ACROSS THE ISLAND

Memorial Lane Spans 100 Yrs.

By NEIL A. MATHESON
Provincial, Farm Editor

A FARM woodland that sells for \$55 now, as Roy Bruce told me at North River a few days ago, was sold for \$20 in 1913. I was told yesterday by C.W. Judson a man who remembers those days for he is in his 101st year.

Mr. Bruce recalled that the house sold for \$12 something prior to World War Two, but the shoeing costs more than now, he told me. Mr. Judson said "you could buy all the iron for the shingles for \$20 then, and many people did their own work. I was surprised to find the shingles are still made in quantity, as I was told they are scarce and other products are empty on many farms, but Roy said 16 shingles last year and I imagine many others are sold elsewhere in the province.

MY CHAT with Judson took us back to the days "when a farmer in P.E.I. could feed and clothe himself from his own farm—he might have to buy tea and sugar—and never be cold or hungry." But now, he told me, he could not live on his own farm. He had to go to work and buy his food and other necessities. He had to go to the store and buy his food and other necessities. He had to go to the store and buy his food and other necessities.

Vigorous And Witty

AND THIS man is vigorous. You probably got the idea that a Centenarian would naturally be shrivelled and decrepit looking, as you have seen many men look who were 10 to 20 years younger. But this man is vigorous. He is a man of 101 years of age. He is a man of 101 years of age. He is a man of 101 years of age.

Several Unusual Machines

MR. JUDSON told me about several machines I had never heard of, or read about previously. There was a "shear harrow" it came before the spring-tooth—that had a number of shear-like knives with a mould board on either side, that broke up the land effectively.

Carts No Good For Courting

A BIT of humor crept in when his grand-daughter, Mrs. Lament—lives with Mr. and Mrs. Daniel Lament—asked "Did you have to court your wife in a cart too?" He had been telling me that the two-wheeled cart—it had no springs—was used for all kinds of summer transportation then, as it was the only conveyance. People went in carts to church, town and anywhere else, unless they walked. The four-wheeled truck wagons were an improvement, "but they were no good for courting either," he assured me.

Oil-Bearing Core On His Farm

THE MAN who farmed in Cherry Valley for many years insists that oil bearing core was brought from a 1700 foot hole drilled on his farm in 1911. It was about 100 feet long and 4 inches in diameter. The holes were drilled for coal by the department of mines and technical surveys. There was one on the Tweedy farm, Earnscliffe on the shore nearby, another at Edmonds in western Prince George, one at Glenora, just back of the Uzev station and another at Wood Islands, according to old records, it was found by Graham Rogers. "You can still see the pipe sticking out of the ground on the Harry Tweedy property," Mr. Judson told me. The drill hole from the United States struck a core of 13 feet of salt in their work. Mr. Judson recalled.

Was Talented Rifleman

A TALENTED rifleman, Mr. Judson compared with distinction in many a provincial match. He recalls J.M. "Bibley" Jones and Jim Henry Judson, his cousin, against whom he often competed. They used the old Ross rifle which was considered as the best weapon after an unfortunate experience at Ypres in the First Great War, where they settled up and would not fire. They were excellent for accuracy and snipers continued to use them, a veteran of that conflict told me yesterday.

Province Building Is Oldest

THE PROVINCE Building is the oldest of the three government buildings on Queen Square, Mt. St. Henry. The first stone laid the cornerstone on May 14, 1863. The Court House was built in 1874 and the first court sessions were held January 11, 1875. The first stone post office building was built in 1877, was burned in the Cameron Block fire in 1884, and the Cabot Building, which is now being destroyed, was completed in January 1887.
