

ON ARRIVAL AT the Community Centre last night, Hon. Howard Green, centre, minister of external affairs, extended his congratulations to two of the members of the new executive of the Queens County Progressive Conservative Association. Mr. Green also spoke to the members and outlined many of the accomplishments of the Conservative Government during the last five years. He is shown here with, left to right, Hon. J. David Stewart, provincial secretary; Frank Saunders, Charlottetown, vice president of the association; Heath Macquarrie, MP for Queens, and Beagh Bagnall, Hunter River, president.

Causeway Not Forgotten, Green Informs Queens PCs

By STERLING KNEEBONE
Guardian-Patriot Staff Writer
External Affairs Minister Howard Green told the Queens County Progressive Conservatives last night that "the Government has not forgotten the causeway" and that it had extreme interest in the project.

The reference to the causeway was made in a review of the "accomplishments of the Diefenbaker Government," which Mr. Green outlined to the large audience.

He said that among other characteristics of the Conservative Government, it showed common sense. "There are no other people in the world who have more common sense," he said.

CANADA IS CHAMPION
He pointed out that Canada showed this common sense in the field of disarmament and that it is now known as the "champion of disarmament negotiations."

"Mankind has never faced a situation like this before and it is up to Canada to keep its guard and do everything in its power to lead to some disarmament," Mr. Green stated.

He referred to the European Common Market noting that all the commonwealth was concerned about Britain joining it. He pointed out that if it did, she would have to modify her foreign trade policy with that of France, Germany and other countries.

REFERS TO ELECTION
Mr. Green stated that there may be a Federal election sometime in the next year. "It may be next spring or next week," he said.

In referring to Prime Minister John D. Diefenbaker, Mr. Green said Mr. Diefenbaker was "the most human, understanding, sympathetic, Prime Minister since the days of Sir John A. Macdonald."

He said Mr. Diefenbaker was fighting for the Canadians who were having the toughest time and that this was why he did so much travelling across the country.

ACCOMPLISHMENTS
He mentioned as accomplishments of the Diefenbaker Government during the last five years, the Bill of Rights, Old age security, roads to resources program, winter works program, winter works program and penal reform. He listed the Bill of Rights as being the greatest accomplishment of the government.

Also touched on by Mr. Green were vocational training, trade loans to small business, and sports. He stated that so other federal government has ever

Bank Mgr. Disappears

SAINTE JOHN, N.B. (CP) — The disappearance Wednesday of Robert M. Watson, manager of the Bank of Nova Scotia, remained a mystery Friday night.

An RCMP spokesman in Moncton said Friday he understood Mr. Watson had been dismissed from his bank job but this was termed "small town rumor" by William Wood of Saint John, bank staff supervisor for New Brunswick.

Mr. Watson was last reported seen when he left the bank's main branch here about 3 p.m. Wednesday. Mr. Wood said the missing man was in Saint John as a result of a routine call from head office and when he left the bank, intended to go straight home.

Mr. Watson was described by his wife as being "very thoughtful." He always called when he expected to be away from home "and that is why I am sure there is something wrong," she said. He left home last Monday and stayed at a local hotel. He called his wife upon arrival here and told her he would be home Tuesday or Wednesday.

His parents are Mr. and Mrs. Matthew Watson of Calgary. His wife is the former Jean A. Rufe of Canning, N.S. They have two children.

Hillsborough is about 14 miles south of Moncton.

Forestry Minister Is Given Praise

OTTAWA (CP) — Forestry Minister Hugh John Flemming was complimented Friday on having that "woody feel."

It's something that "comes only from living in the forest," said H. W. Herridge (CCF—Kootenay West). You can be a forestry expert or technically fitted for forestry but that isn't the same as the "woody feel," he added.

Mr. Herridge, a timber man as is the former premier of New Brunswick, paid the compliment in the Commons during discussion of a small addition in spending for the forestry department.

U.K. Might In Air Held Devastating

LONDON (Reuters) — Britain's nuclear-armed V-bomber force is capable of reaching its target and causing "devastating" damage to an enemy in the event of war, Air Minister Julian Amery reported Friday.

Amery made the statement in a memorandum accompanying the annual air force financial estimates to Parliament for 1962-63.

"The whole V-force can take off on radar warning of attack in well under the minimum warning period," he said.

The bombers, flying fast and high and equipped with the latest electronic devices to counter enemy defences, "compare favorably with the bomber aircraft which constitute the main nuclear striking force of other powers," he said.

DEVASTATING INJURY
"The performance of the V-bombers as now equipped ensures that they would reach their target and inflict devastating injury on an enemy," he said.

The memorandum said the air defences confronting the V-bombers would increase in strength. But with the introduction of the British stand-off

Pickersgill Criticized

MONTREAL (CP) — The Negro Citizenship Association of Montreal said today it has protested against a recent remark by J. W. Pickersgill, former federal immigration minister, that Canada does not want West Indians to come into the country "to populate our slums."

In a letter to national Liberal Leader Lester Pearson and to Mr. Pickersgill, the association expressed "our protest deploring the implications inherent in the remark."

Castro's Whereabouts Leads To Speculation

By THE ASSOCIATED PRESS
Something of a mystery has developed as to where Cuban Premier Fidel Castro is keeping himself.

The Havana correspondent of the Associated Press said Friday Castro has not been seen in public for 13 days.

Officials in Havana who might be in a position to know Castro's whereabouts were not answering questions. This, however, is not unusual, since Western reporters normally can get little information from them.

No report was found for a rumor, printed in Mexico City, to the effect that Castro has taken refuge in the Mexican embassy at Havana. The Mexico ambassador there told AP he has not seen Castro lately, and that he is not at the embassy.

The rumor was printed in the Mexico City newspaper Universal Grafico under the headline: "Rumor: Mexico gives asylum to Castro."

The newspaper attributed its information to Cuban exile circles, who were reported to have obtained their information via Miami, Fla.

UNAWARE OF REPORTS
Cuban exiles in Mexico who were interviewed by an AP correspondent there said they were unaware of such reports.

The U.S. embassy in Mexico City said it knew nothing of the reports.

His parents are Mr. and Mrs. Matthew Watson of Calgary. His wife is the former Jean A. Rufe of Canning, N.S. They have two children.

Hillsborough is about 14 miles south of Moncton.

Hamilton's Birthday Brings Barbs From Sparring Mate

OTTAWA (CP) — Postmaster-General William Hamilton's 43rd birthday Friday brought more than the usual amount of Commons barbs from his favorite sparring mate, Liberal critic Azellus Denis.

Mr. Denis, rising to ask a question, called the Commons' attention to the birthday and remarked that he had no picture of Mr. Hamilton as a baby.

"He was not in a position to look after his publicity then but he has taken care of it since," said the MP for Montreal St. Denis with a broad smile.

"I wish him a long and healthy retirement life away from politics after the next election."

Mr. Hamilton said he appreciated the good wishes, adding that "my very existence demon-

ELMWOOD MAN WINS COVETED TROPHY

Waldron MacPhee, third from left is accepting the Semper Farms Trophy from C.N. Varesnes, Quebec. The Elmwood man and his Elmwood herd of Dual Shorthorns won the trophy for the highest average production of milk and butter fat among Canadian herds of 15 cows or less. His herd averaged 8,204 pounds milk, 324 pounds fat. Runrunner was the herd's Sterling Wood, Mt. Herbert with 8,076 pounds milk, 329.6 fat. Livestock Director L. W. Roper, is shown at left. Beside him is Keith Barrett, Miscouche, a director on the Canadian Dual Purpose Shorthorn Breeders Association representing the Maritimes and Quebec. Mr. Roper said this is the first time a Maritime herd ever won the Semper Trophy and he emphasizes Mr. MacPhee merits a great deal of praise for his win. The presentation was made at the annual meeting in Toronto.

Eichmann Suffers Heart Condition

TEL AVIV (AP)—Adolf Eichmann is in good health, prison authorities said Friday, but a heart condition makes him slightly dizzy and they have to give him tranquilizers.

While the Israel supreme court is preparing a hearing on Eichmann's appeal from a death sentence, he writes away the time reading and writing letters in his solitary cell at Ramleh prison, a lonely building outside Tel Aviv.

Harris Remanded For Fourth Time

MONCTON (CP) — George Herbert Harris, 36, of Camp Gagetown, N.B., and Halifax, was remanded for the fourth time Friday when he appeared on a charge of murder in the death of Arthur James Casey, 23, Port Felix, N.S. laborer.

Harris was put over to March 2 at 2 p.m. It is expected a further remand then will see his case actually started on March 6. About 50 witnesses may be called. The case will be prosecuted by Charles Gillespie and C.I.L. Leger of Moncton. Harris will be defended by Mark Yeoman of Moncton.

U.K. Plans Early Test Blast In U.S.

LONDON (AP) — The United Kingdom Atomic Energy Authority said Friday Britain will explode a nuclear device underground in Nevada "during the next week or two."

The device is understood to be a component of a nuclear warhead and the blast will be underground so that no radioactivity will be released. The explosion will be in the low kiloton range.

The blast will be Britain's first atomic test in four years.

WEST POINT SERVICE SUPPORTED

The Queens County Progressive Conservative Association has called for the immediate construction of two ferries—one for the Borden-Cape Tormentine service and one for the Wood Islands-Caribou service—as well as the implementation of a ferry service between West Point County and New Brunswick.

A resolution to this effect was passed at the Association's annual meeting yesterday at the Community Centre in Charlottetown. An estimated 200 persons attended.

It was pointed out in the preamble of the resolution that causeway studies have not been completed and since the economic prosperity of the province depends upon reliable and continuous communication and transportation with the mainland, immediate attention should be given to implementing a more efficient inter-provincial transportation system which will be carried on under the direct supervision and responsibility of the federal government, "under the guarantee given to the people of this province upon its entry into Confederation."

NEW CONFLICT IN PROSPECT

Peace Pact Seen Failing To Halt Strife In Algeria

Fisheries Minister Does Double Job

CAPITAL BUREAU OF THE GUARDIAN
OTTAWA — Fisheries Minister J. Angus MacLean is doing double duty in the House of Commons. With the continued illness of Agriculture Minister Alvin Hamilton, Mr. MacLean has added the job of acting agriculture minister to his fisheries portfolio.

Friday, Mr. MacLean piloted supplementary estimates for the agriculture department through the Commons and his performance in the unfamiliar role drew praise from all parties.

His problems were compounded by the fact that both the parliamentary assistants to Agriculture Minister Hamilton were also absent from the House. One is ill in hospital and the other was absent because of a death in his family.

Among those taking part in Friday's debate on the agriculture estimates was Hazen Argue, resigned NDP House leader and one of the principle spokesmen in the House for western agriculture, and Arnold Peters, NDP member for Temiskaming, who has assumed the role of farm spokesman for his party in place of Mr. Argue.

The fact that Mr. MacLean has been kept busier than usual with his added responsibilities, made it impossible for him to be in Charlottetown Friday to attend the annual meeting of the Queens Progressive Conservative Association.

POPE STRESSES LATIN VALUE

VATICAN CITY (AP) Seeking to reinforce the use of ancient Latin in the modern world, Pope John has reaffirmed the importance of Latin for "the nature and mission" of the Roman Catholic Church.

New instructions on the use of Latin in seminaries were contained in an apostolic constitution signed Thursday by the pontiff and made public Friday.

The constitution called Veterum Sapientia Wisdom of the Ages—said the church sustains the old language because of its universality, endurance and nobility, making it a link between the past, present and future.

The Pope put down these rules, among others:

Church officials must make sure that no one under their authority, "for the mania of newness," writes against the use of Latin in religious instruction and liturgical rites.

Deep Hatreds Pose Problem

Editor's note: The end of the seven-year war in Algeria appears to be in sight, but the fighting may not be over. In this story Dave Oancia of the London bureau of The Canadian Press, who went to Algeria, discusses the prospects for achieving peace after a truce is reached.

By DAVE OANCIA
ALGIERS (CP)—Barring last-minute hitches, the French government and the Algerian National Liberation Front will announce a cease-fire within days.

Officials are optimistic that it will end the murderous war that for seven years has ravaged a land stretching from the palm-fringed Mediterranean, across the snow-capped Atlas Mountains and deep into the Sahara.

The announcement will launch the North African territory on the road to full independence. This is precisely what the Pied-noirs — Europeans born in Algeria — are striving to prevent.

HATRED OF DE GAULLE
They fear an independent Algeria governed and policed by Moslems. Their hatred of President de Gaulle and his supporters, who have taken the decisive step in granting the Algerians self-determination, could hardly be more intense.

And desperation born of fear and hatred has led them to support either actively or passively the extremist Secret Army Or-

Railway-Union Talks Collapse

MONTREAL (CP) — Hopes of a negotiated settlement in the contract dispute between Canada's railways and their 110,000 non-operating employees went tumbling Friday as angry railway and union negotiators stalked from a conference room.

Frank Hall, veteran chief negotiator for the non-ops, announced shortly after leaving the railways' negotiating team that the contract talks had broken off and "other means" will be used to try to get a settlement.

This was seen as an obvious reference to a federal conciliation board—where the non-ops' disputes have ended up for years.

The breakup came with almost no warning exactly one month — and four meetings — after the contract talks opened.

Both parties said no agreement was reached on any of the union demands or the railways' counter-proposals.

The breakup came with almost no warning exactly one month — and four meetings — after the contract talks opened.

Parliament At A Glance

FRIDAY, FEB. 23, 1962
W. C. Henderson (PC—Caribou) said the government has done "wonderful" in helping to ease the water shortage in his riding.

Samuel Boulanger (L—Drummond—Arthabaska) contended that the Conservatives haven't done anything for farmers in the east.

Royal assent was given to four bills.

Queens County PC Ass'n Calls For 2 New Ferries

The Queens County Progressive Conservative Association has called for the immediate construction of two ferries—one for the Borden-Cape Tormentine service and one for the Wood Islands-Caribou service—as well as the implementation of a ferry service between West Point County and New Brunswick.

A resolution to this effect was passed at the Association's annual meeting yesterday at the Community Centre in Charlottetown. An estimated 200 persons attended.

It was pointed out in the preamble of the resolution that causeway studies have not been completed and since the economic prosperity of the province depends upon reliable and continuous communication and transportation with the mainland, immediate attention should be given to implementing a more efficient inter-provincial transportation system which will be carried on under the direct supervision and responsibility of the federal government, "under the guarantee given to the people of this province upon its entry into Confederation."

The resolution called for removal of the control and operation of the Borden-Tormentine ferry service from the Canadian National Railways and placing it directly under the responsibility of the department of transport.

Called for was the immediate construction of a new ice-breaking ferry with rail facilities for operation at Borden as an adequate replacement for the SS Prince Edward, Island.

Pointing out that present transportation facilities between Wood Islands and Caribou are (Continued on page 3, col. 6)

The actions seem to be aimed at crippling the administration and making it impossible to implement any agreement reached between the French government and the Moslem rebels.

The second aim is to force the army into a major clash with the Moslems in an attempt to scuttle any accord.

IMPORT GUARDS
Tough security guards who wear the steel helmets and bullet-proof vests have been brought in from France to help maintain order. They can be seen in many parts of Algiers in their armored cars or patrolling in twos or threes with their sub-machine-guns at the ready.

They have, however, made no attempt to take control of the European Bab-el-Oued district or much of Oran—Algeria's second city—which are strongholds of the secret army (Continued on Page 3 Col. 6)
