

RECOMMENDED FOR PROMOTION

One of several air cadets recommended for promotion during the annual inspection of No. 60 (Charlottetown) Squadron, held at the Airport last night, Cpl. George Batt of Charlottetown is congratulated by the Inspecting Officer, Group Captain W. H. Swetman, D.S.O., D.F.C., C. D., Officer Commanding R.C.A.F. Station Summerside. Cpl. Batt was elevated to the rank of Sergeant.

Vocational School Principal Gives Review Of Past Year

A brief outline of what had been accomplished in the training program during the school year was presented by Mr. E.D. MacPhail, Principal of the Provincial School during the Schools Thirteenth Annual Closing exercises held Friday afternoon.

In his report Mr. MacPhail outlined the history of the school stating that it was first established in the year 1945, as a joint project of the Federal Department of Labour and the Provincial Government. During the first two years of its operation the student body consisted entirely of World War II veterans, he said.

Mr. MacPhail went on to say that civilian students were admitted to the school for the first time in 1947 and since that time the number of courses has been increased to 21, new facilities added and the teaching staff greatly augmented.

He added that a new course, Diesel and Heavy Duty Mechanics was added this year and that the present grand total enrollment in all courses was 501 students.

COURSES

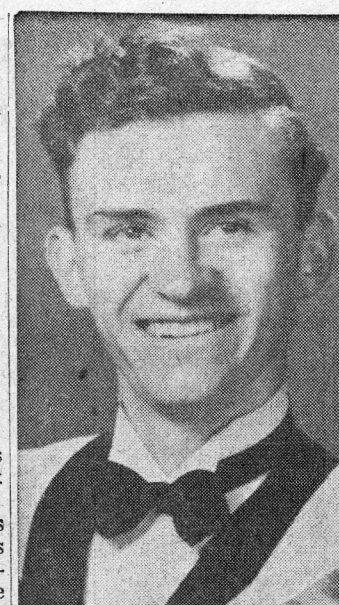

The courses offered by the School may be divided into two groups — day courses and night courses. The day trades courses for this year began on September 4, 1957 and continued till May 21, 1958, a period of almost nine months.

Enrollment for day trades courses was as follows, with the number of certificates granted in brackets:

(Continued on page 9)

In order to allow them time to get out of the city.

A 41-year-old Kelly's Cross man was sentenced to 20 days in the Queens County Jail on a drunk and disorderly charge. His case had been adjourned from May 20th. A similar charge against a 37-year old King street man drew a remand until Thursday.

RECEIVES B.Sc.

Vincent Norton Beck, 20-year-old son of Mr. and Mrs. Preston V. Beck, Central Royalty, received his B. Sc. degree from Dalhousie University at the convocation May 15th. After graduating from Prince of Wales he taught school at York before proceeding to Dalhousie where he was awarded a Physics Scholarship at the 1957 Convocation.

Last summer he was employed with the Dominion Observatories at Meenook and Newbrook, Northern Alberta and has recently left to fill the same position this summer.

Five Will Be Ordained To The Priesthood

Five young men will be ordained to the Priesthood on Saturday morning, May 31, by His Excellency Most Reverend Malcolm A. MacEachern, D. D., Bishop of Charlottetown.

Those who will receive the Sacrament of Holy Orders are: Leo Floyd, Antigonish, N.S.; Gerald Steele son of Mr. and Mrs. Percy Steele, Miscouche, P.E.I.; Arthur Pendergast son of Mr. and Mrs. James Pendergast now of Charlottetown and formerly of Kensington; Clifford Murphy, son of Mrs. Murphy and the late Lemuel

Murphy of Hope River; and John J. Dunphy, Morell.

The newly ordained priests will celebrate their first High Masses the following day, Sunday June 1 in their parish churches.

LIFE NOT WORTH LIVING?

Then wake up the liver! You know that sour, sunk, constipated feeling? It may be caused by the liver. If your liver doesn't pour out up to two pints of bile a day your food may not digest properly, and you feel that life's just not worth living. That's when the liver needs mild gentle Carter's Little Liver Pills. These vegetable pills help stimulate the flow of liver bile. Soon your digestion starts functioning properly and you feel that happy days are here again! Don't ever stay sunk. Always keep Carter's Little Liver Pills on hand.

FOR THE LAND'S SAKE — LIME

Soil acidity slows down the decomposition of organic matter and reduces the yields and quality of hay and pasture.

LIME is the cheapest all-round soil conditioner on the market and should be applied to acid soil, it makes all major plant foods more available. Always remember, "HAVELOCK LIME WORKS". Shipped in carload lots of 30 tons or more, bagged or bulk. Order now from—

AGRICULTURAL NEWS

P.E.I. Department of Agriculture

COMMON DANDELION

Common Dandelion (Taraxacum officinale) is a well known pest in all long settled districts. It is very common in lawns. The seed is about 1-3 inch in length, spindle-shaped, ridged lengthwise, the ridges roughened with upwardly directed rigid spines decreasing in size from the top of the base of the seed, where they appear as minute tubercles. The top end of the seed runs into a beak, about one-third of an inch long, crowned with a white, thin pappus, half the length of the beak. The plants are well known and further description is unnecessary.

Control — It is important to prevent dandelions from seeding in lands adjacent to lawns. A satisfactory way to deal with this weed, though entailing much labour is to loosen the soil with a digging fork and pull them up. Bad infestations in lawns can be controlled by applying 8-10 oz. of low volatile ester 2, 4-D-4-ecr. For small areas use four teaspoonful of active ingredient 2,4-D ester per 1000 square feet. For spot spraying, mix one tablespoon of active ingredient 2,4-D in one gallon of water. Spraying should be carried out while the plants are growing actively. Care must be taken to avoid damaging shrubs and flower gardens adjacent to the lawn area.

TRACTOR LIGHTS

It's surprising that there are not more accidents involving farm equipment on roads and highways because lighting is often non-existent or inadequate. For a busy farmer, before sunrise or after sunset travel on the highway or road is not unusual. If his equipment is not adequately lighted or protected with reflectors, flags or other means of warning approaching motorists, then he certainly sets himself up as a potential accident victim. This is just as serious on the local by-way as on the main highway.

One of the most usual accidents is side tipping into a ditch. It may be due to imperfect visibility on part of tractor operator or because he is crowding the shoulder too closely to let approaching traffic safely pass. The other is collision. Statistics show that in the event of either of these accidents it is practically always the tractor operator who is maimed for life or killed.

COMING EVENTS

- Dance in Fortune Hall, Wednesday.
- Dance Millview Hall every Friday night.
- Dance Grandview Hall Thursday night. Good music. New hardwood floor.
- Dance Grandview Hall Thursday night. Good music. New hardwood floor.
- Vernon River Play, "Truth Takes A Holiday" in St. Georges Hall Wednesday 28th, at 8.30.
- Food sale at Simpson Sears Friday evening, May 30th. Kingston United W. M. S.
- Charlie Frizzell will be hauling cream at Wiltshire Factory Monday and Thursday, butter on Monday and Feed on Thursday.
- See, "Truth takes a Holiday" by Vernon River Players in Mt. Ryan Hall, Monday, June 2nd. Curtain 8.30.
- See Vernon River Players present "Truth Takes a Holiday," in St. Teresa's Hall Friday May 30, 8.00. Dance after Webster's Orchestra.
- Les MacDonald will be hauling Cream to Wiltshire Factory on Tuesdays and Fridays. Butter on Tuesdays and Feed on Fridays.

IRON FOR PIGS

Prevent anemia, one of the diseases responsible for early pig losses, by providing young pigs with iron. As iron is present in the soil, animals that are on pasture receive sufficient amounts. Pigs farrowed in the late fall, winter and early spring and confined to floored pens without access to soil or vegetation should be supplied with iron in paste, liquid or reduced form.

Before birth, pigs receive all the iron they require from the mother's blood. But from 1-6 weeks of age and especially in the third week of life anemia may develop if iron is not supplied in one form or another as sow's milk contains none.

Recently an iron preparation has been used which is administered on the third or fourth day of life and is injected into the muscle. One dose is usually sufficient. The swine raisers who have used this preparation, available through a practising veterinarian, have been pleased with the results.

PAINT JOBS

For easier and more effective painting choose the right type of paint for each room. The general rule is enamel for kitchens and bathrooms and a good flat or semi-gloss paint for halls and other rooms.

Calculate in feet how much wall paint is needed. Multiply length by height of surface to be covered and divide by 550. This will give the number of gallons of paint required.

If tempted to use leaf' over lots of paint be careful that you don't mix an oil base with a water base paint. They're just not compatible.

To clean brushes of enamel, housepaint, or oil base paint, swish in turpentine until all loose paint is removed. Then wash in warm water and soap, wrap in several thicknesses of paper and put away. Brushes or rollers used with latex base paint are merely washed with warm water and soap. Paint brushes treated with respect will do a better job.

CLUB NEWS

Lot 16 4-H Calf Club met at the Forbes' home on May 7th. Twenty members answered roll call. The treasurer reported a balance of \$17.33 on hand. Two new members joined the club.

The entertainment committee was appointed along with a lunch committee for the next meeting. It was decided to hold the next meeting in the Central, Lot 16 school on the first Wednesday in June and that roll call be answered by naming one's calf.

The remaining part of the evening was spent in a discussion taken from the 4-H beef manual by the club leader Edward Clarke. The club leader distributed tests from the Dept. of Agriculture, Charlottetown to the members.

The meeting closed with a recreation period and lunch, served by the hostesses. Gail MacLean, Secretary.

O'Leary 4-H Calf Club judging class and regular meeting was held on Friday, May 16th at Raynall MacNeill's, Mt. Royal. The president, Sheldon MacLean extended a welcome to Allan Palmer and Paul MacDonald from the Dept. of Agriculture, Summerside.

tended a welcome to Allan Palmer and Paul MacDonald from the Dept. of Agriculture, Summerside.

Roll call was answered by 15 members. It was decided that the next meeting would be held at the home of Frankie Smallman, Knutsford. The entertainment and lunch committees were appointed for the next meeting.

The remaining part of the evening was spent in a discussion on cattle diseases led by the County Fieldman, Elaine Palmer, Secretary.

St. Phillip — St. Chrysostome 4-H Calf Club's first meeting was held at Joseph E. Gallant's home on Tuesday, May 13. The Club Leader, Mr. Cyrus Gallant in his opening remarks, explained to the members the importance of 4-H club work in the community, stating that co-operation is the success to farming.

The officers elected were: President, Albert Cormier; Vice-President, Ernest Arsenault; Secretary, Eloi Arsenault. It was decided that the next regular meeting would be held on June 2nd with a judging class on May 22nd at the farm of Polyceap Arsenault. It was also decided that the membership fee be 25 cents per person.

At the conclusion of the meeting the club leader explained to the members how a feed report should be filled out and the importance of having them sent to the Dept. of Agriculture Office in Summerside. Eloi Arsenault, Secretary.

The Maple Leaf 4-H Calf Club held its regular meeting at the home of Vivian Pillman, Travelers Rest on May 9th. Thirteen members answered roll call. One new member joined, Richard Dalzell.

The club leader, Roy Walker, discussed the lesson material for the meeting and informed the members that they were to continue on with the handbook. It was decided that the next meeting be held at the home of Walter Schurman on June 13th. Rena Wood, Secretary.

Work On West R. Bridge Approach

With the bridgework finished, the work on the remaining 90 feet of fill goes on at the approach to the new West River Bridge crossing. The approach from the New Dominion district on the South Shore side is needed to close the remaining gap. Just a few miles below the present West River Bridge is the site of the new crossing of the West River. It crosses towards the Meadowbank area.

History Professor Gives Talk On Public Land Questions

Professor Bruce Hodgins, professor of history at Prince of Wales College, was the guest speaker at the annual meeting of the Prince Edward Island Historical Society held last night in the P.W.C. library.

Professor Hodgins addressed the assembly with an historical sketch of certain public land questions relative to the Maritimes.

With so much ado these weeks about the founding of Atlantic Provinces' House and with discussions over the division of 25 million dollars made available by the Federal Government for four years to the Atlantic Provinces, he felt that the provinces tend to forget that a short time ago these was considerable concern over certain public lands questions affecting this region.

Professor Hodgins then gave an historical sketch on two inter-related public land questions that have had a considerable bearing upon Maritime relations with the Federal Government. He noted that any investigation of this nature is extremely complicated.

Complicated because any attempt to follow negotiations, arguments, agreements and ramifications in this regard is like weaving ones way through a labyrinth because it involves investigations into the tangled and contradictory course of Federal Provincial fiscal relations. It also involves an examination of the nature of the Canadian Union.

Cases Heard In Police Court

An Alley Street woman, charged with the theft of a shirt from a suitcase, had the charge dismissed yesterday morning in City Police Court following the hearing of one witness.

A 35-year old resident of Allan street was fined \$10 and costs or five days when he was arrested after putting his fist through two panes of glass. A 19-year-old Summer street youth was sentenced to 10 days in the Queens County Jail and a 58-year-old Kent Street man, in a case adjourned from May 20th, had his charge further adjourned one week.

Two other men were given 20-day sentences to be withheld.

TWO QUESTIONS

The one question concerned the extension northward of the boundaries of Ontario, Quebec and Manitoba in 1912. The land thus given came from the Federal domain.

The other is connected with the fact that when the Prairie Provinces were created they were not unlike other provinces, given charge over the crown land within their confines.

While at first Manitoba received no compensation for this, as

Island-born Vet Opens Clinic

Dr. J. C. "Cliff" McIsaac has opened a new veterinarian clinic at Unity, Saskatchewan. He is the son of Mr. and Mrs. Alex McIsaac, Fairview, P. E. I.

The idea of an animal clinic is not new by any means, but this is the first one to be built primarily for large animals in the western provinces.

The animal clinic is a dream that has turned into a reality for 27 year-old Dr. McIsaac. He arrived in Unity in June, 1955, having completed seven years of university, graduating from a two year course at the Agricultural College of Nova Scotia at Truro in 1950, followed by five years of veterinary courses and a diploma from the University of Toronto at Guelph, Ontario. When he arrived in Unity, he got right to work and soon had an extensive practice. His hospital is as sanitary and practical as modern methods of building and design can devise.

ALGIERS (AP) — Algeria's insurgent government claimed Sunday the movement backing Gen. Charles de Gaulle's return to power has spread to French Equatorial and West Africa.

An official spokesman of the central Algerian public safety committee said similar groups

are being established throughout the French empire in Africa. "We also have information that the situation in France is changing," the spokesman told a press conference.
