NOTICES NOTICES

VERY IMPORTANT

Indications are that the long spell of rainy weather is now about over, and the growth of the potato crop is indeed very encouraging.

During the rainy weather, the weed growth was getting ahead, but now cultivation has again started and indications are for a bumper crop.

The acreage has been cut back and the man who looks after his investment in potatoes this year should reap real good returns.

This means that spraying will have to be done vigorously to protect the leaves against insects and the weeds against disease blight.

We have the following weed sprayers for sale. All overhauled and reasonably priced:

1 Myers Sprayer, 400 gallon with 30 gallon pump, for 10 rows, \$1200.00.

1 Myers Sprayer, 200 gallon with 30 gallon pump, for 4 rows, under two seasons on 40 acres, with tires, \$1200.00.

1 300 gallon fiber glass sprayer with new John Bean pump, 2 row boom with tires, \$800.00.

We also have the famous line of John Bean Sprayers, which are recognized as the top quality line.

For those who wish to build up their own units, we can supply trucks, tanks, tank carriers, boom all sizes of pumps, or in fact, everything for the potato or grain grower. And remember our service is top and all goods are guaranteed satisfactory.

With your farm machinery headquarters, we are here to serve you.
