# To Speed Planning On Air Station Projects

OTTAWA.—Design planning on projects at R. C. A. F. Station, Summerside, will be speeded up to permit construction work to start on schedule this summer. While the final decision to proceed with the work was taken by the Government early in 1958, plans for the project were proceeding since late in 1957.

These plans would normally take about six months to complete but they have been stepped up on a priority basis. Overall costs of the projects is placed at \$3 million. An announcement on the Summerside projects was made in the House of Commons

by Defence Minister George R. Pearkes, V. C. in January and during the same month a schedule was tabled, indicating the nature of the work, estimated cost and when work would be started.

The schedule of works at Summerside is as follows: Underground, electrical distribution and communications system part 2 \$450,000 spring 1958. Interior painting of hangars 1 to 5 \$73,750 winter 1957-58. High intensity approach and runway lighting \$45,000 work has started maintenance hangar \$3,000,000 summer 1958; readiness hangar

\$400,000 summer 1958; anti-corrosion hangar \$24,000 summer 1958; armament storage and assembly facilities \$57,000 summer 1958; airfile development and roads \$830,000 summer 1958; bulk fuel handling facilities and rail spur \$390,000 summer 1958; central heating plant, water, sewage and electrical services \$1,254,000 spring 1958; grading and fencing \$380,000 spring 1958.

Defence Department Officials say that this is not only a major defence project for Summerside and Prince Edward Island, but is one of the really big R. C. A. F. modernization and improvement plans in all Canada.

## Village Of O'Leary Has Surplus Of \$2,742.22

Retiring commissioner Kenneth Matheson presided over the annual meeting of the Village of O'Leary held Tuesday evening with a large attendance of ratepayers.

Commissioners present were Harry MacWilliams, Alton Rayner, Therin Ellis, Douglas Adams and Dr. Charles Dewar.

A surplus of \$2,742.22 was noted and it was agreed that the tax rate of one percent would remain unchanged. The secretary's report was read by Mrs. John Morehead and the financial statement by Harry MacWilliams.

Reporting for the Water and Sewerage Program, Mr. Alton Rayner stated that 10,000 feet of tile had been laid and work

would be recommenced in the spring.

The sum of \$25.00 was voted for the O'Leary public library. Douglas Adams, Chairman of the Lighting Committee, said that four new lights are to be installed shortly.

The possibility of paving the road to the new hospital and also the road leading to the creamery was discussed. Resolutions regarding paving are to be drawn up and forwarded to the proper authorities.

Rendall Boates reported for the Fire Department and urged that the fire fighting equipment be used for that purpose only.

New commissioners are: James Baglole and Emerson Smallman. Alton Rayner retired after six years and Ken Matheson after four years service.

## "Y" Financial

(Continued from page 2) the fees would be out of reach for the great majority of boys and girls.

"I would like to emphasize too that no boy or girl is kept out of the 'Y' for financial reasons and the policy is and has been to encourage all young people to take advantage of the broad program provided.

"Any boy or girl whose parents are unable to provide the membership fee, has merely to make it known to the General Secretary and the necessary steps will be taken to fill the need."

OUTLOOK PROMISING

When queried as to the future of the "Y", Mr. Rogers stated that the outlook was never more promising. He said that great advances have been made in the last year both in program and in the attitude of members and the general public. On many occasions there is not sufficient space to accommodate the various groups.

The Directors look forward to

It has been stated that the engineering study will proceed immediately.

A "field test" was undertaken by the Federal Department of Public Works late in 1956 when some of the rock taken from the ground in the area was placed in the water of the Northumberland Strait suspended in wire cages. The idea was to test the effect of the water on the rock. No report on this test has been made public.

FROM MR. MACQUARRIE

The following statement on the

time when they will be able to entirely liquidate the balance of the mortgage and so release the funds now paid in interest to help further develop the facilities and program and meet the ever changing needs.

"The 'Y' belongs to the people," said Mr. Rogers, "and we believe that the general feeling of interest and optimism indicates this fact and ensures that they will respond accordingly to the present appeal and not only reach, but over subscribe the objective of \$15,000.00.

causeway survey was received last evening from Mr. Heath Macquarrie, M. P. for Queens in the last Parliament.

"The announcement of a thoroughgoing and exhaustive study concerning the construction of our much-sought-for Causeway is altogether welcome. It indicates that the government regards the matter seriously and is prepared to give high priority to the consideration of the subject.

"In discussions with ministers in recent months it has been clear that Ottawa is most interested in this proposed transportation link. All Prince Edward Island members have been pressing the subject forward and in this we have had the support of the members of the Maritimes.

It was my privilege to be chosen chairman of the Atlantic Provinces caucus of government-supporting MPs and thus had an opportunity of discussing the matter with them fully. Their cooperation has been most valuable and indicates their recognition of the importance of the causeway to the whole Atlantic area.

"The building of the causeway would revolutionize the transportation structure of the Maritime Provinces and be one of the greatest boons to this province.
