TERRIBLE DISASTER.

Floor and Hall Gives Way

Thirty-one Persons Killed.

A HUNDRED AND FIFTY INJURED.

Sad Result of a Town Meeting in London, Ontario.

LONDON, Ont., Jan. 4.—Thirty one people were killed here last night and over one hundred and fifty were more or less seriously wounded.

Twenty-five hundred people had crowded into the city hall to hear the results of the civic elections. The speakers were addressing them and the crowd was applauding, when a section of the floor gave way, precipitating fully two hundred people into a death trap. On top of them fell a heavy safe and a large steam coil. A terrible scene followed. Somebody raised the cry of "fire" immediately after the crash had started. Among those who were on the portion of the floor which did not go down and a panic ensued. Every physician in the city was on the scene of the accident in a few minutes, but though the doctors were working with all possible speed, many of those injured were unattended. The excitement in the great crowd which assembled outside was terrible. The dead are: C Brackett, contractor, J Turner, W H Dell, J W B. Llan, F Herman, E Luxton, Benj Nash, W J Jacques, R Lee, L W Burke, S Williams, B Nash, N Caruthers, J Harris, George Smith, Frank Robinson, Bruce, A Phillips, R S Leigh Smith, S Fellows, W Burridge, W C Talbot, A Towse, Hilburne Syme, James Haynes, Roberts, a boy named McLean, and two unknown men.

OTTAWA CIVIC ELECTIONS.

Issue: Fair Play to Canadians

Great Victory For Canadian Side.

OTTAWA, Jan. 4.—It is stated here, positively, that Judge Jette will be the next Lieutenant Governor of Quebec, and that Mr. Langelier will succeed him on the bench.

The Premier and Sir Louis Davies returned from Montreal yesterday where the matter was settled.

The remarkable municipal campaign held here yesterday shows a strong Canadian feeling in the city. The aldermen who voted to purchase an American fire engine during the summer, without giving a fair chance to Canadian manufacturers, were completely snowed under. Fifteen "outsiders," as last year's minority were called, were chosen as against eight "pro-yankees."

Mayor Shaw Re-elected.

TORONTO, Jan. 4.—Mayor Shaw has been re-elected.

Seven cattlemen of the Allan line steamship Mongolian, who were refused the privilege of landing by the immigrant inspectors have escaped from the vessel at Portland, Me. The government holds the steamship companies responsible in such cases, and the penalty is \$300 fine for each man allowed to land.

LORD WOLSELY AT WORK.

What Will Canada Do About it?

LONDON, Jan. 4.—There is considerable activity in the defence department. Lord Wolseley, Commander in Chief, came unexpectedly to London to stay from Brighton and spent several hours at the war office.

TORONTO, Jan. 4.—The Evening Telegram's London cable says: "Though it is officially denied that the Naval Reserves are being quietly called out, inquiries are being made respecting the intention of Canada to immediately establish a reception-station."

LATEST NEWS BY WIRE AND MAIL

OTTAWA, Jan. 2.—The imports for five months show an increase of \$4,536,000. The exports increased \$14,414,172.

LONDON, Jan. 2.—There was a dramatic scene at the National Liberal Club on Wednesday. In the midst of the speeches the chairman called upon Mr. Gladstone to make a speech and a photograph immediately gave an extract from the statesman's last speech in the house of commons on the subject of the house of lords. The words were most clearly heard. Mr. Gladstone said: "It is not for the commons to pronounce judgment on the subject. There is a higher authority than the commons. It is the judgment of the nation, which, in the last resort, must decide." An immense outburst of applause greeted the repetition of these memorable sentences.

HAVANA, Jan. 2.—The official Gazette published an edict of Captain General Blanco, raising the embargo on the exportation of tobacco. The decree provides for the payment of a duty of \$12 in gold per 100 kilos of tobacco for all grades, except Santiago de Cuba tobacco, which continues to pay the ruling tariff. All export duty on manufactured tobacco, cigars and cigarettes is abolished including the fifty cent stamp duty. On out tobacco the duty remains as at present, plus 10 cents stamp duty per kilo. The importation of tobacco from Porto Rico and other places is prohibited.

NEW YORK, January 2.—The Washington correspondent of the Tribune says: Great preparations are in progress on the Pacific coast for the rush of gold seekers who are expected to invade the Yukon country the coming spring. According to a report just received from United States Consul Smith of Victoria, B. C., the enterprising merchants of that town feel that they did not get their share of last year's trade and are determining to grasp and hold it next season. Their expectations are high. Early in November the advance guard of the mighty army of gold seekers from Australia arrived, one hundred strong. Counsel Smith says: Agents from England have been here and are now here making contracts for housing three or four thousand gold-seekers, and every hotel in Victoria has contracts for all its rooms for portions of several months. When it is remembered that at the least, a portion of the great legion from the United States will pass through this port, it will be seen that it pictures little or no fair to have its hands full later on. One company has already secured seventy carloads of outfitting goods, and several other leading business men at Victoria, accustomed to doing things on a large scale, have made equally liberal preparations for the coming trade. The transportation companies have, by purchase or lease, secured ocean steamers sufficient to make daily lines between this port and St. Michael's, Dyea, Skagway, Fort Wrangel, etc.

NEW YORK, January 2.—The London correspondent of the Tribune, referring to the death of Sir Havelock-Allan, says: The death of that gallant soldier, who was not a combatant, is another mystery added to the inscrutable secrets of the frontier campaign. There was no official errand or mission to draw him towards Khyber, but as a soldier with a genuine fighting strain, with a dare-devil love of adventure, he seems to have been lured to his fate.

LONDON, January 2.—The London manager of the Canadian Pacific railway confirms the report that the company has bought from the Union steamship line the steamers Tartar and Athenian, formerly the favorite liners in the South African mail service. It is believed they have been picked up cheap, and it is certain that they are well adapted for their work, which is the establishment of a regular freight and passenger communication between Vancouver via the Cape of Good Hope in February, and in all probability will take out a fair number of passengers, as the company is arranging to boom this as the safest and cheapest means of getting to the Klondike.
