The latter are employed on surgery staff of St. Joseph's Hospital, Mishawaka, Indiana.

BRIEF VISIT HERE.—Dr. Evan Shute of the Shute Institute, London, Ont., accompanied by his wife and four children came to the Island yesterday more especially at the insistence of the young people to visit Green Gables. Following the drive from Borden to the National Park, the party left the Island via Wood Islands to continue their scheduled tour of Nova Scotia, not, however, without expressions of delight over their all too brief visit.

TAKES TWO AWARDS.—Mr. Rossieck Alexander, son of Mr.

Revisiting Province

Occupying the pulpit in the Charlottetown Baptist Church for the month of August, is a former pastor, Rev. Arthur C. Vincent, B.A., Th.M., D.D. (above) minister of the Main Street Baptist Church, Saint John.

Coming to the Charlottetown Church twenty-five years ago on graduating from the Southern Baptist Seminary, Dr. Vincent remained here for over six years. From this city he went to the Main Street Church in Saint John, to commence a long ministry there.

A period which saw many new names added to the church rolls. In 1941 he enlisted in the Army, serving overseas and returning in 1945 when he was again called to Saint John.

A past president of the Maritime Convention and presently a member of the executive, Dr. Vincent has served on both Foreign and Home Mission Boards and is a director of the United Baptist Bible Training School at Moncton. He comes to Charlottetown on completion of a two week preaching mission in Maine.

Accompanying him is Mrs. Vincent, who is active in the U. B. W. M. S. The couple have two sons, the elder an intern at Saint John.

and Mrs. V. A. Ainsworth, formerly of Charlottetown, now of St. John's, Newfoundland, who has been a student at King's College School, Windsor, N.S., was awarded four prizes at the closing exercises. These included the Governor General's medal, the T. Ross Whitehead Cup for best all round boy, this latter prize was by student vote. A prize for proficiency given by the masters, and a prize for science and mathematics. It was the first time in the history of the school that the same boy had received a prize from both masters and students. Roderick was formerly a student at Prince Street School.

SHOWED TRAPPING FILMS.—Mr. Ralph Bryenton of Herb Lake, Man., entertained a number of relatives and friends to a showing of trapping and hunting films at the Prince of Wales College last evening. As the pictures were run off, Mr. Bryenton explained their origin and the areas of British Columbia where his activities as a hunter and trapper occupied his time during the winter months for the past six years. Following his extensive trapping and hunting work from the early fall until late spring, Mr. Bryenton disposes of his pelts at the fur auction in Winnipeg. He is a cousin of Mr. Wylie Bryenton and Mrs. Eric Wilson, being a guest at the home of the latter on the Brackley Point Road while visiting the Province.

SPECIAL SERVICE.—At a recent Communion service in North Tryon Presbyterian Church conducted by the Rev. Lawrence Blaikie in which church Miss Mary A. MacKenzie is the present deaconess, several members were added to the Communion Roll—a Baptismal Bowl presented by the teachers and pupils of the Sunday School in which the late Mrs. Elizabeth Lang was dedicated by Mr. Blaikie and unveiled by Mrs. Lang's niece, Mrs. Bertram Thomson. Mrs. Lang had been superintendent of the Sunday School and organist of the church for many years, a life member of the Women's Missionary Society, a faithful member of the Ladies' Aid and she took an active part in all Christian work. Rev. Blaikie spoke very feelingly of the good deeds and Christian character of the late Mrs. Lang. "The memory of the just is blessed". Two children were baptized immediately following the dedication service, namely Mary Lois, daughter of Mr. and Mrs. Lloyd Cameron, and David George, son of Mr. and Mrs. Wymann Waddell.

Thoughts For Our Time

By His Eminence Cardinal McGuigan
(Copyright)

HOME, CHURCH AND SCHOOL
Adolf Hitler is reported to have said, "Glimpse me the children of any nation and in one generation I will possess that nation." His words indicate a great truth, viz., that the children of today are the adults of tomorrow, those who shall govern the destiny of the country, administer the laws, sit in the seats of judgment and execute all the other functions of society: doctors, lawyers, business people, fathers and mothers of families.

The child of today, is then, a most vital factor in the well-being of our society. It is fatal to neglect the proper formation of the child with the false argument that he is only a child and that there will be time enough when he grows up, or with the equally false pretense that the child is by nature good and, if left alone, will develop into a good citizen. The Communists, so wise in the subtleties of influence and infiltration, act otherwise; they let the child go their way, but do all in their power to possess the minds and hearts of the youth.

Christ Our Lord, too, has shown that the child is an important individual in His Divine eyes. About them He has spoken some of His tenderest, as well as some of His most severe words: "Suffer the little children, and forbid them not to come to me; for the Kingdom of Heaven is for such." (Matt. XIX, 14).

"But, like that small scandalize one of these little ones that believe in Me, it were better for him that a millstone should be hanged about his neck, and that he should be drowned in the depth of the sea." (Matt. XVIII, 6).

Can we not see in such maxims, the vital significance of education? Many fall into the error of consid-

ering education in a very narrow sense, as applied only to the school. But true education includes much more. The word itself means "to lead out of" which in the present context can signify to lead out of babyhood into the fullness of manhood.

The child, as it enters life, is a most complicated highly organized delicate organism, composed of many powers: appetites, passions, imagination, memory, will, intellect. In God's original plan, all these performed their proper functions with due regard for one another and the goodness of His whole man. But as a punishment for man's original revolt, God permitted chaos, instead of order, to reign in man's members, so that now we discover, as St. Paul writes, that the flesh lusteth against the spirit and the spirit against the flesh.

Man's duty and purpose in life is to re-establish this original harmony, not only within himself, but also between himself and his Creator. This is a supernatural end, and involves three great influences: the Home, the Church, the School. Each of these has a necessary role in the educative formation by which the baby becomes a well-balanced Christian adult. If any one is neglected, the process is thrown out of balance.

It is frequently happens; the school is expected to fulfill the role of all three, then, not only is the school so weighed down by a burden it never is intended to carry that it cannot perform its own task adequately, but in addition, the child suffers from lack of those beneficial influences it can receive only from Church and Home, influences so many parents complacently judge it is the role of the school to perform.

In this article, we would like to emphasize the part played by the home in the training of the future citizens of an any society. There never was and never will be an adequate substitute for the good Christian home. A common saying goes that the hand which rocks the cradle rules the world. The child needs its own parents and home to be a well-balanced individual. This is one of the main reasons God forbids divorce and why the splitting up of homes and parceling out of children is such a cruel injustice to the child as well as to the society in which that child is destined to play a part. Recent statistics indicate that the vast majority of juvenile delinquency tends to come from homes that are either broken up or carelessly conducted, and we are hearing more and more about parental delinquency in this regard.

Parents have a grave responsibility to establish homes in which there is found the truths of Christ. They must avoid scandal, i.e., being the cause of sin to their children either because of the lack of Christian principles in their own

lives, or by neglecting to supervise prudently the recreations, companions, reading, movies, etc., of their children.
Once again, we wish to remind parents of the lofty dignity which belongs to them whenever God places under their care one of His immortal souls purchased not by gold or silver but by the Precious Blood of our Saviour. What shall it profit parents if their children grow up to be eminent doctors, lawyers, etc., if by their gross neglect, some of these children go to Hell? What a reckoning will be theirs when they take their own turn before the Divine Judgment Seat!

With all the charity of our hearts, we urge parents to live up to their responsibilities as Christians and to give their best to this task so important for themselves, their dear ones, their society and their country.

lives, or by neglecting to supervise prudently the recreations, companions, reading, movies, etc., of their children.
Once again, we wish to remind parents of the lofty dignity which belongs to them whenever God places under their care one of His immortal souls purchased not by gold or silver but by the Precious Blood of our Saviour. What shall it profit parents if their children grow up to be eminent doctors, lawyers, etc., if by their gross neglect, some of these children go to Hell? What a reckoning will be theirs when they take their own turn before the Divine Judgment Seat!

The Only One Who Can Help You IS Your Doctor

If you notice any of the following symptoms. Last year approximately 10,000 Canadians were effectively treated for cancer because they went to the doctor in time. Please memorize the following symptoms and the first moment you notice any one of them, see your doctor.

1. Any sore that does not heal—particularly about the tongue, mouth or lips. Do not pass it off as "nothing at all". Go to the doctor.
2. A painless lump or thickening, especially in the breast, lip or tongue. Don't wait "to see what happens." Go to the doctor.
3. Irregular bleeding or discharge from any natural body opening. Do not wait for pain. Go to the doctor.
4. Progressive change in the color or size of a wart, mole or birthmark. Do not try salves or ointments. Go to the doctor.
5. Persistent indigestion. Do not wait for loss of weight. Go to the doctor.
6. Persistent hoarseness, unexplained cough, or difficulty in swallowing. Do not assume that it is due to smoking or some other form of irritation which will clear up. Go to the doctor.
7. Any change in normal bowel habits. Don't attempt to diagnose yourself. Go to the doctor.

PRECAUTIONS DURING POLIO SEASON

Poliomyelitis (infantile paralysis) occurs more frequently during July to October than at other seasons.

General precautions to lessen the effect of the disease are:

1. KEEP OUT OF CROWDS. Avoid unnecessary contacts in trains, buses, and indoor gatherings. Keep children with their own friends.
2. AVOID OVER-FATIGUE. Too active play, late hours, worry, long swimming periods, and irregular living schedules cause fatigue. If polio infection is present in the body extreme tiredness may bring on an attack of the disease.
3. AVOID CHILLING. Take off wet clothes and shoes at once. Don't stay too long in cold water or in wet bathing suits. Chilling may lessen your body's resistance against polio.
4. KEEP CLEAN. Wash hands carefully before eating and always after using the toilet. Avoid swimming in polluted waters.
5. WASH RAW FRUIT AND VEGETABLES before eating.
6. USE SAFE MILK AND WATER. Drink only pasteurized milk or milk which has been brought to a simmer. Drinking water should be tested for contamination.
7. KILL FLIES. Screen windows, doors and outside toilets. Use fly sprays around house and barns. Protect food, dishes and cooling utensils from flies and insects. Keep garbage and waste tightly covered. Burn or bury garbage. FLIES ARE CARRIERS OF DISEASE. Polio germs have been found on flies and in nose, mouth and bowel discharges of humans.
