SUMMARY

By THE CANADIAN PRESS

Toronto — Market higher, heavy trading.

New York — Market sharply higher; active trading.

Montreal — Market higher; moderate trading.

NEW YORK

NEW YORK (AP)—The stock market took its first bow for 1964 Thursday—mixed brisk buying and sharply rising prices.

The star of the first performance of the new year was a stock which made its debut Thursday on the big board, G. D. Searle, long a growth stock in the ever-the-counter market because of its oral birth control pill.

Searle was the most active stock, closing at 83 on 180,700 shares. This was 1¾ points above its last bid price on the counter market.

Other drugs were inspired by Searle's example, several making good gains.

MOTORS ADVANCE

Big three motors advanced solidly. There was no increase in response to recent news of higher world demand. Steels gained substantially.

Rails, chemicals, aircrafts, airlines, building materials, electronics and office equipments were other groups to join in the unusually heavy year-end session.

BOUGHT BRISKLY

A number of lower-priced issues were bought briskly as traders hoped for strong rebounds in the coming year. In this category was the second most active issue, Fairbanks Whitney, up ⅝ at 6 ⅝ on 91,200 shares, and Colorado Fuel and Iron, the third most active, unchanged at 11⅞ on 87,000 shares.

American Machine and Foundry, the fourth-ranking issue on volume, also fitted this category as it gained 20¼.

Among Canadian issues traded Aluminium Ltd., Canadian Pacific and McIntyre Porcupine gained ⅝. Walker Gooderham added ½, Dome Mines ⅜, Distillers Seagrams ¼, International Nickel ¼. Granby Mining and Hudson Bay mining lost ¼.

Prices on the American Stock Exchange advanced. Jupiter Corp. added ⅜, Scurry Rainbow Oil ⅜, Fargo Oil 3-16, and Canadian Javelin ¼. Canadian Marconi and Preston eased ⅛.

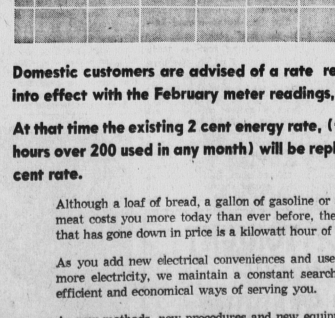
MARITIME ELECTRIC COMPANY LIMITED
DOMESTIC RATE REVISION



Domestic customers are advised of a rate reduction to go into effect with the February meter readings, 1964.

At that time the existing 2 cent energy rate, (for all kilowatt hours over 200 used in any month) will be replaced by a 1½ cent rate.

Although a loaf of bread, a gallon of gasoline or a pound of meat costs you more today than ever before, the one thing that has gone down in price is a kilowatt hour of electricity.

As you add new electrical conveniences and use more and more electricity, we maintain a constant search for more efficient and economical ways of serving you.

As new methods, new procedures and new equipment come along, we will utilize them to the fullest to make sure you continue to enjoy the benefits of modern living at the lowest possible cost.
