

IN SEARCH OF THE GREEN

by Laurie Reeves

Hello again! I do not know how it could have happened, but the article of October 8 listing winners of the Annual Awards Dinner neglected to mention the winner of two prizes. "The Knights of Columbus State Council Prize" (for the student standing highest in Junior Education), and "The Eric Hillis Memorial Award" (for a third year Education student who, in the view of the Dean, shows the most all-round promise as a teacher at the secondary level) were both awarded to Gordon Cox of Sherwood. This dual achievement is most impressive, and congratulations are extended to you, Gordon, at this time—better late than never.

Swinging around to financial aid, I once again extend an invitation to those

students who have concerns with their Student Loans, who want to find out about their financial situations generally. My office hours are:

Monday: 12:30-3:30pm
Tues. & Thurs.: 11:45-2:15pm
Wednesday:
10:30-12:30pm

Finally, here are those undergraduate and graduate bursaries with upcoming deadlines:

BUCKING UP THE STANDARDS TO KEEP NUMBERS DOWN

EDMONTON (CUP)

Entrance requirements for high school students at the University of Alberta have been raised from 65 to 70 per cent, in an effort to reduce crowding.

"We simply do not have the capacity to deal with ever-increasing numbers of students," said Peter Meekison, U of A vice-president (academic).

He said that the enrolment increase is expected to reduce the number of students enrolled from this year's record 30,000 to around 25,000 in ten years.

Registrar Brian Silzer said, "It's very difficult to do anything to make us less accessible . . . we've

always prided ourselves on being accessible to all students. However, we have a responsibility to the people who are here already."

The student council is in agreement with the administration on this issue.

"The fact is that right now (the university) can't accommodate 30,000 students on this campus. It's impossible. And because of that, the quality of education might suffer this year," said Tim Boston, student council president.

"The only reason they used entrance requirements to do it is because it's the only fair way to do it," Boston said. "You could

raise tuition, but that's applying a financial restriction instead of an academic one."

Boston did express concern that "if the 70 per cent doesn't cut down enrollment enough, they're going to have to do it again, and again, and again. You'll get the idea that it's an elite institution."

However, the higher standards are not necessarily permanent, according to Silzer. "If enrollment should diminish (because of other factors), we can go back to a lower standard."

Recreation moves indoors

The end of October signals the end to the outdoor recreation season and the move to the indoor activities.

The organized activities for the indoor season in the rink will include intramural and pick-up hockey, broomball, volleyball, indoor soccer while aerobic videos, badminton and fencing will continue in their fall time slots.

The various activities will be Run on a Male/Female and/or coed basis and are open to all U.P.E.I. students.

Representatives from your faculty or residence will be contacting you with more information
