Vocal and Instrumental Concert.—We beg to call the attention of our readers to an Advertisement, which will be found in another column, of a Vocal and Instrumental Concert, to take place in the Temperance Hall, on the evening of Wednesday, the 7th January next. It will, perhaps, be interesting to the public to learn, that our ingenious townsman, Mr. W. Duchemin, will, on the occasion to which we allude, cause his fine-toned and powerful Church Organ (constructed by himself, and which he is now offering for sale) to be placed in the Hall, to assist the vocal performances of the evening. These, we understand, will be of the choicest description, and will be entirely conducted by himself and family. The Concert will, therefore, not only be, in the strictest sense, a *native*, but a *family* Concert, also—a truly novel occurrence in this proverbially dull community, and one which, we trust, will be warmly and generally patronised by our town and country folk. The intervals between the local performances will be filled up by the Sons of Temperance Band, which has recently been supplemented by the importation of two Ophiclides, two Saxe Horns, and several other fine-toned instruments, and is also under the leadership of one of our *native* musicians. The proceeds of the Concert are to be presented to the 'Sons,' to assist in furnishing and decorating their spacious Hall.—*Com.*

Blake's Metallic Fire Proof Paint,
OR, ARTIFICIAL SLATE.

THIS admirable article has been tested for some years and proved very valuable, becoming a perfect slate, as hard as marble in a few months, completely protecting whatever is coated with it from the action of the *weather* and *fire*—a better *fire-proof* than tin or zinc. Several Insurance Companies certify they will insure buildings covered with it at a cheaper rate, than if covered with those metals. It is of two colors, the black is best for roofing—the chocolate the best thing ever discovered for sides of either brick or wood, forming a perfect stone coating of a handsome stone or chocolate color, can be easily changed by a little white lead or other coloring matter to suit the taste. There is nothing equal to it for steamboat and car decks, and all kinds of iron as it forms a coating nearly as hard as the iron itself, and never cleaves off.

BEWARE OF WORTHLESS COUNTERFEITS.

As the popularity of my paint has induced scores of unprincipled individuals to grind up, and offer as fire-proof paint, all kinds of worthless stuff, much of it nothing but rotten stone that has no cohesive attraction, is held on only by the oil with which it is applied; consequently as soon as the action of the atmosphere destroys the oil, it will wash or rub off like Chalk or Whiting, nothing can yet be known of its lasting qualities, as it is but little over a year since they got them up, whereas mine has been tested about seven, and where first applied is now like a stone.

The original and genuine article can be obtained of PATRICK STEVENS, Orwell, my authorized Agent for the Island.

THE Subscriber is now building at 7 Mile Bay, near Bedeque, a Vessel of about 240 Tons, O. M., of good model, and which may be ready for launching, in the ensuing Spring, if any person will purchase the Hull and Spars, and supply her building. An early application is desired, in order to the completion of the said Vessel, either to J. Weatherbie, Esq., Charlottetown, or to the Subscriber, on the spot, where all particulars may be had.

JAMES HANNAH.
