BANKERS.

THE CANADIAN BANK OF COMMERCIAL. THE UNION BANK OF HALIFAX.

SOLICITORS.

MACMASTER & MCGIBBON, Montreal.

The Directors, who are now the owners of the entire Capital stock, have decided, at the request of numerous friends of the Company, to enlarge the capital of the Company, and to offer for sale, at par, ten thousand shares, of one hundred dollars each, fully paid and non-assessable.

Applications for shares will be received until February 15th, 1893, at any of the offices of the Canadian Bank of Commerce, at the offices of the Union Bank of Halifax, and at the head office of the company, N. Y. Life Building, Montreal.

Forms of application for shares may be obtained at any of the above places, and will be sent by mail on request.

Should no allotment of stock be made to any applicant for shares, the amount paid will be returned in full, and in the event of the Directors finding it impossible to allot the full number of shares applied for, the surplus of the deposit will be credited to the amount payable on allotment.

The right is reserved of withdrawing the shares in whole or in part at any time before allotment, and of allotting to any applicant any less number of shares than the number applied for.

As the dividends of the Company are payable quarterly, beginning with the first of March next, allottees of stock will be entitled to receive a proportion of the quarterly dividend as declared corresponding to the amount paid upon their subscription.

It is proposed to apply to the Stock Exchanges of Montreal and Toronto for official quotations of the shares of the Company.

The Consumers Cordage Company was incorporated in June, 1890, with a Capital of one million dollars, to operate several of the largest Cordage Works in the Province of Nova Scotia. It, at first, operated these under lease, but its operations having been successful, the Capital stock was subsequently increased to three Million Dollars, and the leased properties were purchased.

The Company has no mortgages, debentures, or other securities, and, according to the law under which it was incorporated, none can be created without the consent of two-thirds of the shareholders, represented at a meeting called for the purpose.

The Company has placed in the hands of its Bankers—

(a) Full statements of its affairs, certified by Messrs. Caldwell, Tait & Wilks, Chartered Accountants.

(b) The following letter from Messrs. A. G. Campbell & Meredith, advocates, Montreal, upon the legality of its incorporation, and the issue of its stock—

MONTREAL, January 5, 1893. GENTLEMEN—We have examined the books and documents connected with the organization of the Consumers Cordage Company, Limited, and are of opinion that it has been properly incorporated, and that its capital stock of \$3,000,000, as issued, is fully paid up and non-assessable, according to the provisions of the "Companies Act."

We are, yours truly, (signed), ABBOTT, CAMPBELL & MEREDITH.

(c) A report from Messrs. Macmaster and McGibbon, Solicitors, and Messrs. Caldwell, Tait & Wilks, Chartered Accountants, in relation to the affairs of the Company, and the issue of its stock.

The Consumers Cordage Company is probably the largest Cordage and Twine Works in the world, and claims the following very material advantages over its competitors—

1st. Ample capital to conduct its business, which enables it—

(a) To buy its raw material in larger quantities, and at lower prices.

(b) To use only the latest and most improved machinery, and to employ the most skillful workmen, and to have the most complete stock of raw materials in the world, which enables it to supply its customers with the most perfect goods at the lowest prices.

2nd. Economy in the manufacturing and distributing of its manufactured products—

(a) By maintaining the sharpest competition between several mills, it is enabled to introduce in all the best methods found to each.

(b) By spreading its commercial expenses over a larger output.

(c) By placing in one hand the purchasing of the raw materials and manufacturing supplies for the several Mills, thus securing lowest prices.

(d) By manufacturing for themselves many of their supplies.

The Company has always found it in its interest to divide the economies effected in production and distribution with the consumer, and since its existence the consumer has, upon the average, had a better article at a lower price than previously.

The Company does not claim to have any monopoly, or to earn monopoly profits; in fact, it has not done so. Since its organization it has been able, owing to the advantages above referred to, to earn a net return on its present capital of not less than 10 per cent. per annum (as stated in the reports of the Directors), and the Directors believe that these profits will be maintained in the future, as the cost of production and distribution shows each year a marked decrease.

The Dividend for the year ending 31st October, 1892, was at the rate of 12 per cent. per annum. The past records of the Company and its present position justify the Directors in believing that quarterly dividends of one and three-quarters per cent. can be paid (and should the profits for the present year be as large as the outlook promises, the final quarter's dividend might be increased).

Any further information may be had at the head office of the Company at Montreal.

Content.

Anna Poole Beradaley, in Harper's Weekly. I am so happy, dear, when I am near you; Then with the mad, sad world your course pursue.

But leave for me a corner to revere you; I am so happy just with love, and you. When that great life that would be earth's defender Receives a thrust from them it would have spared, Come, then, and learn, oh! bruised heart strong and tender, No lonely joy can equal sorrow shared.

I am not wise, except that I adore you; Nor strong, except that love its strength hath lent; But, dear, if all my life upland before you Can soften one hard step, I am content.

Trainmen Excited.

ALLANDALE, Jan. 20.—There is a good deal of excitement among the members of the local lodge of Railway Trainmen over a peculiar case that happened at Gravenhurst. It appears that a member of the lodge named Samuel Murray was disabled while engaged as a brakeman, and for several years lay helpless at his home in Gravenhurst. He had lost all the power of his lower limbs and had all the symptoms of kidney complaint coupled with a complete collapse of his nervous system. His case was given up by seven or eight prominent doctors, and the Grand Trunk Railway paid him his total disability claim. His total disability claim was passed by the local lodge here, and sent on to the Grand Division. The strange part of the thing comes now. Murray has been completely restored to health and states that he does not want the money, while the lodge members here claim he is entitled to it and should have it. Murray was cured by using Dodd's Kidney Pills.

Why you take Cold and Cough.

Generally caused by exposure to cold, wet feet, sitting in a draught, coming from hot and crowded places, in this dress, or wearing damp clothes, stockings, or any other cause tending to check suddenly the perspiration. The result produces inflammation of the lining membrane of the lungs or throat, and this causes phlegm or matter, which nature tries to throw off by expectoration. In many cases she is unable to do so without assistance, and this is
