CAMERON BLOCK.

Local and Other Items.

STREET OIL.—It is said that several small veins of oil have been struck by gas borers in the suburbs of Ottawa.

HORSE EXPORT.—Mr. McKie shipped ten fine drivers on Saturday evening and went to St. John to-day to dispose of them.

A BIG LIFT.—The Free Baptist Society of Nova Scotia have recently received \$2,000 from Mrs. Alice J. Whitney, of Centreville, N. S.

MEN and women prematurely gray, and whose hair was falling, are enthusiastic in praising Hall's Hair Renewer for restoring the color and preventing baldness.

EXPULSED.—The Halifax Herald says that "Rev. J. B. Hawes, whose 'black' record was recently exposed in that paper, has been expelled from the Congregational Union of Nova Scotia, New Brunswick and P. E. Island.

ISLAND HORSES EXPORTED.—The St. John Telegraph says:—Messrs. J. W. Smith and J. B. Hannin each shipped five P. E. Island horses by yesterday's Boston steamer. Mr. Hannin's shipment was consigned to Eastport, and Mr. Smith's horses went to Portland, Me.

FROM WEST POINT.—A West Point correspondent of the Agriculturalist writes: Messrs. Longworth's lobster factory is still doing a fair business. Mackerel are plenty and some fairly good hauls have been made. The cove is fairly teeming with boats, and in almost every farmers barn may be seen a fishing boat in course of construction.

CONGREGATIONAL UNION.—The officers of the Congregational Union of N. S., N. B. and P. E. I., for the ensuing year, are Rev. Dr. Watson, chairman; Rev. J. B. Saer, secretary; Rev. J. Shipperley, statistical secretary; Jas. Woodrow, treasurer. The next meeting will be held at Maitland, Hants Co., next July.

MET DEATH WITH A LAUGH.—At Sherbrooke, Ont., on Friday morning last, the engineer of a Grand Trunk train whistled for a man named LePage, a laborer, to get off the track, but LePage only looked back and laughed. The train overtook him and cut him in pieces. The conductor attributed LePage's conduct to his being intoxicated.

THE POLYNESIAN.—We learn from the Halifax Mail that the steamer Polynesian which collided with and sank the steamer Cynthia near Montreal some time ago, will not be ready to proceed to sea for a month. Her cargo of grain was removed a few days ago into lighters, the removal of the same being requisite in order to have the ship repaired.

THE PLUM CROP.—The Cornwallis, N. S., correspondent of the St. John Sun says: The yield of plums in this section will not be one quarter of the average crop. At Grand Pré there is a total failure on many farms, owing to last year's prolific yield. Black knot, however, is playing havoc with many trees. So far as can be ascertained there are no plums in or about Horton for export, and at Wolfville there is not half a crop. Your correspondent has been over nearly all the plum country, and thus speaks from personal knowledge.

ECHOES OF THE FIGHT.—The excursion money gives each man about \$4,000. Some of Kilrain's admirers made up a purse of \$600 for him, and it is said Sullivan will present him with \$500. Sullivan was under the influence of liquor at New Orleans on Tuesday night last, and four policemen were on guard in case he committed any overt act. Jen Smith has challenged Sullivan to fight in Europe for \$1,000 a side. Charlie Mitchell says: "I am going to challenge Sullivan to fight for \$5,000 a side in America within three or four months."

FATAL ACCIDENT.—The Halifax Herald of Saturday says: On Tuesday afternoon last Archibald Geizer, the thirteen-year old son of Henry Geizer, of Geizer's Hill, Dutch Village, arose from the dinner table and went out at the back door, where he slipped on a large stone flag and fell, striking his forehead and being stunned. It was some minutes before he recovered consciousness, and then he was suffering pain in his abdomen. It grew worse, and Dr. Chisholm was sent for, but the little sufferer had sustained a rupture necessarily fatal. He lingered till 2 o'clock yesterday morning.

THE M. A. STARR AT PUGWASH.—A Pugwash despatch of the 12th says: The M. A. Starr arrived here this morning from Charlottetown on her first regular trip. After discharging a large quantity of freight she will proceed to Charlottetown, calling at Wallace and River John. There is a grand display of bunting, and our people seem to be alive to the fact that we are having opened to us such connections as will enable us to compete with other towns along the coast, where steamboat communication has long since been established. Black & Co. have been appointed agents. The railroad is fast approaching completion, and we know that when the road is open for business there will be a large trade carried on between here and P. E. Island.

RARE CHANCE.—No doubt a large number in the East will take advantage of the extraordinary opportunity offered by the managers of the Grand Tea Party at Alberton on Thursday, July 18th, and see the far west at a trifling cost. Few King's, or even Queen's County men, have ever gone beyond Summerside, and this is a chance to all to see 85 miles more of the Province. It will be admitted, on every side, that Islanders should be made acquainted with their own Province, and thereby put in a position to talk intelligently of its advantages. How many know anything of the greater part of the Province? Railway fare is so high as to preclude generally the possibility of many going very far. The railway arrangement for this gathering, however, puts within the reach of everyone a delightful trip to the west—almost the extreme western portion of the Province and offers them besides a day's real pleasure. The people of Georgetown, Souris and intermediate points in King's, as well as our city and country folk, will, without doubt, go to the Alberton Tea, and the trip will reward them.

FARMING.

Professor Saunders at Tignish.

As announced in the press, Professor Saunders lectured in St. Mary's Hall, Tignish, on Friday evening. The building was crowded by a very appreciative audience of the farmers of western Prince, and the lecture must have been of the greatest value to them. The Rev. Father Burke presided, introducing the Professor in appropriate terms. The lecturer touched upon general topics of interest to the farmer. He explained the object and workings of the Experimental Farms; spoke on the general principles of farming; emphasized the importance of manuring; threw out hints on poultry and stock-raising; dwelt on the necessity of tidiness in farming, as shown in the care of trees, destruction of weeds, etc.; in fact, touched upon a variety of subjects of vital interest to the farmers of the far west. The intense interest manifested showed clearly how invaluable are these addresses of the learned Professor. As we must depend mainly upon agriculture, anything that helps us to be better farmers is of incalculable value and importance, and, therefore, this tour must be followed by the best results. After the lecture questions were asked by the Rev. Dugald McDonald, A. McFadyen, P. Doyle, E. Hackett and others, to which satisfactory answers were returned. The meeting broke up with a hearty vote of thanks to Prof. Saunders, and each farmer wended his way homeward, pleased with what he had heard, and resolved to apply something of it in his farming operations. All were loud in the praise of Father Burke for bringing the Professor to Tignish.

On Saturday last Professor Saunders stopped off at Alberton with Father Burke, and made a tour of that section of the country. The heavy, fertile lands of St. Mark's, Lot 7, were visited. The Professor enjoyed the drive, and added to his stock of knowledge of this beautiful Island of ours. He thinks the far west has a great future before it as an agricultural country.

Boston Markets.

JULY 11.
EGGS.—Receipts for the week 286 boxes, 56 bbls., 15,258 cases; last week 33 boxes, 356 bbls., 14,168 cases. Receipts from the Provinces and from the west continue large and this stock is having a dragging sale with prices in buyer's favor. The best P. E. Island, Nova Scotia and New Brunswick lots are dull at 14 and 14½c. Western hots are to be extra to bring 14c. and there is plenty of good stock offering at 13½ and 14c. Eastern extras are scarce and bring extreme prices.

Fish Bureau Reports.

The weather is very unfavorable on the N. E. Cape Breton coast and at Magdalen Islands. At Port La Tour and vicinity the shore fishing continues good, the bait used being small herring, obtained in small quantities. Bait generally is scarce on eastern shore. The report of herring taken at Tancook Island on the 9th was correct.

Table Etiquette for Children.

Here are a few good rules that can be safely followed:
Give the child a seat that shall be strictly his own.
Teach him to take his seat quietly.
To wait patiently to be served.
To answer promptly.
To say, "Thank you."
If asked to leave the table for a forgotten article or for any purpose to do so at once.
Never to interrupt and never to contradict.
Never to make remarks about the food, such as "I saw that turkey killed, and how he did bleed!" as I once heard a little boy remark at a Thanksgiving dinner.
Teach the child to keep his plate in order.
Not to handle the bread or to drop food on the cloth and floor.
To always say, "Excuse me, please," to the mother when at home, and to the lady or hostess when visiting, if leaving the table before the rest of the party.
To fold his napkin and to put back his chair or push it close to the table before leaving; and after leaving the table not to return.

Summerside Exports.

Summerside, July 12.—Shipped per steamer Princess of Wales, Cameron, master, for Point du Chene:
97 cases eggs.....\$ 378
6 brls mackerel..... 90
3 hores..... 300
3980 lbs leather..... 1194
18 brls pork..... 216
440 lbs bacon..... 45
200 lbs tallow..... 16
160 bush oats..... 48
Sundries..... 7
\$2294
By same str on 13th—
4 brls mackerel.....\$ 60
94 cases eggs..... 367
4 hores..... 525
800 lbs hams..... 80
600 lbs leather..... 180
\$2122

Quite So.

"Life is real! Life is earnest!"
And the man who hopes to rise
To success in any calling,
Must expect to advertise.
"In the world's broad field of battle,
In the conflict of real life,"
Advertising is the secret
Of achievement in the strife.
"Lives of rich men all remind us
We can make our own sublime;
By liberal advertising
To the highest summit climb."

Labor Troubles.

A PROLONGED STRIKE THREATENED AT PITTSBURG.
One hundred Pinkerton men, armed with Springfield rifles, arrived at Pittsburg, Pa., on Friday, and were taken to the Homestead Bessemer Steel Works of Carnegie, Phipps & Co., and placed about the mill property to protect it and the workmen from strikers. The sheriff will wear in a posse of 100 men for the same purpose. The struggle promises to be the most bitter in the history of strikes in this section. Both sides are determined and a long fight is anticipated. Everything was quiet about the works during the day. At noon about 125 deputies arrived at Homestead, and were immediately surrounded by nearly one thousand strikers, and requested to return to the city. They refused, and the crowd would not allow them to enter the mill. At 1.30 the works were surrounded by the mob, but no outbreak had occurred.

Telegraphic Odds and Ends.

PARIS, July 12.—The Journal DesBates says the committee of the high court recommend that Boulanger, Dillon and Rochefort be arraigned on a charge of conspiring against the State.

ADEN, July 12.—The French steamer Anrdry is reported sunk outside Aden by collision with the French steamer Oxus and completely submerged. The mails and passengers were saved and landed at Aden.

CAIRO, July 12.—The Government is forming grain depots along the Nile for the purpose of supporting fugitives fleeing before the dervishes. Many tribal Sheikhs are tendering their services to the government.

LONDON, July 12.—Sir Charles Russell demanded the production of the books of the loyal and patriotic union. Court decided against the application, and Parnell, Davitt, Lewis and Sir Charles Russell withdrew from the court room. The Commission adjourned until Tuesday.

MONTREAL, July 12.—Father Labelle, better known as the Lower Canadian apostle of colonization, and now deputy minister of agriculture, under Mr. Mercier, has been elevated by the Pope to the dignity of protonotary apostolic administrator, in recognition of his eminent services to the cause of colonization.

OTTAWA, July 12.—A telegram from Winnipeg intimates that the Burke extradition papers will probably not reach Ottawa until Tuesday next.

ST. PETERSBURG, July 12.—The government has totally suppressed the Lutheran Church in Russia.

LONDON, July 12.—It is reported that Gladstone and Morley have approved the tenants defence league. The main object is to raise a fund for the purpose of giving legal assistance to tenants against combining landlords and not to divert the rent from the proper channels. The Parnellites will meet on Monday to consider Sexton's draft of the new league. A convention, at which the new league will be formally floated, will be held in Dublin, Parnell presiding.

O'Brien, in an interview yesterday, said that the chief feature of the new league was a vast national fund to save evicted tenants from the workhouse.

News Notes.

Four British torpedo boats are to be sent to Bermuda.

The largest mortgage that was ever placed on record was executed in Chicago a few days ago. The Milwaukee and St. Paul Railroad gave a mortgage of its whole property to a New York Trust Company to secure a loan of \$150,000,000. This is to almost every one a sum unimaginably great.

An English newspaper has the advertisement of a young Polish woman who asks assistance in buying a piano, as her parents are too poor to buy one for her. The young woman's name is Judwiga Janina Bogus Tawska Piotokow Trybanaski Ulica Moskiewska dom Dolniskio.

Military critics, who have made a tour of France since the opening of the Paris exposition, express surprise at the rapid and formidable changes that have been made in the land defences of France under the present administration. A year or two ago the use of shells charged with melinite and other explosives gave the artillery a sudden and decided advantage in his contest with permanent works. A single melinite shell was found to blow a great trench through any ordinary kind of parapet. In this way the concentrated fires of a few guns upon any works promised to effect its destruction in a very short time. This unexpected improvement upon the effectiveness of the artillery threatens to make useless most of the magnificent fortresses erected during the last twenty years.

MARRIED.

At Georgetown, on 2d inst., by Hon. D. Gordon, J. P., under license from the Lieut. Governor, Mr. James Clark, to Mrs. Sarah Douglas, both of Lot 38.

DIED.

On Saturday, 13th inst., George Huestis, aged 14 days, infant son of Benjamin and Mary Balderston.
