended July 31, down 24 per cent from 125,600,000 bushels in the previous year. The bureau of statistics said the decrease was caused mainly by a drop in exports of oats and barley to the United States. Flaxseed was the only one of the four grains exported in greater volume.

**PROBE NORTHERN LIGHTS**  
STOCKHOLM (AP) — What turns on the northern lights? Swedish scientists are preparing to send up instrument-carrying rockets in an effort to find out. The rockets will be sent 75 to 150 miles up, high into the luminous phenomenon, which begins about 60 miles above the earth.
