The River Thames, 210 miles long, is navigable by ocean-going steamers as far as London.

Display Of Coins At The O'Leary Rexall Drug Store

— There is in open display in the O'Leary Rexall Drug Store some two hundred coins of odd sizes and shapes from many countries of the world. Some are fairly old while others have peculiarities. Besides these, there are four and one half pounds more of old coins, placed in a bowl for convenient keeping.

Of those on display, twos and threes are in cellophane containers so that the oddities may very readily be noticed. The others are in a fairly large case with a glass front. The coins are placed almost perpendicular on glass supports with a mirror in the rear so that both sides of the coin may be seen.

Some are of rare value. "The Anna", an India coin, is worth two cents of Canadian currency. In the collection is a small coin five-eighths of an inch across bearing the superscription, "One twelfth of an Anna".

When Sgt. Major Ira Ellis of O'Leary was over on the Coronation trip, he visited Dundee, Scotland. Here a typical Scotsman presented him with a coin about the same size as the above "one third of a farthing". "Rare Value". This also is on display.

Paper Currency

Very little has been said about paper currency. This also has its oddities and its antiques. Some seventy-five pieces of paper money are well displayed in the O'Leary Rexall Drug Store. They are placed individually in cellophane envelopes. They can thus be seen and handled without injury. They are of many sizes and come from many countries of the world, brought back by the men returning from military service and assuming home duties. Where have our boys not been? One went into the drug store and handing out a piece of paper with peculiar letters and words said: "You can have this". The natural question then followed: "What is it? The reply: "I got it when I was in Greece".

There are other notes from nearer home. One dollar — Farmers Bank of Rustico. One, two and five dollar bills from "The Bank of Prince Edward Island" which failed some sixty-five years ago. There are Canadian 25 cent scripts, sometimes called "Shin Plasters". There is a twenty dollar note from the Confederate States. There are some other pieces of United States paper money that very few from home have ever seen or even heard of: — a small piece of paper measuring 1¼ by 2½ inches dates 1863; United States three cents; another a little larger United States ten cents, and another same size date 1874 United States X cents. These are all well printed on both sides. There is a script 2¼ X 3 3-8 inches Una Peseta.

There are other bills of various sizes:— Cent Francs, Banque de la Cuyana 4¾ x 7 Reichbanknote 100,000 mark 4½ x 7¾; Vingt Francs, Banque De L'Algerie 4½ x 7 Govt. of Hongkong 1 cent. 1 5-8 x 3¾; The Hongkong and Shanghai Banking Cororation five dollars 4 x 7. This note has on the front the autograph of Col. Moore Cosgrave D.S.O. and date Sept. 8th 1945. This was the occasion of Japan signing the surrender agreement on board the U. S. S. Missouri in Tokio Bay and Col. Cosgrave was the representative of the Canadian Government.

Antique Pieces

In the same envelope is a hand written statement guaranteeing the autograph as being genuine and signed by John H. Prince who gave the note to Mr. A. J. Matheson, proprietor of the O'Leary Rexall Drug Store, who is always ready and willing to show visitors over his extensive and varied museum of old, antique and rare articles, and explain their significance. Col. Prince was with the Canadian forces when Hongkong was taken by Japan and remained in prison camps till 1945. There are not many envelopes like the above which contain the autographs of Moore Cosgrave and John H. Prince.

To the tourist and to the visitor, especially those of the teaching profession, a visit to Mr. Matheson's up to date and modern drug store and an hour or two looking over his varied collection of interesting and historical items, will be a liberal education in itself and will make the history of our "Garden Province" and the Maritimes and of the world in general much more interesting and attractive.

Mr. Matheson is one of the leading citizens of O'Leary and takes a great interest in all that pertains to its welfare, the Canadian Legion, the Public Library, the School etc. But his greatest service to the community is his outstanding contribution to the large United Church Sunday School of over 100 students, of which he has been the devoted and conscientious Superintendent for over fifty-one years and in the Church of which he is the honored and respected Senior Elder. This year he resigned as Treasurer of the O'Leary Church after giving 31 years of splendid service.

Except in a large provincial museum, this correspondent has never seen such a large and varied assortment of historical relics as those possessed by Mr. A. J. Matheson. When the Provincial Government builds its new museum, Mr. Matheson is planning to donate his collection to that building. It has been an interesting and instructive hobby with Mr.. Matheson for many years to collect items of our past history and he is, without a doubt, one of the most informed historians in the province of Prince Edward Island.

Miss Jean Boulter Becomes Bride of J. H. Thompson

—The Danforth Avenue United Church in Toronto was the scene of a quiet wedding on Saturday, March 11th, when Rev. John E Bell, B. A., united in marriage Jean Winnifred, daughter of Mr. and Mrs. Harris Boulter, Albany, Prince Edward Island, to John Hubert Thompson, formerly of Yorkshire, England.

The bride chose for her wedding a street length dress of powder blue wool made on simple lines with matching hat and accessories. Her corsage was of red roses and white hyacinths. She was attended by Mrs. A. J. Bowman, sister of the groom, who wore a pink taffeta dress with corsage of pink and white roses. The groomsman was Mr. A. J. Bowman of Hespeler, Ont.

Following a wedding dinner, Mr. and Mrs. Thompson left on a honeymoon trip to Niagara Falls and other points of interest. They will reside in Toronto.

O'Leary and Vicinity

Continued from page 2

Tignish, calling at O'Leary enroute, and again as train 54 when it returned to Summerside. These locomotives weigh seventy tons and there will be eighteen of them delivered to the Island branch of the C.N.R. Those who had not seen the powerful diesel locomotive painted yellow couldn't mistaken its distinctive horn and engine rumble. These are test runs being conducted by the various officials of the supplying company to ensure efficient operation. Although the diesel engines of a year ago did not measure up to the high expectations and were withdrawn from the Island run, it is confidently predicted that these new 70 ton engines will give excellent and efficient service. The C.N.R. is to be congratulated on their enterprise in purchasing them for the Island railway and also for putting a second ferry on the Borden-Tormentine run during the height of the tourist season from June 15th to Sept. 15th. This will be of immense benefit to the local residents as it will cut materially the wait on the piers if you miss a ferry and it will be an added incentive for the many tourists who visit our "Million Acre Farm" called appropriately "The Garden of the Gulf".

The O'Leary Women's Institute met in the O'Leary school on April 17th with the president presiding. The meeting opened with the Creed. There were twenty-three members and one visitor. Twenty-two boxes of cake mix were handed in for an overseas parcel. It was decided to get the pictures for the school framed at Eaton's. The president reported that the Legion is getting the piano tuned. Mrs. George Matheson was appointed to represent the Institute on the Film Council that is being formed. The report of the O'Leary Fire Dept. committee was given by Mrs. Harry MacWilliam. The Institute plans to canvass the town and district in aid of the Fire Dept. The roll call for May is to be answered with a grab bag. Mrs. George MacDonald reported two sick calls and one treat. Mrs. Philip Thompson reported four sick calls and one treat. The Red Cross secretary distributed some material. One pair of pyjamas was returned; $3.25 was handed in as payment for capsules. The Government Grant was received. It was decided to invite the East Bideford players to present their play on behalf of the Institute in O'Leary Hall. The committee appointed to look after the play is as follows: Mrs. Albert Noonan, Mrs. Arthur Harris and Mrs. Philip Thompson. The Institute agreed to sponsor the O'Leary Boy Scouts. The letter on economics was read and the questionnaire answered. The collection for the evening amounted to $4.60. The program committee for May: Mrs. Jewell MacDonald and Mrs. J. M. MacWilliam. The lunch committee for May: Mrs. C. O. Howlett, Mrs. Arnold MacDonald, Mrs. John Matthews and Mrs. William Ellis. After the adjournment two contests conducted by Mrs. Herbert Vatcher and Mrs. Philip Thompson were thoroughly enjoyed. Lunch was served by the hostesses in charge.

The Miss America beauty contest originated at Atlantic City, N.J., in 1921.

"Where Old Friends Meet"

The Neighbors — By George Clark

"I asked her to tell him I'm not in today and she's carrying on a half hour conversation!"

GREEK CRIPPLE AIDED BY CANADIAN SCIENCE

MONTREAL, April 27. — (CP) —Mary Coulacuo, a pretty 21-year-old Greek girl who had to be carried from a ship to the Montreal dock with a smashed spine seven months ago, is leaving for her homeland—— under her own steam.

Mary will not be walking but it will be next best thing to it. She still needs leg braces and crutches.

The girl was injured in an automobile accident in Athens in March, 1948, and was told she would never walk again.

Eighteen months later she met Dr. Arthur E. Elvidge of the Montreal Neurological Hospital, who was visiting Athens.

Dr. Elvidge advised her to come to Canada where medical science here and the paraplegic rehabilitation centre could help.

All the girl had was an unshakable optimism that her helpless limbs would carry her normally again.

The Montreal doctors decided upon physiotherapy and after three months she was able to stand with the aid of leg braces and crutches.

Last Christmas she was discharged from hospital and lived with a family in suburban Montreal West.

Doctors are still undecided whether Mary will walk unaided again. But to the pretty brunette that is nothing. "I am determined to walk," she says.

ALREADY DONE

SEVEN KINGS, Essex, England —(CP)— When a tobacconist arrived at his shop to open it one morning recently he found a truck had mounted the sidewalk and broken down the door.
