

# THE WORLD'S BEST SELLING FARM TRACTORS AND EQUIPMENT!

## MASSEY FERGUSON

- Dual range transmission • two stage clutching • live and ground p.t.a. speeds
- differential lock • full hydraulic control\*
- independent brakes • automatic cold weather starting aid • hand and foot throttles
- You expect to find these features on the BIG ONES. But all this equipment is standard on the MF 25.

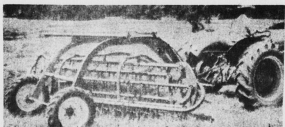

## Massey Ferguson

This powerful 3-plow tractor pays its way faster than anything in its class. Many of the time it has plowed an acre on a gallon of low cost diesel fuel. The MF 30 Diesel is solidly built for years of dependable, money-saving use. You can't match this tractor's hustling performance. Its genuine Ferguson System never has been equaled for economy and handling ease and it's now available in multi-power.

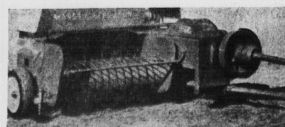

## MASSEY FERGUSON LEADS THE FIELD IN HAY TOOL DESIGN

**CLEAN RAKING.** You can rake 40 acres a day with the MF 36 Pull-Type Rake on your MF 35 tractor. It lifts up the hay and turns it gently.

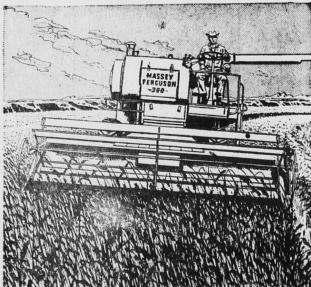

**FORAGE MOWING.** Mow up to 30% faster with exclusive Dyna-Balance Drive the MF Mower. You can cover as many as 25 acres per day. Variable speed belt pulley lets you change knife speed to match field conditions.

**WINDROW GULPING BALER.** Hustle down the thickest Windrow gulping up as much as 10 to 12 tone of hay every hour with a MF 10 Baler. It is engineered to baby your hay, tenderly tucking in all the high protein leaves to make high quality feed.

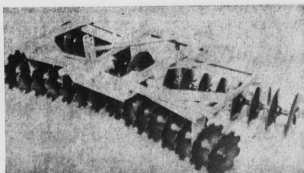

## MASSEY FERGUSON NO. 300 COMBINE

The all new MF 300 has 18 on the go controls—including cylinder speed and concave spacing adjustments for faster, cleaner harvesting. Revolutionary saddle tank design adds capacity, maneuverability, stability. Comes with 11' or 13' cut. Once you see it none other will do.

## NEW MF 39 TANDEM DISC. HARROW SIZED RIGHT . . . BUILT RIGHT PRICED RIGHT

This new, fully mounted tandem disc harrow is designed for the small and medium sized farm. Fast and easy to transport, it is ideal for plows with short headlands or for backing into corners and other restricted places. Independent control of front and rear gang angles makes it possible to prepare a level seedbed in loose or hard ground and compensate for variations in tractor speed. Adjustment—by means of spring loaded pins—is both easy and positive.

## NEW MF 19 SPRING TOOTH HARROW

Here is your best buy for standard seed bed preparation and summer fallow work. A field tested design with exclusive MF plus features that mean increased operating life and improved performance in difficult ground. This carefully constructed implement is available in two sizes—10' and 12'—which are assembled from 3' or 4' sections. The smaller size consists of two 3' sections and one 4' section. Order the larger model and you can choose three 4' sections or four 3' sections. Tooth spacing is the popular 6" standard, but additional clamps and teeth are available if closer spacing is desired.

## NEW MF 320 BACKHOE

Mounted on the new 300 Series Industrial Tractor

High crowd power is only one of the peak performance features of Massey-Ferguson's new MF 320 Backhoe. It digs a flat bottomed trench down 14 1/2' . . . loads almost 12' high . . . reaches out 19 1/2' from the swing post . . . operates through a 2000 swing arc. Big 4 1/2" boom and crowd cylinders plus a tractor mounted 24 g.p.m. pump provide the force and speed you need for instant penetration of asphalt, frozen ground and other hard surfaces. Visibility is excellent because the entire platform swings with the boom. You face the bucket at all times work faster with greater accuracy. Try it yourself. Settle in the seat, lift the boom and dig in! It's quite an experience. Spoils you for the others.

**MULTI-POWER TRANSMISSIONS**

**MORE POWER WHEN YOU NEED IT**

Just flip the switch when you need more power and Massey-Ferguson's new Multi-Power shifts to the next lower gear instantly. Hydraulics do the shifting—there's no big lever to heave, no hit and miss shifting, no sudden jolt or power lag. Multi-Power is the easiest, most practical "shift-on-the-go" ever engineered.
