# A VIEW FROM THE TOP

The Engineer's Bi-Weekly

---

Greetings Artsies, Bios, Vets, and Business Students.

Well here we are, back again for another year of sarcasm, pranks, offensive material and an overall good time. If at any time this year you might feel that you or your friend (If you have one) have been offended in any way shape or form, which ever one you might have, then please write us so that we know we are getting our thought across clearly. This year we have a new mascot graduate. Horny has trained a fellow by the name of Wile E. Coyote to take over his main jobs while Horny does graduate work. Bio's beware, Wile E. Coyote has got an appetite for penguins.

Steven Ramsay  
President  
UPEI, Engineering Society.

## A RECIPE FOR A GOOD TIME.

**INGREDIENTS:** ROOM 207 BLANCHARD HALL  
A CROWD OF ENGINEERS  
A WEDNESDAY NIGHT  
150 FREE BEER IN A TUB COVERED IN ICE

**INSTRUCTIONS:** PLACE THE ENGINEERS IN 207 BLANCHARD HALL. MIX WELL.  
GRADUALLY ADD THE BEER STEADILLY INCREASING THE RATE OF FLOW.  
FOR EXTRA FLAVOUR, ADD ANYONE PASSING BY IN THE HALLS.  
FOR SUPER RESULTS, ADD SOME BEER TO THE PASSERS-BY.  
AT END OF EVENING, THROW SEVERAL ENGINEERS INTO THE THE ICE FILLED TUB.

THE ABOVE IS A SURE FIRE METHOD FOR MAKING A GOOD TIME.  
IF IT DOESN'T WORK, CHECK TO MAKE SURE THERE ARE NO BIOS IN THE MIX.
