

BUSINESS

SOCIETY NEWS

CAUTION: Do not read this article if you are an engineer, because it contains big words which may confuse you.

Welcome to the third Business Society article of this year. The first two sucked, but this one is worse.

The first Business Pub of the Semester was the Great White North Pub, and even though it took three **trys** it was still the best first Pub put on by the Society this year. We would like to thank Kenny (Doug) Baker and Dennis (Bob) O'Hanley for their great job of drinking all our beer. A special THANK

goes out to Molson Breweries for the role they played((free cold favourites eh!!) in our Beer Chugging Contest which was won by Tony Carroll....and the boys. At any rate "Every-one got Frosted and had a beauty of a time.

Less than one month later and it was time for the Poor Mans Holiday. A lot of people missed a good time. M.C. for the evening was Gus Hillstrom who judged the limbo contest and won the Hula Hoop contest. The winner of the Limbo Contest was from Holiday College.

While we didn't have our Wet T-Shirt contest, we'd like to thank Pat McSweeny and Steve D for the Wet Shorts contest. Unfortunately this event washed out the golf tournament and the

Caps tournament. We'd also like to congratulate the idiot who jumped from the top floor of the barn onto the dance floor for not breaking his neck.

March 3rd. The 6th Annual Business Society dinner was a complete success. The Meal was good and Mr. Groome turned out to be quite an entertainer as well as a great speaker. We would like to thank him very much for his other appearance at the University to speak to our Small Business Class as well.

General comments from the Business Community were quite favorable and we'd like to thank them for their continued support of us and the Dinner. All those people wearing flowers at the Dinner can look forward to a complimentary "tear" for their ticket selling support. (You to Gus)

This Friday, the 12th our annual Curling Funspiel will be held at the Belvedere Curling Club. Check Kelley Building for further details.

Once Again We Challenge The Brightest of Engineers To Match Wits With The Baffling Puzzle Square

Words may be vertical, horizontal or diagonal. They may go backwards or forwards. It is possible for one letter to be in two words. The first member of the Bus. Society to solve all words and the hidden message wins a prize valued about \$7.80. Clue: 'Metro Centre Bound'
