DON'T GET UP EARLY. The sound of the wind in the branches and among the slender columns is inexpressibly sad and affects some people with melancholia, and if they are very nervous often with hysteria. I am told that there are invalids in Thomaston who cannot endure the peculiar sighing that rises and falls as the wind grows stronger or subsides, like the incessant roar of the surf; and one young woman who was recommended to leave her home, because the river breeze, when he thought of the river subject at all, is all against the early rising theory. Physiological experiments appear to show that a man does not work best and fastest in the morning hours, but, on the contrary, about midday. The desire to rise early, except in those trained from youth to outdoor pursuits, is commonly a sign of strength of character and vigor of body, but of advancing age. Thus the invalids, who get up at 5 or 6 a.m., and look upon his healthy son who lies till 8, as a sluggard. When this foolish interpretation of a proverb about the health and wealth to be got from early rising is combined with the still more foolish advice which says of sleep, "Six hours for a man, seven for a woman, and eight for a fool," then we have a vicious system capable of working great mischief to young people of both sexes.—British Medical Journal.

CUBA'S IMMENSE TRADE. The trade of Cuba is simply astounding when compared with that of other nations, and is only to be explained on the ground that everything raised on the island is for export, and all articles of the first commercial importance. The exports of Great Britain to Cuba amount to \$22,750,000; France, \$18,640,000; Germany, \$18,570,000; the United States, \$13,520,000; Spain, \$10,670,000; and of Cuba \$50,000,000. It is ridiculous to say that Cuba is proportionately richer than the countries named, when admitting the high character of all her products, but rather it shows how Spanish excitation has been the result of her trade with every item of value in order to raise a revenue out of all proportion to the number of people subject thereto.

20 YEARS OF SUFFERING. 20 Failures to Cure. For 20 years I suffered the torments of the damned with blind and itching piles. Had I known of any cure I would not have hesitated to have given hundreds of dollars to obtain it. I followed the instructions of an eminent physician in using syringe treatments. I used Fowler's Pile Cure and 20 others of different kinds. From some a little relief was gained, but nothing approached a cure. I was about resigned to the fate of having to pass through an almost uninterrupted course suffering so long as I lived, when Chase's Ointment was brought to my notice. The statements in regard to it were so strong and bore with them a sense of conviction sufficient to overcome my skepticism in regard to its being no better than the rest. I used it, with the result of receiving immediate relief and permanent cure. For weeks and weeks I was fearfully afraid of a return to misery, but it did not occur. I started using Chase's Ointment, hoping for relief and realized a cure that is permanent. I do not believe there ever was a worse case of blind and itching piles than mine, which blind and itching piles it is not a case to be recorded that Chase's Ointment will not cure. Yours truly, Geo. W. MORRIS, Prop. The New Morris Store.
