NE' YORK (AP)— The recently strong blue chips suffered a sharp fall in the stock market Monday. These popular high-priced investment-grade stocks have been among the best-acting issues in the list.

Monday they took it on the chin for losses of 1 to 4 points and Reynolds Metals was down 10 points at 217 and touched a low of 213.

Among wide losers were Bethlehem Steel of 4 1/2, Sears Roebuck 2 1-3, Douglas Aircraft 2 1/4, Anacosta 1 1/4, and General Motors 1 1/4. General Motors hit a high of 138 and closed at its low of 134 1/2.

After the close, directors declared a dividend of \$1.50 as compared with \$1 paid in two previous quarters.

The stock market has been climbing steadily since mid-May. Last week it declined mildly after an unbroken string of 10 weekly gains.

Island's Master Man Transferred

Three years ago Ivan Kerry arrived on Prince Edward Island to introduce Master Feeds to Island farmers. Ivan has been transferred to Nova Scotia and will be moving to Truro about the first of September to head the good word around that province. Ivan does not say goodbye as he hopes to visit the Island and his many friends quite often. He wishes to thank all for making his stay on the Island successful and very pleasant.

Master Feeds announce that Mr. Welton will be replaced by Mr. R. F. Dick, Welton, who has just arrived after spending considerable time working on several Ontario territories selling Master Feeds. Mr. Welton is originally from Nova Scotia, received his schooling in Middleton, during which time he was active in 4H work, winning a trip to the Royal Winter Fair judging dairy cattle. Mr. Welton studied two years in Nova Scotia Agricultural College, Truro, and two years in McDonald College, Montserrat, and graduated with a degree of B.Sc. (Agr.) before starting his work with Toronto Elevators in Ontario. He attended the poultry Short Course at O. A. Guelph and a course at Dr. Saury's laboratories in Charlottetown, Iowa, U.S.A.

Mr. Welton is glad to get back to the Maritimes and we are sure he and his Ontario bride will like Prince Edward Island as well as Ivan does. Advt.

Steel Demand Remains Strong

MONTREAL (CP)— Steel Company of Canada, Limited, in a note accompanying current quarterly dividend checks, said that demand for most steel products continues strong and the outlook for the next few months appears excellent.

"During the first six months of this year, production of steel ingots in Canada was about 36 per cent greater than in the same period in 1954 and fractionally better than in the record year of 1953," the note said.

Reporting on current expansion, the company said, "the continuous sheet-galvanizing installation at Hamilton works commenced production early in June and the continuous sheet-annealing line is expected to be in operation in a few weeks."

Super-tankers can carry up to 300,000 barrels of oil and are 775 feet long. Separate contracts will be awarded later for installation of the piping and hose-handling equipment on the new docks.

BIG ITEM

An estimated \$191,890,000 will be spent on construction of schools and other educational buildings this year in Canada.

Mr. Welton is originally from Nova Scotia, received his schooling in Middleton, during which time he was active in 4H work, winning a trip to the Royal Winter Fair judging dairy cattle. Mr. Welton studied two years in Nova Scotia Agricultural College, Truro, and two years in McDonald College, Montserrat, and graduated with a degree of B.Sc. (Agr.) before starting his work with Toronto Elevators in Ontario. He attended the poultry Short Course at O. A. Guelph and a course at Dr. Saury's laboratories in Charlottetown, Iowa, U.S.A.

Mr. Welton is glad to get back to the Maritimes and we are sure he and his Ontario bride will like Prince Edward Island as well as Ivan does. Advt.

Steel Demand Remains Strong

MONTREAL (CP)— Steel Company of Canada, Limited, in a note accompanying current quarterly dividend checks, said that demand for most steel products continues strong and the outlook for the next few months appears excellent.

"During the first six months of this year, production of steel ingots in Canada was about 36 per cent greater than in the same period in 1954 and fractionally better than in the record year of 1953," the note said.

Reporting on current expansion, the company said, "the continuous sheet-galvanizing installation at Hamilton works commenced production early in June and the continuous sheet-annealing line is expected to be in operation in a few weeks."

Super-tankers can carry up to 300,000 barrels of oil and are 775 feet long. Separate contracts will be awarded later for installation of the piping and hose-handling equipment on the new docks.

BIG ITEM

An estimated \$191,890,000 will be spent on construction of schools and other educational buildings this year in Canada.
