—CURING-SMOKING. Ship or bring. Hansen's Market, Summerside.

—SANTA will visit our toyland Friday evening, November 27th at 7 p.m. Callbeck's Store, Bedeque.

—"APRON STRINGS", a 3-act comedy (written by Norman MacDonald) will be presented at the Summerside High School Auditorium, Friday, November 27. Musical numbers.

—ROTARY LUNCHEON — The regular weekly luncheon meeting of the Summerside Rotary Club was held yesterday noon with the president, T. E. Hickey, C.A., in the chair. The program was in charge of Rotarian E. P. Foley, M. L.A., who also was the guest speaker. Mr. Foley gave a most interesting address on his trip to Western Canada this summer where he attended the annual convention of the Canadian Pharmaceutical Association, held in Calgary, Alberta. Guests present at yesterday's meeting were Mr. John E. Cameron and Mr. Gabriel Chaisson. S.

—W. M. S. MEETING—The November meeting of the W.M.S. of the United Church, Travellers Rest was held at the home of Mrs. Roy Walker on Thursday evening. The president, Mrs. Percy Marchbank, conducted the devotional service on the theme "The Church —the body of Christ". The hymn "All Praise To Our Redeeming Lord" was sung, followed by Scripture reading by Mrs. Delbert Rayner. The meditation and prayer were given by the reader. A playette, "Much Ado About Literacy" was presented by Mrs. Roy Walker, Mrs. Harry England, and Mrs. John Marchbank. The study book "Where'er the Sun" was under the direction of Mrs. George Gunning, assisted by Mrs. Ella Montgomery and Mrs. Lloyd Wood. A letter from Mrs. Tair, the literature secretary was read by Mrs. Bert Poole. The concluding hymn "Jesus United By Thy Grace" with Mrs. Ernest Rayner, pianist, was followed by the Lord's Prayer in unison. S.

Personals

—Mr. and Mrs. Lewis Moase and Miss Olive Dalzell of New Annan, were visitors to Charlottetown on Tuesday.

—The many friends of Master Jackie Cole son of Mr. and Mrs. Leigh Cole, Spring Brook, will be glad to learn that his condition is somewhat improved following an accident of Thursday last when he fell from a truck driven by Mrs. Roma Campbell. He was rendered unconscious and was removed to Prince County Hospital.

40th Wedding Anniversary

Mr. and Mrs. Gordon Campbell, Charlottetown, formerly of Milo, were pleasantly surprised on Nov. 19 when they called at the home of their son-in-law and daughter, Mr. and Mrs. Hoston Herlihy, Clyde River, to find their family assembled there with a delicious hot chicken and duck dinner ready and waiting for them. The table was centred with a beautiful anniversary cake.

Forty years ago, Nov. 19 Mr. and Mrs. Campbell (nee Margaret Ann MacLean) were married at Summerside, P.E.I. by Rev. Mr. Fraser. Most of their married life has been lived at Milo where a family of eight children were born. Five of the children are married. All were present with the exception of the two youngest sons, who are not on the Island: Ruth (Mrs Hoston Herlihy) Clyde River; Beatrice (Mrs. Wilbur MacQuarrie) Hebron; Eileen, Charlottetown; Roy, North River; Garfield and Norman, Milo; Duncan in Toronto and Claude in Halifax. There are six grandchildren who were all present.

During the evening an appropriate address was read to the parents and a gift presented.

Hungary Vs.

Continued from page 6

Their ace is captain Ferenc Puskas, 26, Hungary's nominee for the best soccer player in the world. He has cohorts like Jozsef Bozsik, an army captain and a member of Hungary's Communist parliament.

To face them, the English selectors picked 11 experienced, fleet professionals who were just about what sports writers and fans in general had unanimously agitated for. They are regarded as the best English team of post-war days.

Watching will be 100,000 in Wembley Stadium.

"Secret Plan?"

On the eve of battle, England was moved in various ways.

—RESERVE December 2nd, for William Cairns in St. Mark's Hall, Kensington. Speaking and showing slides on his trip to England and Europe. Sponsored by hall committee.

—VACCINATION and Innoculation Clinic, Summerside Health Centre, Saturday morning, Nov. 28th, 9:30 - 11:00 a.m.

—ST. ANDREW'S Concert, Kensington, Nov. 25. New numbers, old favorites, mirthful one-act comedy, famous Burke's Lads and Lassies. Program arranged by Presbyterian Choir and Young Adults.

—ACHIEVEMENT DAY — Achievement day was held recently by the Women's Institutes of New Annan, Clermont and Maple Leaf in the Travellers Rest Hall, following two weeks of instruction under the direction of Miss Rose Marie Brown and Miss Marie Taylor. On this special day the members modelled the dresses, skirts made by them, also demonstrating stencilling, gloves and women shopping bags. Mrs. George Waite and Mrs. Edson Rayner presented suitable gifts to the leaders in appreciation of the work accomplished. Afternoon tea was served by the New Annan ladies.—S.

—TRINITY Y. P. U.—The regular meeting of Trinity Y.P.U. was held in the parlor at Epworth Hall last evening with a good attendance. The meeting opened with a devotional period led by Evelyn Underhay assisted by Shirley Wallis as pianist. Leila Townsend was chairwoman for the business meeting, during which plans were finalized for the Y.P.U. rally of the Central Presbytery being held in Summerside today. A nominating committee of Shirley Wallis, Gordon Yeo and William Moase were appointed to bring a slate of officers before next meeting. The recreation period was led by Shirley Wallis. Rev. D.A. Matheson closed the meeting with benediction. S

Steel For New Rink Arriving

The steel structure for the new Summerside rink is arriving daily and citizens of the town who passed the site yesterday saw that considerable progress has been made in the past two days in erecting the steel sections which are used to support the large area of roof over the rink. Working against time and in order to take advantage of the fine autumn weather, workmen last night were continuing construction under powerful overhead lights.

Not only has considerable progress been made in erecting the steel structure but carpenters are making much headway in the wooden construction and even at this early date the sides and frontage have begun to take shape.

Should the present rate of progress be maintained it is hoped that the rink will be enclosed and a sheet of ice provided for Summerside skaters this winter. S.

Alberton And Vicinity

Mr. and Mrs. Heber Hardy, Winsloe, are visiting in Alberton this week, guests of their daughters, Mrs. Earl Atkinson and Mrs. Walter Wells.

Mr. William Wells has returned to his home in Victoria, B. C., after a brief visit with his brother-in-law and sister, Mr. and Mrs. Arthur Clark, Alberton.

There was a large attendance at a very interesting movie presented in the Alberton Institute Hall on Monday evening sponsored by local dealers Gordon and Bell. Lunch was provided by the Western Hospital Ladies Aid. Door prizes were won by Alton Hardy, and Eldon Barbour.

Soccer writer Scotty Hall of the Daily Sketch told his readers that the Hungarians had a "secret plan" to stop Matthews, who is renowned in the soccer world as a man who can make a ball talk.

The Hungarians, said Hall, are going to try to shadow Matthews closely along the lines an Irish team used effectively in 1951.

George Whiting of the Evening Standard observed that some persons appear to fear that the "state-drilled foot-magicians" of Hungary have England on the lip of tragedy.

"What a lot of nonsense," said Whiting. "I put forward the suggestion that it does not matter two hoots who wins."

Monthly Meeting Of Community Planning Ass'n

—Dr. Henry Noyse, president of the Summerside Community Planning Association presided last evening at the November meeting of the club held in the Town Hall. Dr. Moyse outlined the progress so far made in the plan to cooperate with the I. O. D. E. in the annual flower show which they have sponsored for the past two years. He expressed the hope that much progress would be made in promoting the plan to make the people of Summerside flower conscious to such an extent that Summerside could well become known as the flower town of the Maritimes.

The matter of garbage collection and disposal was discussed and it was reported by the president that he had contacted various towns in the Maritimes with a view of learning more about their system of collection and disposal.

Various other matters such as town zoning and the promotion of local flower growing contests in Summerside were discussed.

Messrs. Amos Hubley and Anthony Arsenault were added to the committee which will work with the I.O.D.E. on the annual flower show. At the conclusion of the meeting films were shown outlining various aspects of town planning and growth of cities.

Residents Of

Continue from page 1

on the airfield hopeful crowd, 50 feet from the Stratocruiser, stood behind scarlet-coated RCMP officers. They were hopeful despite the Queen's request for no offical welcome.

They remembered the similar occasion on an October day two years ago when the royal couple did appear at the same place from the same plane on the opening of the triumphant 1951 tour across Canada

As minutes ticked by Tuesday some spectators chanted "we want the Queen". There were a few strains of "She's a Jolly Good Fellow" and several loud hurrahs." A girlish voice suggested "it's time to get up."

Steps Replaced

No objection came, however, when M. F. E. Anthony of Ottawa, Assistant RCMP Commissioner, approached the group and requested quiet in consideration of the presumably sleeping Queen.

With completion of refueling and still no sign of royalty the people became resigned. They sighed a disappointed "ah" when attendants started to move the steps away from the plane.

Then a heart - warming thrill stirred the crowd. The steps were replaced. In the passageway beautiful, perfectly groomed and serenely poised, stood Queen Elizabeth, the duke at her side. The answering expression of homage and appreciation was a terrific roar.

The Queen wore a form-fitting blue coat, blue dress and triple-strand pearls. Her husband han on a dark blue suit.

Two men who performed RCMP duty in the 1951 royal tour were asked to come forward. The young sovereign asked Assistant Commissioner Anthony to convey thanks to Newfoundland's Lieutenant Governor Outerbridge for a message delivered on arrival on behalf of the province.

"It's so nice to be in Canada again even if only for a brief stay," the Queen told the RCMP official. The other who shared the first royal handclaps of 1953 on this side of the Atlantic was Opl. E.S. Hunt of St. John's, Nfld.

Then the couple withdrew. The steps were removed with finality, the door closed and the engines warmed. The skyliner taxied to the takeoff runway and aimed at a 16,000 foot altitude for the flight to Bermuda.

The great plane sped to Gander at 18,000 feet above Atlantic weather.

Its complement of 25 had the protection of Royal Navy and Canadian Navy vessels stationed between England and Bermuda as well as escorting RCAF Lancasters Other lancasters stood by at Greenwood, N.S., and Gander.

Sees Future

Continued from page 1

might argue that Canada no longer had any large market in Britain, "but you can say," Mr. Gardiner told the delegates, "that we have the biggest market we've ever had in Britain."

Bonus Plan

The day's discussion showed growing opposition by western agriculture ministers and spokesmen for farm groups against a proposal that grain production be cut by 30 per cent through compulsory federal legislation.

Roy Marler, president of the Alberta Federation of Agriculture, made the suggestion Monday, proposing that the extra acreage be sown to legumes and grass, farmers getting bonuses for the acreage shift.

Mr. Gardiner observed that United States farmers have agreed to cut their wheat acreage by 16,000,000 to 62,000,000 from 78,000,000.

By cutting its own future wheat production, the U. S. would be helping Canada. In fact, the American action "was the biggest thing they've done for Canadian wheat growers. It will provide a better chance for Canada to sell her wheat."

Butter Pact

Mr. Gardiner made these other points:

1. Canada has an agreement with Australia and New Zealand under which those countries will refrain from shipping butter to Canada unless the Canadian government agreed on shipments. And so far the government is not agreeing to any shipments.

2. He observed there had been a lot of comment to his earlier suggestion that some of the western grain stockpile should be used as feed to hogs. Farmers who had a few hogs to sell, he maintained, would not have to go to the government seeking financial assistance. If a farmer can produce hogs, his "first duty" was to produce them before running to the government.

3. Though farm income has dropped, it has dropped only from the abnormal peak of 1951. It was still higher than pre-Korean income in 1949.

4. He noted that New Brunswick and Prince Edward Island representatives had complained of low prices and the poor marketing outlook. Mr. Gardiner suggested the solution to the problem "ought to take place in the provinces and not in Ottawa." The best handling method was through provincial marketing boards with federal cooperation.

S'side High Notes

By Diane MacQuarrie

At the bowling alleys Wednesday, the highest women's single was scored by Sylvia Bishop with 220. The highest three was bowled by Helen Huestis, 473. Stan Jay bowled the highest men's three with 695 and Joe Perry's single score of 274 led in men's singles. The highest league was the White Star Laundry with a total of 2863. The high school has really developed an interest in bowling and often students gather at the alleys to practice this sport.

The completion of the magazine campaign having been deferred until Monday, the Friday morning broadcast dealt with book week. Rev. Daniel Mathieson of Trinity United Church spoke about the value of books and how much enjoyment is available through them. He explained that he, himself, was an enthusiastic reader and he brought with him some books from his own library as well as from the school.

Among the books he recommended were such as "Mobey Dick", "The Count of Monte Christie"; "Swiss Family Robinson" and "The Little Minister", as well as the later book "Kontiki". He told us about most of them, just enough to interest us in reading them. Rev. Mr. Matheson recommended the libraries, saying that P. E. I. had the best of Canadian systems. Also on the program were two musical renditions, "Danny Boy" sung by Myrna Hancock and a piano duet by Dick Hubley and Charles Hickey. Next week, Junior Assembly will feature a play, "Cinderella".

• • •

The rules of the poster contest which was mentioned by Mrs. Cudmore Friday 13, are as follows: posters may be in color or in black and white, with minimum size 11" x 18" and maximum size 18" x 24". the subject matter being "Safety", "Accident and Prevention", or "Benefits of First Aid Training". The grades are grouped in twos—7 & 8, 9 & 10, 11 & 12, and the contest terminates Dec. 4.

The Magpie is expected to be out about the end of this week, also at the end of this week is a very big occasion, Mr. MacDonald's annual play. This year, the play is called "Apron Strings" and the leading stars are Tony Spenceley and Marion Hardy. Curtain time is 8 p.m. Friday, Nov. 27. Admission is 50c and 25c for adults and students respectively.

• • •

The rules for the contest to name the rink have been announced and a box to hold submissions has been installed in Mr. MacDonald's Grade XA room.

Grade VIII A won the subscription contest by a large margin. The panda bear will not be drawn for until Tuesday, Nov. 24, and final results, totals, and prizes will not be announced until then.

Orange Function Held At Middleton Home

—King Hiram Royal Black Preceptory held their annual banquet on Nov. 18 at the home of Mr. and Mrs. Walter Craig, Middleton.

Blessing was asked by Mr. Alexander MacFarlane and all enjoyed a goose dinner. Mr. T. J. Inman acted as toastmaster and welcomed the wives and friends of the members present, and extended a special welcome to Mr. and Mrs. Ernest Johnson, who have recently built a new home and are taking up permanent residence in Bedeque. They are each members of the Orange Association and brought greetings from their respective lodges in New Brunswick, and expressed their intention to affiliate with their nearest lodges here.

Mr. Verner Moore gave a toast to the Grand Lodge of P.E. Island and was replied to by Mrs. Margaret MacKenzie, with a toast to the Grand Ladies Orange Benevolent Association of P.E. Island. Mr. A.A. MacCallum gave a toast to the Royal Black Knights of Ireland and was replied to by Mr. Peter M. MacCaull with a toast to the M.W. Grand Lodge of British America.

The remainder of the evening was interspersed with games and a number of contests put on by Miss Frances Craig, and a lively sing-song with Mrs. Walter Craig at the piano. Mr. Cyril MacFarlane tendered the thanks of the gathering to the hostess and her staff.

AIDED WOUNDED

Field ambulances for military purposes were introduced by the French late in the 18th century.

CARBON CONTENT

Most anthracite coal contains 90 per cent carbon, compared to 75 or 80 percent in bituminous.

Demonstration Of Naval Air Unit Training

—A part of the training program of the naval air unit at R. C. A. F. Station, Summerside, was presented yesterday afternoon for members of the press in a demonstration that included the novelty of a helicopter ride over the town of Summerside.

In a demonstration of landing procedure used on board an aircraft carrier, Sea Furies and Avenger aircraft, flying a tight circuit, were brought in on the "deck" about 15 seconds apart. A notable difference in the landing procedure between navy and R. C. A. F. aircraft was the curved approach used by the navy fliers. This, it was explained, was necessary in order that the pilots might, at all times, have the flagman in view to receive his visual landing signals. On receiving the signal that his approach is satisfactory and that it permissible for him to land, the pilot cuts his engine speed as he passes the flagman's position and loses the last few feet of altitude with surprising swiftness.

This part of yesterday's demonstration in normal training is referred to as field carrier landing practice. To further simulate actual carrier landing, a section of runway 60 x 250 feet is used.

During the afternoon aircrew members of the present course donned rubber lined sea survival suits and were flown by helicopter to Malpeque Bay where they jumped into the cold water from the helicopter hovering a few feet above, and then went through the practice drill of being rescued from the sea by the helicopter which has an electrically controlled cable, capable of lifting four hundred pounds, which is lowered to the "survivors".

Naval flying is said to be very hazardous as the pilots must land and take off in a very limited space and frequently have the additional concern of a strong sea breeze and a rolling ship, with a wide expanse of water on all sides. To effect prompt rescue of any pilot who might unluckily end up in the water, the helicopter takes off and stands by during landings and takeoffs from the carrier.

The navy helicopter at RCAF Station, Summerside was provided at the request of the navy and its presence makes an extremely important contribution to the flying safety of the station in respect to rescue operations from water or on land, not only for the navy but for the R.C.A.F. fliers as well.

This particular helicopter, if required, could carry 10 passengers in addition to pilot and co-pilot. Its cruising speed yesterday with seven persons on board was about 75 miles per hour at an average height of 300 feet, and it is said to have a top speed of about 115 miles per hour.

Its ability to move in any direction is controlled by tilting the rotor head to which the rotor blades are attached. It can also hover almost motionless at any height.

In yesterday's press flight over Summerside, in addition to newsmen George Wotton and J. Elmer Murphy, the helicopter carried the Moderator of the Presbyterian Church in Canada, Most Reverend William A. Cameron, and Rev. Donald MacKay, of the Summerside Presbyterian Church, who were visiting the air station at the time of the demonstration.

The helicopter was flown by Lt. Frank Harley.

The two navy squadrons will be leaving Summerside the last of this week for two weeks sea duty on board the aircraft carrier H.M.C.S. Magnificent, after which they will be returning to Summerside.—S.

Reports Steady

Continued from page 1

for early December lasting about five hours. The R.C.A.F. will send over all types of aircraft, and observers will record this information and pass it along to the filter centre at Moncton.

Throughout the Province there are five regional supervisors and fifty-three chief observers.

Volunteer Service

The Ground Observer Corps is an organization composed mainly of unpaid civilian volunteers organized, administered and trained by regular R.C.A.F. officers. It is set up to obtain information for the air defence system of Canada, utilizing civilian ground observers to report the movement of enemy or friendly aircraft.

Qualified volunteer observers spot aircraft from fixed locations known as observation posts and originate "aircraft flash" calls from the observation post telephone to report details about the aircraft they have seen. These reports are passed by means of established communication facilities, normally land-line telephone, to central locations known as "filter centres".

The information received from the observation posts is plotted and evaluated in the filter centre and passed on to other units in the air defence system where the information is co-related with that received from other sources, such as radar stations. This information should the aircraft be suspected as unfriendly, is used to despatch figther aircraft to intercept the approaching enemy, alert anti-aircraft gun batteries and to warn civilian populace and civil defence organizations of the approach of attacking aircraft.

In the U.S.A., the United States Air Force Ground Observer Corps has been operating for some time. It is very similar to the Canadian Ground Observer Corps and the two organizations work closely together with Canadian filter centres passing information to adjacent U.S. filter centres and vice versa.

To protect the country from aerial attack, Canada has established squadrons of fighter aircraft. These require early warning of the approach of enemy aircraft so that these fighters can intercept the attackers before they reach their target. Canada and the U.S. have provided a radar network to give this early warning, but because of weaknesses of radar, such as its inability to detect low-flying aircraft, and because of the prohibitive cost of establishing enough radar sites to give full coverage, something else is needed to fill the gaps.

Experience during World War II and tests carried out since have shown that the something else is a ground observer corps.

An official of the organization emphasized that a ground observer corps network of observation posts can not be organized over night. It takes time to recruit and train the vast number of civilian volunteers required.

"In modern warfare we do not have such time," he said. "If we waited until the outbreak of hostilities before setting up our ground observer corps, the war might well be over and lost before any observation post was in a position to pass its first report.

Reports passed from observers in observation posts are received by plotters stationed around the plotting table at the filter centre at Truro. By use of specially designed symbols, the information is displayed on the table where it is evaluated and tracks are established. As further information is received from other observation posts, full details of a flight of aircraft, its exact position, height, number of aircraft, direction of travel, etc., are quickly displayed on the table. The workers in the balcony spot this information and pass it on to an air defence control centre.

A meeting was held last night at Wellington. A similar meeting will be held at Ellerslie tonight, and on successive nights at Lot 14, and O'Leary, at which a film will be shown to the local Ground Observer Corps volunteers concerning the nature of their work in this important branch of civil defence, and explanation will be given on how to make their reports to the filter centre at Truro.

These reports are received in Truro approximately two minutes after an aircraft has been spotted by an observer anywhere in the Maritimes.

The report is then immediately plotted and evaluated and passed on to other units in the air defence system.

Supervisors, Observers

Following are the lists of regional supervisors and chief observers at the various established posts.

Regional supervisor, Area C-1, Peter Pate, O'Leary. Chief observers and posts: Upton Seaman, O'Leary; Benjamin MacIsaac, Dunblane; Alvin Costain, West Cape; James MacKay, Coleman; Arthur Martin, Bloomfield; Edward Wedge, Cascumpec; Garth MacEwan, Alberton; John Myrick Jr., Tignish; Frank Shea, St. Louis.

Regional supervisor, Area C-2, Ivan Vaughan, Summerside. Chief observers and posts: Augustine Gaudet, Egmont Bay; Cyrus Gallant, Urbainville; Ancel Ballum, Mt. Pleasant; Patrick Martin, Miscouche; Richard Found, Bideford; Leith MacLean, Arlington; Aage Spaivath Johnston ,Belmont; G. Shelton Harris, Summerside.

Regional supervisor, Area C-3, Percy Noy, Hunter River. Chief observers and posts: Norman S. MacWilliams, Port Borden; William Campbell Callbeck, Central Bedeque; Edward MacGougan, Malpeque; Ervin I. Jay, Kensington; George F. Howatt, French River; William Nelson Molyneaux, Crapaud; W. A. Nicholson, Bradalbane Corner; Rev. Donald Campbell, New London; Clifton B. Matheson, Hunter River; Charles W. MacNeill, Milton; Stanley J. Newman, New Haven; Roy Doiron, North Rustico; Fenton Court, Bedford Station; Keith B. Jenkins, Parkdale; Alvin W. MacDonald, Covehead Road.

Regional supervisor, Area C-4, Martin MacDonald Eldon. Chief observer and posts: Leo Griffin, Vernon River; Athol R. Ellis, Mt. Stewart; E. Roy Hermann, Pownal; Mrs. Esther W. Gillis, Eldon; Alex A. Beaton, Belle River; Angus A. Murchison, Point Prim.

Regional supervisor, Area C-5, Peter Sinclair, Montague. Chief observer and posts: John J. MacDonald, Clear Springs; Lorne J. Francis, Fortune Bay; Ronald J. MacDonald, St. Peters; Albert Acorn, Bridgetown; Claude A. Scully, Cardigan; Alban Brothers, Cardigan; Mrs. Alma Ruth MacKay, Beach Point; L. Herman Martin, Murray River; John B. Ballum, Montague; E. G. MacKinnon, Morell; Miss Ellen L. MacKenzie, Peakes; Peter A. MacLellan, Souris; Hugh J. MacPhee, Priest Pond; C. F. Ross, East Baltic; W. Stewart MacIntyre, East Point.—S.

Joins Holman 25-Year-Club

Mr. Allison Owen, manager of the hardware department Charlottetown store of R. T. Holman, Ltd., is seen above being presented with an engraved wrist watch emblamatic of membership in the 25-Year-Club of the firm.

The presentation is being made by Mr. Robert Holman, president of Holmans, Ltd.

Mr. Eric Woodside, manager of the china department of the Summerside store also became a member of this club this year and as his engraved watch had not arrived for the occasion the formal presentation was made later.

The two new members were "initiated" into the Club on Tuesday evening November 17th at a dinner meeting held at Robsons Restaurant at which all members of the club were guests of the executive of the firm, at which time the presentation to Mr. Owen was made.

(Photo by Coulson)

Former Islander Dies In Florida

—Mr. Roy Tanton of St. Eleanors yesterday received a telegram announcing the death at Orlando, Florida, on November 22nd of his brother, Captain George Tanton, who has resided there for some years and who was formerly a native of this Province.

Mr. Tanton left yesterday by plane to attend the funeral which will take place at Wilmington, N.Y.

The deceased had been in poor health for some time. During the past summer he had visited his brother Roy at St. Eleanors and other relatives in this Province.

He is survived by the following brothers and sisters: Ernest, Wilmington, N.Y.; Lloyd, Seattle; Roy, St. Eleanors; Janet, Mrs. Leonard White; Hattie, Mrs. John Bogan; Edna, Mrs. J. G. Whitten, and Miss Winnifred Tanton, all in the U.S.A.

The deceased was a son of the late Mr. and Mrs. Albert Tanton of St. Eleanors.—S.

Funeral Service At Alberton

—The funeral of Mr. James Foley of Kildare was held from the Sacred Heart Church, Alberton, Tuesday morning. Requiem High Mass was celebrated by Rev. W. E. Monaghan. Present in the sanctuary were Rev. Terence Campbell of Charlottetown, Rev. John A .MacDonald and Rev. James Gallant of Tignish.

Pall-bearers were Messrs. Alfred Foley, Charles Dunn, Joseph O'Rourke, Herman Cahill, Aeneas Whelan and Howard McCue. Interment was in the church cemetery.

Two daughters, two sons and a daughter-in-law came home to attend their father's funeral. They are Mrs. Claude Foley (Jeanette) of Toronto; Mrs. Wilbert Harper (Dorothy) of New York; Mr. Chester Foley of Boston; Mr. and Mrs. Emmett Foley of Newton Highlands, Mass. Also surviving are Sister Clorilla (Pauline) of St. Paul, Minnesota; Mrs. Orsell (Becky) of Dover Point, N.H.; Mr. Johnston Foley of Vancouver and Mr. Howard Foley on the homestead in Kildare. Three brothers also survive, Father John Foley in Faribault, Minn.; Mr. Patrick Foley in Seattle, Wash. and Mr. William Foley in Edmonton, Alta.

Supreme Court Sitting Held At Summerside

—Mr. Justice Mark R. MacGuigan presided at the one-day sitting of the November term of the Supreme Court at Summerside yesterday and disposed of the small docket before the court.

An indictment (theft) against Vernon Walter Watson, represented by J. A. Gallant, was stood over to the June term of the court and bail was continued.

A civil jury case (breach of contract) Mile End Fruit Exchange Incorporated, represented by R. S Hinton, Q.C., versus John W. Farmer, represented by M. A. Farmer, Q.C., and other third and fourth parties was adjourned to the June term of the court.

A non-jury case (damages) MacLean Motors Limited versus Island Equipment Ltd., with G. A. Foster representing the plaintiff and D. O. Stewart, Q.C., appearing for the defendant was set for hearing on December 3rd.

Most of the day was taken up by the appeal of Emanual Gallant, represented by J. A. MacDonald, Q. C., from a conviction under the Temperance Act. Mr. D. O. Stewart, Q.C., represented the crown and called only one witness, Constable M. Grover, of the R.C.M.P. The appellant was the only witness called by Mr. MacDonald.

After summation by consel, the case was taken under advisement by the court and adjourned for judgment to a later date.

—S.

To Renew War On Timber Wolves

PRINCE ALBERT, Sask., (CP)-Saskatchewan's game branch is going to renew its war on timber wolves this winter.

Harold Read, northern game supervisor, said Tuesday the wolf control program will cover all of northern Saskatchewan and extend 125 miles into the northwest territories.

About 200 poison bait stations will be set up. Two aircraft will follow caribou herds moving south and drop poisoned meat in the path of wolves.

An estimated 50,000 caribou, elk, deer and moose are destroyed each year in Saskatchewan by wolves.

Control programs in the last two winters have accounted for nearly 1,300 adult and unborn wolves, Mr. Read said.
