

THE DAILY EXAMINER.

MAY 21, 1891.

Notes and Comments.

The Patriot says that Dr. McNeill's candidature is looked upon as a joke.

It will be noted that Dr. McNeill and Mr. Warburton have agreed to attend the same meetings.

There is a good deal of force, and perhaps some truth, in the following words of Goldwin Smith: "As a rule, duty has not its seat in the bosoms of those who are brought up to wealth which they have not earned and rank which they have not won."

Referring to Sir Richard Cartwright, the Empire remarks that "as a political leader, apart from his unhappy management of the finances, he has been a monumental failure, by reason of his haughty contempt for the people who are divided, according to his classification, into two kinds: Knaves, mostly Conservatives, and fools, most Reformers."

The hero of the small pox claim is the Patriot's description of Dr. MacNeill. But persons of better feeling and better judgment say that the doctor's heroism was shown in his careful, skillful, and successful management of the small pox cases which were placed under his charge.

The Montreal Star has this report of "Perry the Noble's" parliamentary services:

The only debate of the day arose on a motion of Mr. Perry's dealing with the running of the steamer Stanley between Prince Edward Island and the mainland. Mr. Perry wandered mightily from his text and discussed the proposed Island tunnel and all sorts of storied grievances of the Islanders.

The soul of honor himself, the grave Senators must certainly wilt under the fire of Mr. Perry's forcible eloquence.

Personal.

Mr. W. P. Doull, of Charlottetown, brother of George Doull, is in town to-day.

The Local Premier and Mr. W. C. Hobkirk were at the Crapaud meeting. It is said that Mr. Hobkirk is now the power behind the Throne.

William Thompson, who fought in the battle of Waterloo, died at River John, N. S., last week. He was 108 years old.

The London Times, referring to the birth of a daughter to the Duchess of Fife, who is a granddaughter of Queen Victoria, says: "When we remember the train of events that led to the succession of Queen Victoria, we may be allowed the supposition that the newborn may become Queen. It is a matter for relief that the succession is thus early provided for another generation."

Alex. McDonald, contractor, met with an accident while working at Hill's River Bridge, which necessitated the amputation of his thumb.

Justice Stephen, who has retired from the English bench, will receive a pension of \$25,000 a year.

Tennyson has been trying to account to a friend why he has lived to celebrate his eighty-first birthday, but neglects to take into account the very important fact that for some years he has not been reading criticisms of his poetry.

Mr. J. M. McLeod, the well-known representative of the Amherst Boot & Shoe Factory, is among the guests at the Hotel Davies.

At the Hotel Davies yesterday were A. H. Gardner, Boston; O. J. Peters, Moncton; Fred. Morrow, Souris; D. R. Sutherland, Pictou; A. Irving, Chicago; Mrs. W. H. Barnard, Boston. The following registered this forenoon: C. L. Baxter, Portland, Me.; P. G. Van Horne, New York; D. M. Kerr, Montreal; P. J. Quinn, Souris; Walter E. Fisher, Toronto.

Registered at the Osborne House last evening were Rev. P. A. and Mrs. McLeod, Sorens, Ont.; George Forbes, Vernon River; Rev. W. Sampson, St. John; E. Walker, Bass River, N. B.; A. E. Macdonald, city. This morning's arrivals included J. B. Clarke, Summerside; John A. Collings and Katie A. Collings, Sturgeon.

Gorton's Minstrels.

From present indications, two large audiences are waiting to welcome the return of the above clever company when they make their second appearance at the Lyceum on Saturday and Monday evenings, May 23rd and 25th.

That the audience will witness a first-class performance is an assured fact, and those who have not already done so should secure their seats at once.

The St. John Daily Telegraph says: "Gorton's Minstrels gave their final performance last evening. There has never been a minstrel troupe in this city created so favorable an impression, in the character of the performance, the ability of the band and the personality of the individual members. Gorton's Minstrels will always be warmly welcomed. The houses both nights were very large and deservedly so."

News Notes.

Many destitute Russian Jews are arriving in England.

The amount of gold ordered for shipment to Europe from New York on Saturday last was \$5,500,000.

The Island of Hawaii, the largest in the Sandwich Island group, is constantly increasing in size, owing to the ever-flowing streams of lava which run out to sea and make the shores of the island overhang the main stem of the formation.

LADIES fine Cambric underwear just opened at the London House.—Harris & Stewart. my20 21

Ottawa Correspondence.

The prohibition caucus last week was not a pleasant meeting. Messrs. Welsh and Yeo met for something nobody has yet been able to find out; or when Mr. Jamieson, M. P., took the chair he announced that the Dominion Alliance had decided that a resolution should be introduced into Parliament declaring that the time had arrived for the enactment of a prohibitory law, and that, no matter who objected, he intended to move that resolution. It was no use for some of the members to enquire what was the good of calling them together to inform them of what the Dominion Alliance had decided on—the chairman was inexorable. Others wanted to know what business the Dominion Alliance had to put resolutions out and dried into the hands of members and demand that they be passed—who were the Dominion Alliance anyway? Parliament represented the people, and the members who were just fresh from the polls knew what the people wanted, and were the proper persons to speak for them. So when the kickers retired, there were only some thirteen left who approved, on division, of the submission of a motion in favor of immediate prohibition. This resolution, it is needless to say, will not be carried, and so far as I can learn, will meet with less support than when last attempted. Many of the members on both sides who are anxious to promote the cause of temperance are disgusted with the actions of the responsible officers of the Alliance who, they allege, have been politicians first and prohibitionists afterwards, and have displayed the most extraordinary incensibilities when it suited them. If the Dominion Alliance is ever going to do any good, it will require to shake out some of its present staff. Independent members refuse to be bulldozed by any society into voting for impracticable conceits. It is significant, to say the least, that the Alliance shows such a preference for Grit candidates at an election, even in cases such as the County of Halton, Ont., where the Grit rejected the Alliance platform and the Conservative accepted it. It is very probable that when the question comes before the House an exposure will be made of some of the Alliance methods which will be amusing.

On Wednesday, Mr. McCarthy introduced his Bill to amend the Northwest Territories Act, with the object, as he explained, of repealing the clause requiring the official use of both English and French languages in the territories. In his opinion the perpetuation of race distinctions was not in the public interest, and he was convinced that nothing was more calculated to prevent a common nationality in this Dominion than the encouragement to speak the French language. His bill also proposed to deal with the School question. By our constitution, the subject of education belonged exclusively to the Provinces and should be dealt with by each Province. Under the present law, separate schools were made imperative; wherever there were two religious communities there was the right to separate schools. He did not propose to interfere with that, but simply to give the people of the Northwest the privilege of legislating upon the education as they thought fit.

Last week, Mr. Taylor (Conservative whip) introduced a bill to prohibit the importation and migration of foreigners and aliens under contract or agreement to work in Canada. This bill was similar to one introduced by him last session as a sort of counter-irritant to the United States Alien Labor Law. But as the American Government are largely relaxing the restrictions of their law, and Sir John Thompson stated that the Canadian Government had already made representations to the United States on the subject, and that the negotiations next October would include all matters of difference between the two countries, Mr. Taylor withdrew his bill.

The irrepressible Mr. McMullen desired a statement of the amount to the credit of each depositor in Post-office and Government Savings Banks on May 1st. When the Postmaster-General informed him that it would take the present staff at least nine months to prepare the return and that it would cost some \$6,000, Mr. McMullen sat down and said he would think about it. There are over 400,000 depositors in these banks, so it can be easily understood that it is no small job to make up their balances.

On Friday, in answer to Mr. Perry, the Minister of Finance stated that the Government had received from Sir Douglas Fox the estimated cost of a tunnel under the Northumberland Strait from P. E. Island to the Mainland, which, from shaft to shaft, including the land tunnels with contingencies, was as follows:

COST OF PRINCE EDWARD ISLAND TUNNEL, ESTIMATED BY SIR DOUGLAS FOX, MAY, 1891.

Table with 2 columns: Description of tunnel types and their estimated costs in pounds and dollars.

Mr. Barron is a member of the opposition, one of the Noble Thirteen (now reduced to twelve), a fancy cricketer, and a gentleman who thinks very well of himself. He felt called upon the other day to haul the Government over the coals for having dismissed one Graham, a fishery overseer in his county, and he called for all papers, letters and documents relating to the said dismissal, all communications addressed to the Government or any department thereof, or any official of any department, by any one demanding Graham's dismissal, and all representations made to the Government or anyone else by the Marine Department or any officer thereof, regarding the manner in which Graham performed his duties. The infamous outrage (as he termed Graham's dismissal to be) was perpetrated by the Government because Graham had voted for him at the last election. When Mr. Barron had sat down, breathless, after spending half an hour in furious declamation, the Minister of Marine quietly told him that, while he would cheerfully furnish all the information the Department possessed, there was a serious hitch owing to the fact

that Graham had not been dismissed at all. Mr. Barron subsided in short order.

In answer to a member, the Postmaster General stated that the Government were considering the propriety of reducing the fee on registered letters.

The revenue derived from the sale of registration stamps by the Post Office Department during each year since 1882 has been as follows: 1882, \$61,749; 1883, \$66,311; 1885, \$66,444; 1886, \$72,123; 1887, \$74,032; 1888, \$63,573; 1889, \$73,310; 1890, \$104,526.

The bill which the Minister of Justice has introduced to codify the criminal law of Canada will not be pressed beyond a second reading this session, it being the intention of the Government, after fully explaining its provisions to the House, to print it and circulate it during the recess.

On a motion for a return of the cost of adjusting claims for fishery bounties and of preparing and distributing the bounty cheques, etc., Mr. Perry addressed the House. He said the complaints were not confined to Nova Scotia, but also came from P. E. Island, and more particularly from Tignish. He charged that nearly every Conservative fisherman had his bounty paid him in February; there were two regulations in the Marine Department, one for Conservatives and another for Grits. He declared that to this day there are Grit fishermen in his neighborhood well entitled to their bounty for 1890, but who have not yet got it. He knew every fisherman within 30 miles of Tignish, and he knew that some parties had received the bounty cheques, etc., Mr. Perry addressed the House. He said the complaints were not confined to Nova Scotia, but also came from P. E. Island, and more particularly from Tignish. He charged that nearly every Conservative fisherman had his bounty paid him in February; there were two regulations in the Marine Department, one for Conservatives and another for Grits. He charged that nearly every Conservative fisherman had his bounty paid him in February; there were two regulations in the Marine Department, one for Conservatives and another for Grits. He declared that to this day there are Grit fishermen in his neighborhood well entitled to their bounty for 1890, but who have not yet got it. He knew every fisherman within 30 miles of Tignish, and he knew that some parties had received the bounty cheques, etc., Mr. Perry addressed the House. He said the complaints were not confined to Nova Scotia, but also came from P. E. Island, and more particularly from Tignish. He charged that nearly every Conservative fisherman had his bounty paid him in February; there were two regulations in the Marine Department, one for Conservatives and another for Grits.
