UNREST IN INDIA.

The Ameer's Connivance With Rebels.

Indian and British Troops on the Move.

BOMBAY, Aug. 14.—The impression is growing that the Ameer of Afghanistan is conniving with, if not actually assisting, the Chitral rising. It is reported that he has recalled the Afghan agents at Simla, Calcutta, Karachi and Bombay, summoning them to Cabul, his capital. From enquiries it is ascertained that Yarmomahan Khan, the Bombay agent, left for Cabul a few days ago in response to a message from the Ameer. Before he left he disposed of all his movable property.

It is believed that some sections of the Afridis are in revolt. The Hindoos at Peshawar are in fear of being robbed and looted by Mohammedans. A company of Bombay sappers will leave Kirkee for Rowaldindi tomorrow, and orders have been given to the Dorsetshire Regiment and a company of Madras sappers to leave Bangalore for Rowaldindi immediately.

DEATH OF CANOVAS.

Prince Bismarck's Tribute—Impressive Funeral Ceremony—Senora Canovas' Forgiveness of the Assassin.

MADRID, Aug. 14.—Prince Bismarck, in his telegram of condolence to Senora Canovas, says: "I have never bowed my head before to anyone; but I bow it every time I hear the name of Canovas."

MADRID, Aug. 14.—The funeral of the dead Premier was a most touching and solemn ceremony. More than a thousand wreaths decorated the death chamber. As the coffin was lifted by the pall bearers, Senora Canovas said: "I desire that all should know I forgive the assassin. It is the greatest sacrifice I can make; but I make it for the sake of what I know of my husband's great heart."

LATEST NEWS BY WIRE AND MAIL

CAMPBELLTON, Aug. 12.—Early this morning the body of a woman was found drowned in a salmon net at Tide Head, about four miles up the river. On her body was found a G. T. R. check from Montreal to Campbellton; also about fifteen dollars and a Catholic bible. The woman had arrived on Tuesday night. In her trunk, which was in the baggage room, were found two letters addressed, "Miss Jennings Hennessey, Montreal." The Montreal police have been notified.

TORONTO, Aug. 11.—The liberal contractors, not only of this city but of the whole province as well, are expressing great dissatisfaction at the action of Hon. Mr. Tarte, in having on his last visit to this city, let the contract for the dredging of the eastern gap of Toronto harbor to W. E. Phin, of Brantford. The contract is alleged to have been awarded without tender. It is also alleged that Mr. Phin has never had the slightest experience in dredging or any kind of lake or harbor work, and that he never owned a pound of dredging plant in his life. He is said to be a young man, who a few years ago left a farm in Waterloo county to sell varnish for his uncle.

OTTAWA, August 22.—The Dominion statistician estimates that the floating population of the Dominion at present engaged in mining is somewhere in the neighborhood of 30,000. Although there has been a considerable influx of population into the Western mining districts, yet it is not calculated that it will make any considerable increase in the permanent population of the Dominion. A large portion of those who have flocked there have simply migrated from other portions of Canada, and of the strangers or aliens who have emigrated there but few comparatively will remain.

VANCOUVER, August 12.—Thirty-six mounted police have arrived in Vancouver in charge of Lieut. Harper. They have a Maxim gun. They sail from Victoria on the 15th August. Twenty push through to Klondike with all haste, where they will enforce the laws and collect royalties. Sixteen will remain at Tagish to collect the revenue and establish a mail dog train. Men say they are glad to leave their monotonous former experience for new experiences and excitement. They say they expect trouble in collecting royalties. If this law is enforced they believe the force will be increased to 125. There is a report here to the effect that Major Walsh is to act as gold commissioner, and eventually as commander-in-chief of the police. Two revenue collectors accompany Lieutenant Harper.

VICTORIA, B. C., Aug. 12.—Despite the fact that the men already at Dyea and Skedea will be unable to get across the pass and that only a few will reach the mines this winter the rush continues, all the accommodation on the steamer having been taken up.

SEATTLE, Aug. 11.—The British steamers Islander and Gea have arrived at Dyea with about 500 prospectors, which increase the number on the Dyea and Skaguay trails to fully 1,500. The probability of one man in ten reaching the Klondike is remote. Old Alaska prospectors, some of whom have wintered in the Yukon and know what to expect, are becoming frightened and turning back. They are apprehensive of famine.

TORONTO, Aug. 12.—The Globe's Ottawa special says: Major Walsh was appointed administrator of the Yukon district at a salary of \$5,000 a year. He has accepted it at a considerable pecuniary sacrifice, and will probably resign after the territory is thoroughly organized in a year or two and everything is in running order. It is the intention of the Government, if practicable, to establish a bank at Dawson city where the gold of the miners can be deposited in safety and exchanged for draughts. This step, however, would necessitate the establishment of an assay office as well.

TORONTO, Aug. 12.—The first meeting of the Dominion Plebiscite Campaign Literature Committee of the Dominion Alliance was held yesterday afternoon. The committee was engaged the whole of the afternoon in a preliminary examination of different samples and forms of literature. Various plans for the distribution of literature were considered. Another meeting will be held on Monday afternoon, at which definite action respecting several of the proposed plans will be taken. The Alliance Executive do not regard the postponement of the Plebiscite Bill until next session as giving them more than barely enough time to prepare for the contest, which they look for some time next year.

CHICAGO, Aug. 12.—Wheat is pouring toward the seaboard in such quantities that a car famine unprecedented in the history of American railroading has already begun. The granaries of the Mississippi valley are overflowing and the price of wheat has seldom been so high in connection with such a large crop. The great granger roads, the St. Paul, Rock Island, Northwestern, Burlington and others, despair of being able to handle all the offerings and the eastern connections to the seaboard are seriously embarrassed by the glut of business. The granger roads alone have made arrangements to secure 50,000 extra cars within a few weeks. Even with these the inadequacy of the elevators to handle all of the offerings is likely to

You won't find a better place to buy Dry Goods than the Sunnyside Dry Goods Store.

render the situation as bad as ever. The only fear of the shippers seems to be that prices will fall before they can get all their grain on shipboard.

TORONTO, Aug. 12.—Mr. Thomas Crawford, M.L.A., who is an extensive cattle shipper, says the new Dingley Tariff Bill has practically killed the export cattle business from Canada to the United States, which has grown up during the past year. A few cattle are still going to Buffalo, which are bought by farmers to be fed for export. Mr. Crawford, however, does not look upon this result as an unmixed evil, for he thinks that with the abundance of feed in Canada, and the fact that the United States buyers could afford to give one cent a pound more for cattle to export, the Canadian farmers should do more of the exporting themselves. He believes that the tariff may have the result that the Canadian farmers will be forced to go more into the export business direct to the European market, as they have the start of the United States farmer in every way.

OTTAWA, Aug. 12.—It is noted here that in the event of Canada retaliating against the withdrawal of the bonding privilege, now accorded to the C. P. R. of carriage of the United States foreign transit freight, Canadian ports on the Atlantic will be greatly benefited. It is believed there will be a large increase in trade enabling St. John an Halifax to enlarge facilities for the handling of freight and the Canadian roads to give cheaper rates. In the matter of hides alone imported from South America, a million and a quarter worth came to Canada by Boston last year.
