### Island Food Manufacturers Interested In Moncton Show

A large number of Island food manufacturers have agreed to take part in the Atlantic Food Show and Convention to be held in Moncton April 28-29. This information was released yesterday by APEC director, Lester Jenkins, vice-president of the food processing firm of Jenkins Brothers, Summerside. Sponsored by APEC in conjunction with food producers in the four provinces, the food show, the first of its kind, is expected to attract buyers from Central Canada as well as from points throughout the region. Mr. Jenkins said that aside from interesting buyers, the main objective of the show would be to inform people living outside the Atlantic Provinces just what is being produced down here. More than 60 producers are expected to have exhibits at the show than will be held in the Moncton Forum. Referring to the highly success-

### General Canvass For Boy Scouts Next Week

The general canvass in connection with the Boy Scouts annual financial campaign will take place next week, according to an announcement made recently by the joint chairman of the drive, Roy MacGillivray and Dr. George Fisher. Meanwhile, W.W. Reid, chairman of the special names committee reports that this section is showing good progress to date. The financing of Scouting in P. E. I. is a well planned procedure, the results of many years experience. First there is the Scout himself who must earn his uniform and camping expenses or be supplied them by his parents — then there is the sponsoring organization usually a church or some responsible body, such as a Service Club, Legion, or Home and School Association who supply the meeting place and other facilities. Finally, there is the Provincial Council which maintains an office and a trained Boy Scout Commissioner. The Commissioner is largely responsible for organization and for the training of the many voluntary leaders required. This part of the organization is supported by the general public by annual subscriptions. Under the above plan Scouting has made splendid progress in Prince Edward Island and merits the support of all citizens who are concerned with the training of boys and men of character.

### N. B. Steam Power Plant Will Be Started By Summer

FREDERICTON (CP) — A spring or early summer start on construction of the \$10,000,000, steam-powered generating plant to be built in east Saint John with federal assistance was confirmed Tuesday in an announcement from the Fredericton office of Hon. Edgar Fournier, chairman of the New Brunswick electric power commission. The plant is expected to be ready for use by July, 1960. Announcement that construction would start shortly, aimed at completion within two years, was made Jan. 8 in the House of Commons by Resources Minister Hamilton. The work is expected to employ about 150 men and the plant, producing 67,000 horsepower, will require a permanent staff of about 35.

The commission has held an option on the site for nine months. The power station, which may become the province's largest single generating facility with later additions, will be built at Little River on land until now owned by the municipality. The large tract is on the northeast side of the Red Head Road, just beyond the built-up area of east Saint John. ADD OTHER UNITS Plans provide for the possible addition of two or four more units, which could bring the capacity up to 400,000 horsepower. The plant will be able to feed power to other provincial centres through the NBEP's 138,000-volt transmission system, which already links Beechwood, Frederic-

ton, Minto and Moncton and is being extended to Saint John at present, with one section under construction behind Grand Bay. Eventually under federal plans to assist the link-up of the N.B. power grid with that of Nova Scotia, power from the big plant will be able to serve both provinces.

ported wounded, none severely. A Robeson county grand jury here Monday indicted Cole, James Garland Martin, a Reidsville, N.C., tobacco plant worker, and others allegedly of the Klan group "unknown to the state," on charges of inciting a riot.

## Aggressive Selling Could Boost Trade With Jamaica

By FORBES RHUDE  
Canadian Press Business Editor  
TORONTO (CP) — More aggressive action by exporters could bring increased trade between Canada and Jamaica. Mr. O. Isaacs, Jamaica minister of trade and commerce, said Wednesday. Mr. Isaacs is head of a 20-member trade mission which arrived here Tuesday night. He gave these reasons for limited Canadian exports to Jamaica: Canadian exporters think that all Jamaica buys is salt cod and flour; they are not as aggressive as they might be; prices are often high and shipping facilities inadequate.

Jamaica are principally sugar, alumina and cocoa. Outlining items which Canada might buy in greater quantity, Mr. Isaacs said: "Our coffee is the best in the world; we are increasing production and we intend to go after the Canadian coffee market. Our ginger is also the best in the world. "We think, too, that Canada should buy citrus fruits and bananas from us rather than from South America and Florida, and that she is not using enough of our oregano (allspice)." SUGGESTS CIGARS, TOO Other possible exports to Canada are tomatoes, confectionary, handicrafts and cigars. The dollar shortage contributes

to limited Canadian sales in Jamaica, Mr. Isaacs said, but the dollars available are considerable and are increasing. Under the trade liberalization plan a certain number of dollars is made available to American and Canadian exporters. In the case of the United States, the Jamaican authorities make the dollars available to Jamaican merchants and they buy what they choose. In the case of Canada, however, Canadian authorities make the allocations with the purpose of maintaining business for manufacturers who had established their brand names in Jamaica and on the basis of their past performance.

### New Five-Cent Stamp On Sale

OTTAWA (CP) — A new black-and-white, five-cent stamp, a salute to the press of Canada, went on sale at post offices Wednesday. Two newspapers, the Ottawa Journal and the Kitchener-Waterloo Record, ordered bulk quantities of the new stamp for use on editions mailed to subscribers. Postmaster — General William Hamilton in announcing the stamp last Nov. 22 said it is intended to emphasize the significant influence of the printed word on the life of Canadians. He paid tribute to The Canadian Press, the national co-operative news-gathering and distributing organization which last year marked its 40th anniversary. The stamp was designed by A. L. Pollock of Toronto. On the stamp the columns of two newspapers — titled bilingually — "a papers" — blend into a background scene symbolizing rural and urban Canada: a grain elevator, telephone and power poles, a bridge, a ship, a factory smoke-stack, a church, tall buildings and a broadcasting tower.
