British Shipping Official Hits U.S. Discrimination

LONDON (AP) — A British shipping official hit out here at United States flag discrimination and warned Britain might be forced to take reprisals to guard its trade interests.

U.S. shipping legislation originally was designed to protect U.S. shipping, said Sir Nicholas Cayzer, "but it has enmeshed others in the bureaucratic straitjacket of mumbo-jumbo and ill-thought-out intentions."

Cayser, chairman of the British and Commonwealth Shipping Company, told a meeting of the Institute of Transport:

"Obsessed by an anti - trust neurosis, the Americans, by recent amendments to the 1916 Shipping ct. re trying to regulate the normal commercial activities of all liner trades touching the United States.

"Warnings about its effects on others are brushed aside. What a mockery such interference makes out of the traditional concept of international shipping. It is an absurd and ridiculous situation."

'SINISTER PROBLEM'

Cayzer said flag discrimination—the direction of cargo entering or leaving a country in ships of that country—was perhaps the most sinister problem facing British shipping.

"One does not lightly discuss reprisals," Cayzer said. "They are a weapon of last resort, but there is a limit to what one can endure without retaliation in self-defence."

And he added the time might well come when Britain would have to turn to its own navigation laws "to protect our vital self interests."

Cayzer said: "We have grown to believe in the freedom of the seas and in trading conditions unfettered by government control and political domination.

"Yet shipping today is tending to be based on national trade and sometimes on political opportunism such as the artificial stimulation of a country's export trade by the suppression of freight rates to subeconomic levels, but less and less as a service in its own right to be bought in the cheapest and most efficient market.

"In such an atmosphere how long can freedom of international seaborne trade survive?"

Cayzer said Britain's current shipping slump was partly caused by flag discrimination.

CONFIDENTIALLY YOURS

—by Byrne Hope Sanders

MONTREAL, April 4th — In Spring, a man's fancy often turns to thoughts of the pleasures of owning a new car — and that goes for women's thoughts, too. If you have your heart set on a bright new buggy — and have some financing in mind — take a tip from me. When you know what you want, drop into your neighbourhood branch of the BANK OF MONTREAL and discuss a **Family Finance Plan** loan. Here is the best way I've ever known to keep car financing costs low — and you get the advantage of life insurance. So shop around all you like for the car of your choice, but when you find it — be sure to talk to the B of M. You'll be *miles* ahead!

APRIL SHOWERS BRING MAY FLOWERS, but often for those whose work is out-of-doors, they bring unpleasant aches and pains. I have a letter from a mailman about this — he says:— "I used to suffer greatly from sharp pains of sciatica in my hip and thigh. Eventually I got around to taking TEMPLETON'S TRC's and found wonderful relief". Do try TRC's if you suffer from rheumatic, arthritic, neuritic or sciatic pain. And, for fast DOUBLE ACTION, when taking TRC's internally, apply Templeton's FLAME-cream Liniment externally. Ask for Templeton's TRC's — and for FLAME-cream in the roll-on, applicator bottle — at your favourite drug counter.

BEGIN THE DAY RIGHT for your family . . . with a special treat like muffins, for instance. So easy to make with TEA-BISK, the famous all-purpose baking mix. You'll be proud of your baking when you bake with Tea-Bisk . . . that's a promise from the makers. And, believe me, your family will be proud of you! So ask for Tea-Bisk, I'm sure it will be one of the handiest mixes on your shelf . . . your grocer has it in either the 19 oz. size with handy, pre-measured one-cup envelopes — or the big 37 oz. size with convenient pouring spout.

COOKING CAN BE MORE THAN SATISFYING . . . it can be truly exciting when you know this not-so-secret secret for creating 'dishes with dash' . . . season with mustard! One of the most versatile of spices, mustard adds zestful flavour to all kinds of foods . . . meats, fish, soups and salads. I've been experimenting and discovering a thousand-and-one delicious ways to season with mustard . . . one of them so timely, with Easter in the offing, I'd like to tell you about it. For Easter ham try this:— Before putting your ham in the oven, cover it with a blend of 1 cup of brown sugar, ½ cup of vinegar and 2 tablespoons of COLMAN'S DRY MUSTARD. I particularly specify Colman's because of its just-right, uniform strength . . . it's the best there is! In an early column I'll be back with more ways to make good food taste better . . . with mustard!

NOT A SOAP . . . NOT A DETERGENT . . . and it does something in the washer that neither soap nor detergent can do. It's CALGON, the wonder water-conditioner that *cleans away washing film.* Add Calgon with less of your favourite soap or detergent. Linens will shine . . . towels fluff up like new . . . no washing film to build up and leave things not quite clean! Soaps and detergents can't get rid of washing film . . . in fact, they and water minerals cause it. Even bleach won't dissolve it. But, you'll see what I mean when you try Calgon . . . first, in the wash . . . then, in the rinse. Calgon gets rid of washing film just . . . like . . . that!

Question Your Candidate On Live Television
