

THE DAILY EXAMINER.

NOVEMBER 27, 1888.

Communication with the Mainland.

The Patriot's leader of last evening was clipped from the Toronto Mail, and is worthy of some notice.

"If we profit by the severance of Canada from the trade of the continent, how can it be otherwise than beneficial to Prince Edward Island to be cut off, if only for a portion of the year, from the trade of the Dominion?"

The house was completely gutted, and all the furniture therein, with the exception of some kitchen utensils, was destroyed.

There was no fire in the house yesterday. The fire was undoubtedly the work of an incendiary, and an investigation will probably be held.

Mrs. Ryan and family are in Summerside, and Mr. Ryan, although in the city last night, did not sleep in the house.

There was not a great many people at the fire, very few persons east of Queen Street having heard the bell.

Mr. Ryan estimates his loss at about \$2,500. The house was insured for \$1,000 in the Liverpool, London and Globe, represented by R. B. Fitzgerald, and for \$400 in the London & Lancashire, and the furniture for \$800 in the London & Lancashire, represented by John Maccaehern.

This Morning's Blaze.

SHORTLY before three o'clock this morning, while police officers Cameron and Campbell were on their beat on Euston Street, near Pownal, they smelled wood burning.

When the officers examined Mr. Ryan's premises, they found that the fire was near the hatchway on the east-rail side of the house, and that the kindling wood in the cellar was in a blaze.

They at once gave the alarm, and there was a prompt turn-out of the engines and firemen.

Mr. Charles Hyde has been making an improvement on his farm, by putting up a post and rail fence from his residence to the road.

Mr. John Watts has had an excellent crop of buckwheat. Six bushels sowing yielded two hundred bushels.

A special to the New York Herald, from Washington, says that the latest figures stand, 162 Democrats, 162 Republicans, and one independent, Columbia, of 162,000.

Mr. W. J. Palmer, son of Charles Palmer, Esq., of Charlottetown, a graduate of the Ontario Agricultural College, making use of the rich stores of knowledge garnered while at the above institution, has begun his career as a stock raiser by making several draughts on the best of Ontario's noted herds.

Personal. Richard Hunt, Esq., Summerside, was in the city to-day. John G. Scrimgeour, M. L. C., Cardigan, is registered at the Osborne.

Results of an Equitable Tontine Policy.

On September 15th, 1873, the Equitable Life Assurance Society issued Policy No. 84,715 on the life of a resident of New York, who was then 30 years of age.

Here is the result September 15th, 1888: A cash value of \$6,567.70. This is a return in cash to the policyholder of \$122.45 for each \$100 paid by him in premiums, and in addition to the protection furnished to his family of \$10,000 of assurance during the fifteen years. Or, he could have taken a paid-up policy for \$15,860. This would secure a return in cash to the policyholder's heirs of \$295.70 for each \$100 paid by him in premiums.

Personal.

Richard Hunt, Esq., Summerside, was in the city to-day. John G. Scrimgeour, M. L. C., Cardigan, is registered at the Osborne.

Hon. Mr. Chapleau is seriously ill. He is suffering from an attack of bronchitis. Judge Armstrong, Chairman of the Labor Commission at Quebec, died suddenly on Saturday morning last.

It is learned that Hon. Edward Blake will sit in Parliament for at least a portion of the session, but it is likely he will spend a part of the winter in the south.

The Summerside Pioneer reports that John Gaffney, Esq., has been appointed United States Consular Agent at that port, in the room of Mr. Finlay McNeill, who has resigned, and is about removing to Portland, Ore.

Mr. Richard L. Beattie, of the St. Louis Mercantile Company, who has been over much of the western part of Kansas, in what is known as the new country, says that in Ness City, Dighton, Scott City and many other places not 100 persons will spend the winter.

Two years ago most of the towns had from 500 to 2,000 inhabitants each, but the streets and almost the entire villages are now almost deserted. The few people that remain cannot get away. A year ago these settlers passed a winter almost without coal. Already the fatal blizzards have set in, and one storm has killed many cattle.
