Horse Show And Handicrafts Will Also Be Feature

Once again a full program of solid entertainment and education is arranged for the annual two-day Plowing Match at Dundas which opens tomorrow. Growing bigger every year the 11th Annual P. E. I. Plowing Match has added many other attractions to make it one of the outstanding fall shows in the Province. The activities will begin Wednesday morning at 10 with the first of the six plowing events which will be held that day. They are gang plow, seniors; single furrow, novices; single furrow, boys under 18; tractors, 2-sod; tractors, 3-sod, and tractors, boys or girls under 18.

A very large entry list has been received for the 23 horse classes and judging in the first nine of them will take place Wednesday afternoon starting at 1 p.m. At the same time the senior sports will be held.

The second day of the show, Thursday, will see the completion of the plowing classes with four more listed for competition. They are the single furrow, open; gang plow, under 18; tractor, 1 sod; and the big event of the meeting the tractor 2 and 3-sod, also Provincial Championship.

Just after lunch the rest of the horse classes, 10 to 23, will be judged. During the progress of the judging of the horses the annual Ayrshire Breeders' Field Day will be held with an excellent list of entries.

Thursday afternoon will also see the junior sports and the step-dancing competitions being held. The Dundas Plowing Match is no longer a strictly local event as it has grown to such an extent that all classes are now open to the Province.

But the purely farm side of the two-day show is not the only inducement for the several thousand competitors and spectators who will attend. There will in addition be an excellent handicrafts display and to take care of the needs of all the visitors there will be refreshments, lunches, music and games.

From a financial point of view those participating in the many events will have an opportunity of sharing in the \$1,300 being offered in prizes.

COMMUNITY SPIRIT

SMARDEN, England — (CP) — Showing a fine civic spirit, 20 housewives of this Kent village picked hops for two weeks to raise funds for a new civic hall. Community functions have always been held in the local school.

APPLY NAMED

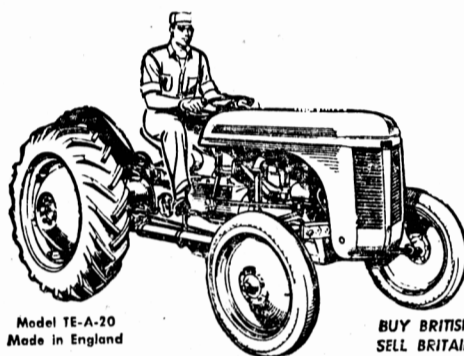

MENSTON, England — (CP) — Farmer Joseph Brown's Rhode Island hen is aptly named "Constant Nymph." She established a British record of laying 325 eggs in 336 days.

BETTER NEVER LATE

LONDON — (CP) — Better late than never has been revised by Chief Inspector R. E. Manuel of the Metropolitan police to read "better never late." He urges parents to get children off to school 10 minutes earlier to reduce traffic accidents.

FARM NEEDS

Yes, the farmer's job is a three-fold one—and it all boils down to keeping present productive power high without exhausting future productive power. In a word, the land's earning capacity must be kept up and improved.

Every farmer needs modern implements and machinery to do this. On a farm, more than anywhere else, good machinery will pay for itself.

GOOD PLOWING—

Here's a speedy plowing combination—the No. 8 Plow pulled by Farmall-M.

with No. 8 PLOWS

The McCormick-Deering No. 8 has long been the yardstick for measuring the best in plow performance. These Plows can be depended upon to turn good furrows in all kinds of going. Their rugged construction and proved design withstands the strains of plowing behind modern, fast-moving tractors. Ample clearance under beams and between bottoms assures a thorough job of turning and covering heavy growths of stalks, weeds and green cover crops. Easy to adjust — easy to handle in any field — the No. 8 Plows do the kind of work particular plowmen like.

Come in and see the line of McCormick-Deering Plows in our store. We have them in sizes to fit all types of farms, soils and power.
