- "Monthly Meeting of Mt. Stewart Branch Canadian Legion will be held in Legion Room on July 10th, 1950. R. H. Inness, Sec'y-Treasurer.
- "Regular dance Winsloe Station Hall, Tuesday July 11. Eastern Rhythm Boys Orchestra. Canteen service. Admission 50 cents. Dancing 9:30-12:30. Bus leaves I. M. terminal 9:30.

American combat units are being made ready to move to the Far East in the "near future." These developments followed swiftly upon Saturday's action by President Truman in naming Gen. Douglas MacArthur to the unprecedented post of supreme commander for United Nations forces fighting against the Communists in Korea. The general was directed to fly the blue-and-white U. N. flag.

Plans to prepare for overseas mid-day Sunday had been issued to the 2nd Infantry Division and to anti-aircraft units from the Fourth and Sixth Armies, whose headquarters are respectively near Houston, Tex., and at San Francisco. Also warned to stand by were units of unidentified nature from the second army area, Baltimore, and the third army area, near Atlanta, Ga.

The 1st Marine Division, with its aviation outfit, is waiting to sail from the west coast. The Defence Department, for security reasons, declined to say precisely where in the Far East these units will land.

Despite growing indications that the armed forces are tapping their regular units within the United States to hurry help to the Korean defenders, the Defence Department still is relying on volunteers to boost its manpower.

It holds in abeyance, the power President Truman gave it last Friday to draft men if necessary. How soon it uses that power depends upon how fast reservists and new recruits meet the urgent invitation of the armed forces to don uniforms.

A navy spokesman said the Netherlands has offered to send a Dutch destroyer to join the United States Seventh Fleet, and that the offer has been accepted.

### PLAN AIRSHOW

FREDERICTON, July 9—(CP)—Vampire jets and Harvard training aircraft from the R. C. A. F. Base at Chatham, N. B. will stage an airshow here July 16, the Fredericton Branch of the R. C. A. F. Association announced during the weekend.

## Vacation-Bound Group Killed In Collision

BRADFORD, Ont., July 8—(CP)—Bound for a quiet week-end holiday, three men, two women and a boy met sudden death Friday night when their automobile collided with a bus near this town 40 miles north of Toronto. The crash wiped out a family—Charles McCloy, 36, his wife, Stella, 30, and their nine-year-old son, James. Also killed were Marjorie Davis, 21, and Robert Davis, 19, sister and brother of Mrs. McCloy, and Lyle Reddick, 25, driver of the car. All were from Toronto except Miss Davis whose parents live in Norwood, Ont. The mishap, on the crest of a hill six miles north of here, involved three vehicles. A south-bound bus carrying only one passenger was sideswiped by a stake truck. The bus wavered into the left-hand lane, striking the north-bound automobile.

## Australian Planes Lead Assault On Red Tanks

By Roy MacIntyre  
WITH AMERICAN FORCES IN KOREA, July 9—(Reuters)—Australian Mustang fighters today led Allied planes in a terrific rocket and machine-gun strafing attack upon North Korean tanks and infantry driving southward. I had a grandstand seat for the attack, seated in an observation post overlooking the platted area. Two Australian Mustangs flew over concentrations of enemy tanks, then dived. We heard the brittle crackling of strafing machine-guns. It was evidently a trial run to identify the targets definitely. Rocketing came next. Wheeling over low hills, the planes split up for long flat dives on the enemy positions. The white turned to a roar. Then he saw

### Would Have Atom Bombs, Germs Ready

LONDON, July 9—(Reuters)—The unofficial "Anglo-French Committee For The Study Of European Questions" Saturday night urged the Western Powers to prepare an atom bomb and bacteriological warfare offensive capable of laying Russia waste in a few hours should Russia attack any of the Atlantic powers.

The committee's report said Western Europe can not hope to match Russian manpower and must anticipate "the danger of an atomic Pearl Harbor."

The report opposes the outlawing of atomic and bacteriological weapons. It says nothing but fear of these weapons will deter a would-be aggressor from making war.

Committee members include Paul Reynaud, former French premier; Socialist leader Maurice Schuman of France; Rene Cassin, vice-chairman of the United Nations Human Rights Commission, and Paul Claudel, a former French Ambassador to the United States.

Britons on the committee are a civil aviation expert, Lord Brabazon; Lord Vansittart, a strongly anti-Communist peer; and Air Vice-Marshal Donald Bennett, R. A. F. Pathfinder chief during the Second World War.

The committee says its "total war" proposal was based on a theory of the great French bacteriologist, Louis Pasteur, that "war

### Old U. S. Destroyer Bound For Scrap Heap

MONTREAL, July 9—(CP)—The four stacked former United States destroyer St. Clair is bound for the scrap heap at Halifax. The Guard Salvage and Wrecking Company announced here Saturday that the 361-foot ship will go to the scrap heap Monday at Halifax. It is expected the former naval craft will yield more than 1,000 tons of scrap.

The St. Clair was one of 50 naval vessels turned over to Canada by the late President Franklin Roosevelt. She was stationed off the eastern coast of Canada on the vital Atlantic convoy route

### Boy Rescued From Drowning At Georgetown

A near tragedy was averted on Friday afternoon at about 4.15 p. m. by quick thinking and action. Master Dennis Martell, five-year-old son of Mr. and Mrs. William S. Martell, accidentally fell off his father's wharf when he wandered out of sight of his parents for a few minutes. The little lad evidently swallowed a large quantity of water, as when discovered by his searching parents, he was seen to be lying on the bottom.

Neither parent could swim but their cries brought a number of young men quickly to the scene and Harold MacLean dived in and brought the little lad to the surface. Arthur MacSwain skillfully supplied artificial respiration and succeeded in bringing the boy back to consciousness. He was then relieved by Cullen DeLory.

The boy was moved to a near-by house and Dr. Kennedy was called later on Friday evening the little lad had recovered sufficiently from his experience to be moved to his home in near-by Burnt Point.

### Recover Loot From Holdup

TORONTO, July 9—(CP)—Police arrested a 21-year-old Toronto youth Saturday at Brackbridge, Ont., 100 miles north of here and recovered all but \$3,000 of the \$21,000 stolen in a payroll robbery at the Acme Dairy here Friday. Provincial Police arrested a Pat Italiano with a girl, companion and took him to Toronto, where he led police to a \$4,500 cache. Kenneth Grimley, 19, and Pat Marino, 25, were arrested Saturday and charged, together with Italiano, with armed robbery, shooting with intent to maim and automobile theft. A man who pursued the robbers was shot in the foot. A fourth man, John Cowell, was held as a material witness.

### Heads U. N. Forces In Korea

Gen. Douglas MacArthur, commander of the United States occupation forces in Japan since the end of the Pacific War, and who has been named supreme commander of the United Nations forces in Korea. His appointment was announced over the week-end.

## Premier's Herd Warmly Commended By Visiting British Agriculturists

Premier J. Walter Jones herd of Holstein cattle were acclaimed to be equal to or better than any cattle herd in England by seven British Agricultural Scientists who arrived here yesterday morning for a 48 hour visit to the Province.

Headed by Sir William Ogg, director of the Rothamstead Experimental Station in England the group visited Premier Jones farm yesterday afternoon. They were particularly impressed with the high butter fat test of the herd which prompted Mr. J. H. Anderson to state that he had never heard of a herd test quite so high.

The Premier's pasture land was accredited with being the best seen by the scientists since they arrived in Canada. The strong stemmed and deep colored grain crops and the tidy appearance of the Province also impressed the visitors during their limited observation period yesterday.

Enjoyed Aerial View  
A plane trip sponsored by Premier Jones and Hon. C. C. Baker, Minister of Agriculture gave the majority of the visitors an opportunity to view the central section of the Province from the air. They noted an evident soil fertility, red soil closely resembling that of England, and well kept farms with small lots on each.

Their air tour took them along the south shore of the Island to about the King's County line thence across to Kensington and Cavendish and back to Charlottetown via the North Shore. In addition to Sir William Ogg,

### Predicts Employment Of More Women

HALIFAX, July 9—(CP)—All signs point to the employment of more and more women in continually widening fields of endeavor, W. K. Rutherford of Ottawa, director of the National Employment Service, Saturday told delegates attending the Canadian Federation of Business and Professional Women's Clubs convention. In March, of a total of 1,946,000 employed women, 286,000 were married. In Canada, he said, single women workers outnumber married women by more than two to one, while in United States married women workers outnumber the single ones. Mr. Rutherford said sweeping changes in economic and social conditions as well as two world wars were underlying causes of the growth in the number of women working outside the home.

### Report American Tanks In Action For First Time

(By The Associated Press)  
TOKYO, July 10—(Monday)—United States ground forces, powerfully supported in the air, Sunday halted—temporarily at least—the deepest southern push of the North Korean Communists. A field dispatch by Tom Lambert, Associated Press correspondent, dated at 7:05 p.m. Sunday (5:05 a.m. EDT Sunday) said the Communist thrust was stopped with the aid of both artillery and

TOKYO, July 10—(Monday)—(AP)—Gen. MacArthur announced today that a "lost" battalion of U. S. infantry had cut its way back to American lines in South Korea.

aircraft at an unspecified point south of Chonan. Chonan is about 35 miles northwest of Taegju, which has been identified previously as American field headquarters.

(U. S. tanks have been thrown into the fighting for the first time, Reuters news agency reported in a Tokyo dispatch. It gave reports from the battlefield as the source of its information. Aerial reconnaissance Sunday

### Airlift For Army Trainees To Ont. And N. S.

The "airlift" of Prince Edward Island and Newfoundland Reserve Army troops and cadets to training centres in Ontario and Nova Scotia is on. Operated by the Maritime Central Airways flights have been made from Charlottetown, and St. John's to Pictou, Ont., Ottawa, and Greenwood, N. S.

Yesterday some 60 members of the 28 Light Ack Aek Regiment, Lt.-Col. H. Gordon Williams, officer commanding, embarked for Pictou where they will undergo nine days training at the Royal Canadian School of Artillery (Ack Aek). The batteries taken part are 114, Charlottetown; 204, Montague; F Group of 204, Souris, and 189 of Stellarton, N. S.

Two DC 3's took off from the local airport shortly after 8 o'clock yesterday morning and arrived at Pictou about one o'clock local time.

Saturday M.C.A. moved 39 Reserve Army officers from St. John's, Newfoundland, to Ottawa with a short stop over in Charlottetown for dinner. They will undergo training at Petawawa. This party will be returned to St. John's on Thursday and another group of 37 down to the Ontario training centre.

On Tuesday, July 4th, 117 Army Cadets from St. John's, Buchanan, and Stephenville, Newfoundland, were flown to Greenwood, N. S. where they were picked up by Army transport for training at Aldershot, N. S.

Previous to the "airlift" of Army Cadets, 135 Sea Cadets from Newfoundland were moved from St. John's to Greenwood enroute to Cornwallis for summer training. They will be flown back to St. John's on Friday. Five trips by DC 3's were made in this operation.

### Senate Appointments Are Expected Shortly

OTTAWA, July 8—(CP)—Prime Minister St. Laurent, now free of heavy sessional responsibilities, is expected to give consideration soon to the filling of vacancies in more than 20 important government and parliamentary positions.

The vacancies awaiting the attention of Mr. St. Laurent on his return Tuesday from a four-day trip to Western Canada are in the Senate, on the Bench and in some top-ranking positions in the Government service.

There are 12 vacancies in the Senate—three each in New Brunswick and Newfoundland, two each in Ontario and Quebec and one each in British Columbia and Prince Edward Island.

Filling of the seats could necessitate a reshuffle of Cabinet posts. There have been persistent rumors that Fisheries Minister Mayhew will be appointed to fill the Quebec vacancy and that State Secretary Bradley will be named for one of the Newfoundland seats.

In the Commons, there are four vacancies in the ranks of parliamentary assistants. Prime Minister St. Laurent has been without a parliamentary assistant since Hon. Walter Harris was appointed citizenship Minister last year. External Affairs Minister Pearson and Health Minister Martin are without assistants while

### Hong Kong Speculates About Next Red Move

By Stanley Rich  
HONG KONG, July 9—(AP)—Guessing what Communist China is going to do has pushed even the Korean war into the background in this exposed British colony. There's a feeling the Chinese Communists are going to great lengths to hide something big. How big, no one knows. Before Friday, no one here worried when a Chinese Communist anti-aircraft battery just across the border let loose at an R. A. F. Spitfire. An R. A. F. spokesman said it was a "warning burst" to keep the plane off Chinese territory. The public figured some soldier had an itchy trigger finger.

However, two unidentified planes swooped down Friday from over Swatow along the coast and fired three machine-gun bursts past a British passenger plane en route to Taipei, Formosa. Always officials passed it off as another

"warning", but this time observers are not so sure, although they admit two such incidents on two successive days could be a coincidence. Earlier last week foreign diplomatic observers told the Associated Press they suspect Russia is setting the stage in the Far East for a "surprise move" against the United States. Beyond saying this might mean Red Chinese troops being sent to Korea, they said they didn't know where, when or what the move might be.

They did claim knowledge that the Chinese Reds have been speeding troops from South China to Manchuria for the last month. The attacks on the British planes, coupled with this, have aroused speculation that something is going on which the Communists want to conceal at any cost. The speculation revolves first around the possibility of a Red invasion of Formosa. It also touches upon possible direct Soviet action in Korea.

### Six Injured In Accident Last Night

Five people were taken to hospital and one was taken to his home with injuries following a car-truck accident at the corner of the York and St. Peter's Roads about four miles from Charlottetown at 10.15 last night. None of the injured were believed critically hurt and two were later released from hospital.

Miss Doris O'Brien of Charlottetown, believed to be the most seriously injured and Mr. Eric Smith of Mount Stewart are patients in the Charlottetown Hospital. Mr. Walter Hennessey is a patient in the P. E. I. Hospital and Mr. Robin Creelman received treatment at his home.

Miss Pauline Hennessey of Charlottetown and Mr. Donald Macdonald of Mount Stewart were taken to the Charlottetown Hospital but later released after medical examination.

Miss O'Brien received several lacerations and was badly shaken up but was not considered in serious condition. Mr. Creelman was badly shaken up and Mr. Hennessey and Mr. Smith received cuts and bruises.

The car was in the right hand ditch of the St. Peter's Road with the engine facing North West towards York when it was struck by the truck travelling from Charlottetown.

(Continued on page 11 Col. 7)

### NEW TAX

FREDERICTON, July 9—(CP)—The York County Council at its semi-annual meeting here Saturday decided to tax nickelodeons as a means of raising funds.

Regional forecasts: Synopses—Under clear skies temperatures are dropping rapidly and it will be a cool night in most sections of the district. Skies will continue clear tomorrow, however, and with warmer air flowing into the district from the west temperatures will soar to the 80s in inland regions. Sea breezes are expected to keep the temperature down to the 70s in coastal localities.

There is some cloud in the north shore region, but this will clear away Monday morning. Prince Edward Island: Sunny and very warm Monday. Light winds. Low early Monday morning and high in the afternoon at Charlottetown 45 and 85.

High tide this morning at 5:51 and this evening at 7:52. Sun rises at 4:35 A. M. and sets at 8:00 P. M.
