MANHUNT FOR SUSPECTED CARRIER OF DREAD DISEASE

Canadian-Born Governor-General To Take Office Today

Reds Threaten Sit Down Strike In Peace Talks

Giant Fires Thaw Ground For Cattle Burying Pit

REGINA, Feb. 27 — (CP) — Piles of burning coal and wood today thawed frozen ground on the Konstantin Haun farm just outside Regina so that a burial pit can be dug for cattle stricken with foot-and-mouth disease. A couple of grave-faced dairy farmers and a handful of curious citizens looked on. Newsreel cameras recorded the scene. Later, an R.C.M.P. guard was placed near the Haun farm to keep off unauthorized persons. Humans are known to be able to transmit the disease from one farm to another. Billowing black smoke marked the burial spot as piles of oil-soaked coal topped with cord-wood caught fire. Big trucks rolled out to the giant grave carrying loads of wood to restoke the fire. But by noon today only about

On Hunt For NATO Secretary

OTTAWA, Feb. 27 — (CP) — External Affairs Minister Pearson issued orders today for a new hunt for a secretary-general of N.A.T.O. while informed quarters said he has decided he himself is not a candidate for the big new post although he attaches the greatest importance to it. After a conference between Mr. Pearson and Prime Minister St. Laurent over rejection of the job by Britain's Sir Oliver Franks and on his own position, it was reported authoritatively that Mr. Pearson has decided he is not a candidate. Mr. St. Laurent wants him to remain in the Canadian cabinet and Mr. Pearson has decided to do so. Whether he will remain adamant in his decision not to take the Paris post if a suitable man can't be found elsewhere remains to be seen. He was offered it informally in Lisbon last week but worked strenuously to get the nomination of Sir Oliver, British ambassador to the United States.

Workman Killed In Accident

HULL, Que., Feb. 27 — (CP) — A huge concrete ramp under construction at the Federal Government's new multi-million dollar Printing Bureau collapsed tonight, killing one workman and injuring nine others. Trapped in the collapse of the 100-foot sloping ramp was Theophile LaFleur, 53, of Hull. Rescue operations were begun to dig him out of the still-wet concrete mass of the collapsed ramp. A policeman at the scene said he is believed dead.

Coming Events

- "See 'The Bells of Shannon'" in Emerald Hall, Monday, March 17th.
- "Kinkora Hall, reserve Monday, March 17th for play in Kinkora Hall 'Fisherman's Luck'."
- "Unloading car Acadia Egg Coal Wednesday and Thursday at Albany. L. D. MacLeod and Son."
- "Hockey Stanley Bridge rink tonight, Married Men vs. Single Men. Game time 8:30."
- "For Snapshots that will not fade, mail your Films and Negatives to Garzham Photo Studios, Charlottetown."
- "Hockey, North River rink Thursday, Feb. 28, Milton Hornets vs. Nine Mile Creek Bulldogs. Semi-finals. Game time 8:15. Skate after."
- "Annual Meeting of the Kingston Farmers Institute, will be held in the Hall, Friday, February 29th, at 8 P.M."
- "Farmers, ask about the Shur Gain Feed Finance Plan. For particulars contact your local feed mill."
- "Victoria rink Friday night, school hockey, Tryon vs. Victoria-Crapaud and Crapaud Heart-breaker Sisters vs. Victoria Sea Gulls."

To Be Installed In A Glittering Ceremony

By George Kitchen
Canadian Press Staff Writer
OTTAWA, Feb. 27 — (CP) — Canada's first native-born governor-general takes office tomorrow. "Hon. Vincent Massey, 65-year-old chancellor of the University of Toronto, will be formally installed in a glittering ceremony in the Senate chamber to succeed Field Marshal Viscount Alexander. A few hours later, at 3 p. m. EST he will return to Parliament Hill in his resplendent uniform as governor-general to perform the first function of his new office, that of opening the 1952 session of parliament. In the upper chamber, Mr. Massey will read the Speech from the Throne through which the government makes known its business program for the new session. The ceremonies will be under the shadow of the death of King George VI. Invitations to the ceremony recommended black dress for men and women. And the installation of Mr. Massey, a historic step in Canada's national development, will overshadow that of the opening of parliament. It means a break with the tradition that has brought 17 Britons to this country since confederation as the Sovereign's representative.

Carlsen To Get New Command

NEW YORK, Feb. 27 — (AP) — Capt. Kurt Carlsen, hero skipper of the sunken Flying Enterprise, will get another command next month, the Isbrandtsen Line announced today. Carlsen's ship will be the 10,000 ton freighter "Noonday" recently purchased by Isbrandtsen from the Waterman Steamship Corp.

French Clear Area of Rebels

SAIGON, Indo-China, Feb. 27 — (AP) — French troops in a seven-day operation have cleared a 1,160-square-mile area of Vietminh rebels 60 miles southwest of Saigon, the general staff announced today. Several French battalions, reinforced with amphibious equipment and naval units, wound up the operation today. The announcement said the Vietminh lost 173 killed and 83 prisoners. The offensive was intended to cut Vietminh communications between the Camau Peninsula—the extreme southeast tip of Indo-China—and guerrilla headquarters in southern Indo-China.

Has No Knowledge Of Racketeering

OTTAWA, Feb. 27 — (CP) — Edmond Cloutier, Queen's printer, said today he has no knowledge of any racketeering in the Government Printing Bureau here. He was commenting on articles written by the Ottawa correspondent of the Toronto Telegram saying ink rackets are being operated among employees of the Bureau, including book-making, sale of liquor and loan-shark operations.

Plan Moderate Shift In Immigration Program

OTTAWA, Feb. 27 — (CP) — A moderate shift in the pattern of Canada's immigration program is planned for this year, informed officials said today. The program now is under final consideration by the immigration department and will be completed within a week, they said. It is not expected to differ greatly from the 1951 policy that brought a 38-year record 194,000 new settlers, but informants said there will be a change in emphasis to bring more skilled, rather than unskilled, workers into the country. One object will be to plug gaps in the ranks of technicians, particularly needed for the big defence-production program, expected to gain full momentum soon. "However," a spokesman said, "our farm-help program is going to be kept up, too." Labor Department estimates are that between 15,000 and 20,000 workers from outside Canada will

Queen In First Major Ceremonial Of Her Reign

LONDON, Feb. 27 — (AP) — The Queen, a lithe figure in black, today knighted 55 men in the first major ceremonial of her reign. She pinned valor medals on 53 others, including a lanky, shy Korean war hero. The brilliant investiture ceremony was held in the State Ball Room of Buckingham Palace with the traditional pomp before 200 spectators. In slow file, the men passed before the 25-year-old ruler to receive the decorations and elevations which British Royalty gives to persons who have served their country well. Those knighted knelt before Elizabeth to feel the touch of her glittering sword on both shoulders, then rose at her command to receive the congratulations she gave with radiant smiles. Those receiving medals bowed, and then the Queen pinned the decorations to their jackets. Among those honored was Pte. Lt. Charles Labelle of Montreal, a Canadian with the R.A.F. He was made a member of the Order of the British Empire for gallantry in a sea rescue last March. Those watching the ancient ceremony noted that Queen Elizabeth brought to it a touch of youthful, feminine charm. She wielded the sword gracefully. She smiled prettily and moved with smooth assurance as she picked medals after medal from a satin cushion held for her by court officials. Behind the Queen, on a raised dais, stood the Duke of Edinburgh. He watched closely, but had no part in the ceremony. Also watching were five members of the Queen's bodyguard, Yeomen of the Guard in Scarlet-and-Gold Tudor uniforms with white ruffs. The most dramatic moment of the investiture was dominated by a Private of the Argyll and Sutherland Highlanders, 24-year-old William Speakman. He won in Korea the Commonwealth's highest award for gallantry, the Victoria Cross. Private and Queen faced each other for long minutes as the glowing citation of his heroism in repulsing an enemy attack was read and as she adjusted the cross with care. Speakman, six feet, six inches tall in his khaki battle jacket and tartan trousers, towered over the dainty Queen. "It was a great experience and a great honor," he said later.

Meeting Urges Increase In PEI Teachers Salaries

Following a lively meeting of the West Kent Home and School Association last night the members went on record by resolution as favoring increased salaries for school teachers of Prince Edward Island. The number of school books required in the primary grades also came under discussion with even the teachers expressing the feeling that there were too many required. The view was also presented that parents should not have to buy them at all as they should be kept in the school and used by succeeding classes. The new teaching theories were explained to the gathering by the panel whose members said that there was no longer just one class for a teacher but as many as six classes in the same room. This arose from a decision that children should not be compelled to learn at the pace of the slow students or the bright ones, but should be allowed to find their own learning capacity level.

Msgr. N. N. Coady of St. F. X. Retires

ANTIGONISH, N.S., Feb. 27 — (CP) — Retirement of Msgr. M. Coady, leading Canadian adult educator and director of St. Francis Xavier University's famed Extension Department, was announced tonight. Msgr. Coady, 70, asked to be relieved of his duties because of ill health. He is a native of North East Margaree, N.S.

No Homework

The subject ran the gamut from the teaching of reading to objections by parents to the lack of homework assigned to the pupils. On the latter points the ideas of the teachers were presented by Miss King who pointed out that with a new teaching system and new text books the teachers did not want parents interfering as they had no knowledge of the methods now employed and only succeeded in confusing the children. She spoke of the many difficulties faced by the teachers and said that one of the biggest tasks they had was in teaching children to

To Regulate Haddock Fishery

OTTAWA, Feb. 27 — (CP) — A panel of the International Commission for the Northwest Atlantic Fisheries decided today to recommend regulation of the haddock fishery on George's Bank off the New England coast to increase fish yield. It would be the first time that the high-seas fishery of the Northwest Atlantic was brought under control for conservation purposes. The Canadian-United States panel will recommend to the 10-country commission that the size of haddock fishery nets used on George's Bank be increased to allow the escape of unmarketable baby fish. The mesh would be increased from 2 7/8 to 3 3/4 inches. A secondary recommendation of the panel was that vessels not fishing for haddock primarily would be limited to 5,000 pounds of haddock, or 10 per cent by weight of their total catch.

Increase In Barley Payment

OTTAWA, Feb. 27 — (CP) — The Trade Department today announced a 20-cent-a-bushel increase in the initial or preliminary delivery price paid to Western Barley farmers. The increase, effective March 1 next, will apply on all barley deliveries made to the Canadian Wheat Board since the beginning of the current crop year, Aug. 1 last. It will be effective until the crop year ends July 31 next. The department said no action will be taken at the moment to increase the initial payment on oats. The barley increase applies to all grades. It boosts the preliminary payment on No. 3 Canada Western six-row barley to \$1.16 a bushel from 96 cents, and the initial price on No. 1 feed barley to \$1.07 from 87 cents — all basis delivery at Fort William and Port Arthur.

Believes Tension Has Decreased

NEW YORK, Feb. 27 — (CP) — Trygve Lie, secretary-general of the United Nations, said today he believes the international situation is a little better than it was a year ago. "You can't put your finger on any specific item, but I think things are better," he told reporters at an airport as he arrived from Oslo. "I think the general tension has decreased a little."

Advance Guard Of P.E.I. Members Now In Ottawa

OTTAWA, Feb. 27 — (Special) — Advance guard of Prince Edward Island representatives in Parliament reached Ottawa today in the person of W. Chester S. McLure, senior Conservative member for Queen's and T. J. Kichham, Liberal member for King's. Shortly after taking over their offices in the centre block both members went to the office of clerk of the Commons L. J. Raymond, took the oath of allegiance to Queen Elizabeth and signed the oath book.

King's Funeral Cost \$162,000

LONDON, Feb. 27 — (AP) — The funeral of the King cost \$162,000. The government presented the bill to Parliament today, asking it to vote the necessary money. The total includes \$8,000 for entertaining royal and overseas guests, hiring cars and railway expenses.

U. S. Casualties In Korea

WASHINGTON, Feb. 28 — (AP) — Announced United States battle casualties in Korea reached 105,992 today — an increase of 151 since last week.

Agree Churchill Widened Split In Labor Ranks

LONDON, Feb. 27 — (CP) — Parliamentary observers generally agreed today that Labor Party unity suffered a damaging blow from Prime Minister Churchill's disclosures in the foreign policy debate. According to this view, Churchill did more than successfully defend the Korean record of his Conservative Government in the House of Commons yesterday. In time, the wounds Churchill inflicted conceivably could help promote an open break between the leader of Labor's left wing, Aneurin Bevan, and the members of the moderate faction, Clement Attlee and Herbert Morrison. Conservative strategy was clear: If Labor's surface appearance of unity is ever shattered, Labor members might wander in a political wilderness for years before they could hope to gain office again. Churchill said that when Labor

One In 35 Is An Alcoholic

WINNIPEG, Feb. 27 — (CP) — The Greater Winnipeg Welfare Council last night said in a report one out of every 35 residents of Greater Winnipeg is a confirmed alcoholic. The statement raised the support of the Manitoba Temperance Alliance and the doubts of Mayor Garnet Coulter.

New High In Farm Price Index

OTTAWA, Feb. 27 — (CP) — The annual index of Canadian farm prices reached a record-breaking high of 287.2 in 1951, the Bureau of Statistics estimated today. Preliminary Bureau figures indicated increased prices for livestock, dairy products, potatoes, poultry and eggs pushed the index up almost 27 points from the 1950 record mark of 260.5. The index is based on average 1935-39 prices equalling 100. It does not include Newfoundland figures. Only provincial drop in the 1951 figures came in Saskatchewan, where the index slipped 1.8 points to 248.6. Ontario's index rose 47.9 points to 312.6, Prince Edward Island's 47.5 to 236.8, Quebec's 43.5 to 303.9, British Columbia's 43.1 to 287.5, New Brunswick's 34.1 to 250.2, Nova Scotia's 32.6 to 236.0, Alberta's 15.2 to 291.2, and Manitoba's 11.6 to 286.0.

Report Cards

This brought on a discussion of grading, standings in classes and report cards. Mr. MacKenzie said that there were several methods of making report cards and it was difficult to determine if the standards were entirely fair to all. It was done because some pupils who might be consistently last in the class got discouraged and great numbers

Destroyer Being Rebuilt By Navy

OTTAWA, Feb. 27 — (CP) — The R.M.C.P. today launched a hunt for a German immigrant, known as the "man with the pompadour", suspected of carrying foot-and-mouth disease into Western Canada. Police searched Ontario and Quebec for Willi Bruntjen, a tall, well-built displaced person known to have worked on the Saskatchewan farm where the disease was first spotted. He usually goes hatless and wears his dark brown hair in a pompadour style. There is no criminal charge against him. Police, fearing possible spread of the disease, want to get Bruntjen into a laboratory where he can be thoroughly examined. Until he is located, he is a potential danger to the Canadian economy. The trail of the immigrant first blew hot and then cold at Heron Bay about 150 miles east of Port Arthur, Ont. Bruntjen, in his late 20's, who likes bushwork as well as farming and who speaks no English, boarded a train there going east to Toronto and Montreal yesterday. The R.C.M.P. said it has

Canada Signs Pact With U. S.

OTTAWA, Feb. 27 — (CP) — Canada has signed a new military procurement agreement with the United States armed forces to facilitate the placing of more and bigger U. S. orders in this country. The agreement, similar to one which existed during the Second World War, provides for the placing of all U. S. military orders through a central crown agency in Canada, contains provisions governing profit limitations and provides for mutual inspection. It is seen here as a possible prelude to placement in Canada of more U. S. military orders, which for the first nine months of the 1951-52 fiscal year up to the end of December last totalled about \$139,000,000. U. S. orders for the 1950-51 fiscal year totalled \$44,000,000. A defence production spokesman said the agreement would facilitate the placing of U. S. orders by making certain guarantees and eliminating all the "fine print" details which until now had to be negotiated in each separate contract.

Destroyer Being Rebuilt By Navy

OTTAWA, Feb. 27 — (CP) — The navy has been secretly rebuilding an eight-year-old destroyer so it can try out this year radical new equipment for fighting submarines. This was learned today after the security cloak was lifted. The result is that a year before the first of her unique anti-sub escort vessels is ready for duty Canada will be experimenting with a guinea-pig warship incorporating many of their radical features. One big test might come in an Atlantic pact exercise this year. The ship involved is the fleet "V" class destroyer Algonquin which went into the Yarrows shipyard at Victoria months ago and will emerge this summer as the first of the new line of escort vessels, the ships Canada hopes will keep her in the forefront of anti-sub techniques. The hull will still be that of a destroyer but the super-structure, with the exception of the funnel and mast, will be the low-slung, stripped-down superstructure of the new-type escort craft.

HALIFAX, Feb. 27 — (CP) — Official forecasts issued tonight by the Dominion Public Weather Office here and valid until midnight, Thursday.

A severe storm moved north-east towards the Maritimes tonight. A heavy snowfall warning was issued earlier for Prince Edward Island and New Brunswick with falls of from six to 10 inches expected. Present indications are that eastern Quebec and the Annapolis Valley will also receive heavy snowfalls. Elsewhere in Nova Scotia about five inches of snow will fall before turning to rain. Winds are forecast to increase to 45 to 55 mph with gusts as high as 65. This will result in severe drifting. Regional forecasts: Prince Edward Island: Snow, changing to rain in the afternoon and ending in the evening. Milder. East winds 55 gusts to 65 shifting in afternoon to west 35. Low and high Thursday at Charlottetown 20 and 35. High tide on the North Shore at 7:43 A. M. and 8:13 P. M. Summerside tide, eighteen minutes later than Charlottetown. Sun rises today at 6:58 A. M. and sets at 5:57 P. M.
