SUCCESSORS TO BEER BROS.

The Guardian Versus Cattle Owners.

DEAR SIR,—It is good cause for regret that farmers should lose time and cost by reading a paper such as your contemporary, while it persists in instructing its city readers that cattle owners are heartless cheats, and their most valued property, the milch cow, a diseased and dangerous brute.

Newspapers which continue to spread alarm among milk users in regard to the disease of late called tuberculosis, is a means of spreading unbelief in the wisdom of the Great Giver of all good things; for the cow is one of the best. The chief promise to the chosen people of old in regard to their "Promised Land" was that it flowed with "milk and honey." And ancient history tells us that Cadmus, the founder of one of the most famous of old world cities, ordered his people to build their city on the place where the cow lay down to rest. It being an emblem of long life and prosperity. No distrust of the cow or her milk then! It remains for the modern doctor and greedy vet to discover danger. The result is testing the animal and sterilizing the milk. As to the latter process, Dr. Veockler, the highest authority now living on subjects connected with chemical changes in food substances, and constantly employed by the British Government, reports to that Government that sterilized milk and pasteurised milk are each unwholesome articles of food for infants; and only cows milk, in its natural state, is a safe substitute for mother's milk for infants or young children.

As an offset to the silly and unproved statements of some hungry Yankee veterinary, quoted approvingly by the Guardian, I ask you to favor your readers with the following report from the Toronto Sun of the conclusions of an eminent investigator:

THE TUBERCULIN TEST.

"It is interesting to note that there is among experts a reaction against the popular belief that there is danger of tuberculosis in cattle being communicated to man. Dr. Theobald Smith, of Harvard University, who has been experimenting in this matter for some years, declares that human and bovine tubercle bacilli are not identical. He has joined in a recommendation to the New York Assembly that hereafter the State only force the condemnation, quarantine and slaughter of such animals as are found to be tuberculous by physical examination.' It would appear, he says, that seldom or never does a person contract tuberculosis from meat or the milk of animals, and it is recommended that the State can better use its funds in educational work than in following the present policy of destryoing all animals showing a reaction under the tuberculin test. There is evidence that where cattle tuberculosis is plentiful, human tuberculosis is so rare as to have no relation to it. These statements, though not positive enough to be conclusive, are yet reassuring, not only to cattle owners, but to the general public, which was seriously alarmed at the danger suggested by the tuberculin test."

By giving a place to above article you will be continuing your good work of assisting the farmer, and also give the citizens cause for renewed confidence in the milch cow.

Temperance Entertainment.

The members of Union Division were entertained at the house of Mr and Mrs Samuel H Haslam, of North Granville, on the evening of the 8th inst. About forty persons, including some invited friends, took advantage of the drive, the roads being excellent and the evening all that could be desired. The house was well suited to the occasion, and the first few hours were quickly spent with games, music and social chat. In the musical part special mention might be made of the Misses Haslam and Morris, who contributed to the entertainment.

Supper being called, the members retired to the dining room, where all showed their appreciation of the bounties provided by the ladies.

Bro. Thomas Haslam was then appointed president, and the following toasts were proposed and drank in cold water:—"Our Beloved Queen," (National Anthem), address from the chair; "The Canadian Contingent," responded to by Bros. Thos. McKay and Albert. Morris; "The Temperance Cause," responded to by Bro. E S Weeks, G S; "Our Host and Hostess," by Bro. Donald Mackenzie; "The Ladies," by Bros. Stephen Haslam and A B Mackenzie.

After giving three cheers for "old Union Division" and singing "Auld Lang Syne" the meeting closed, being evidently enjoyed by all.

BANNER OF THE BRAVE.

The banner of Old England,
The banner of the brave!
On Britain's craggy bulwarks
O, may it ever wave!
May it flutter o'er our heroes
Victorious in the strife,
When the field is red with gore,
And the struggle is for life!

There's many a banner drooping
Submissive on the mast,
But Britons' victor standard
Still battles with the blast!
There's many a banner tainted
With foul dishonor's blot,
But Britain's honor'd cresses
Have no debasing spot.

No—pure is Britain's honor,
Unconscious of a stain,
Unyielding as the lion,
The Lord of Afric's plain;
And ne'er shall other standard
On Britain's turrets wave,
But the banner of Old England,
The banner of the brave!

EARNSCLIFFE NOTES.

Mrs. George Lane, of China Point, is visiting friends in Hermitage.

One of our boys is wearing a beautiful mitten. A present from his best girl.

Miss Bertha McAulay, of Pinnette, is paying a pleasant visit to her relatives here.

Why is the stamp on this letter like the Attorney-General? Because it was licked by a Tory.

The ice from Buchanan's, Belfast, to Mr. Tweedy's shore was bushed last Friday. Not often we have ice bushed this late in the season.

The address of our soldier friend is Fred B. McRae, care of Capt. A. C. Bell, Maxim Squad, Royal Canadian Regiment, serving in South Africa.

Mr. Cameron Acorn, of Pownal, lost a horse in the Pownal ice last week, and Mr. John M. Grant, of Orwell, lost one in the China Point ice on Friday.

Our school children have presented their teacher, Miss G. H. Macdonald, who is leaving us this month, with a valuable gift as a token of their respect and esteem for her.

In a recent letter we expressed the opinion that, although born in Ireland, Lord Kitchener is an Englishman because he is of English desent. But some of our friends does not share this opinion, as they continue calling him an Irishman. Very well, Ireland can have Kitchener, but she must give up Lord Roberts, because although of Irish descent, "Bobs" was born in India and is therefore a Hindoo.
