### THE GREATEST BLOOD BUILDER AND NERVE RESTORER IN EXISTENCE

#### DR. WILLIAMS' PINK PILLS MAKE THE WEAK STRONG

##### EXCRUCIATING PAINS.

From the Patriot, Charlottetown, P. E. I.

Mr. and Mrs. Thos. Blackmore are well known residents of Hamilton, P. E. I., and both are very warm in their praise of Dr. Williams' Pink Pills, as they believe this medicine saved the life of their daughter after other means had failed. Mr. Blackmore gave the facts as follows: "Early in the summer of 1896 my daughter Rachael began to complain of severe pains in the head and down her spine. These would last for several days, causing great agony and would then relax for a week or so. They were often accompanied by fits of vomiting and dizziness. These symptoms were no sooner noticed than I procured medical aid, but the case was so peculiar as to baffled the doctor's skill. The pains which at first were severe had become almost unbearable, and the dizziness was so constant that if she attempted to cross the room unaided she would fall prostrate on the floor. Her appetite had forsaken her entirely. The only nourishment she took for two months was a little beef tea and a small quantity of lactated food. I had heard of the cures effected by the use of Dr. Williams' Pink Pills, and resolved as a last resource to give them a trial, and was very grateful to find that almost from the outset they helped her. She kept on using Dr. Williams' Pink Pills for three months and her recovery was very rapid, so rapid indeed that at the end of that period she was able to engage in light housework and to walk a mile or two at a time. Never in her life did she enjoy better health than at present, and I am ever thankful to the discoverer of this most effective medicine, Dr. Williams' Pink Pills."

##### THE RESULT OF La GRIPPE.

From the Cookshire, Que., Chronicle.

Mr. Newell Waldron, is a well known farmer living near East Clifton, Que. As his friends and neighbors know, he passed through a very trying illness as the result of a severe attack of la grippe, and when a correspondent of the Chronicle called upon him, he had no hesitation in giving the particulars of his illness and cure. Mr. Waldron said, "I believe I owe my life to Dr. Williams' Pink Pills and I am glad to have a chance to say a good word in favor of that reliable medicine. During the winter of 1895, when la grippe was so prevalent, I had a severe attack of it and it left me so weak that I was unable to do work of any kind. I consulted a doctor, but as he did not appear to help me, began using different advertised medicines, but the result was the same. I got no benefit, but on the contrary was growing weaker. At times I was subject to sinking spells, which verged upon total unconsciousness. I was failing day by day and was becoming hopeless. A neighbor who called to see me urged me to try Dr. Williams' Pink Pills, and I sent for a few boxes. After using them for a couple of weeks, I began to feel better, and after the first symptoms of relief, I began to gain steadily. I am now as well as any man, and can do as good a day's work as ever I did. I know that my cure is due to the use of Dr. Williams' Pink Pills and I am always glad to recommend them."

Mrs. J. Carcic, Dominionville, Ont., writes:—"I cannot find words enough to thank you for what Dr. Williams' Pink Pills have done for me. I suffered many years with weakness and pains throughout my entire system; but thanks to your pills, I am once more restored to health. These Pills are a tonic not a laxative medicine."

#### YOU CAN BE CURED

If you are ill it is not you alone who suffer, but those who depend upon you, those to whom you are dear—whether you are a man or woman.

The worst diseases in the world are slight ailments at first. If you are feeling weak, nervous or "out of sorts"—if you are at all unwell, take the proper remedy, Dr. Williams' Pink Pills—AND GET WELL.

##### Helpless For Months.

From the Trenton, Ont., Courier.

The editor of the Courier having obtained some relief from rheumatism by the use of Dr. Williams' Pink Pills, and having observed their effect on a young man to whom he had recommended their use, in the interest that everyone should take in the public weal, interviewed Mr. Wm. H. Pickering on the subject. Mr. Pickering told his story as follows, and the editor can vouch for its entire truthfulness. "It would be impossible he said" "for me to speak too extravagantly of the merits of Dr. Williams' Pink Pills. In the fall of 1894 I contracted a severe cold, which developed into quinsy. Following this, I became paralyzed and I continued to grow worse until at last I could not stir off my chair without assistance. I lost the entire use of my limbs, and it looked as though I was doomed to spend the rest of my days a helpless wreck. Mr. Young, of the Courier, who had observed the excellent results following the use of Dr. Williams' Pink Pills in other cases advised me to give them a trial, and I acted on his advice. I had finished my third box when the hoped for relief began to make itself felt, and from that time the progress towards a complete cure was both steady and satisfactory. I am now in possession of my full health and strength, and I feel that this result is entirely due to the excellence of Dr. Williams' Pink Pills and I shall always have a warm word to say in their favor."

##### A Word of Caution.

A few unscrupulous tradesmen—their cupidity excited by the great reputation of Dr. Williams' Pink Pills—make up or buy in the wholesale market ready made, some cheap pills, covered pink, which will sell as "Pink Pills" and offer as a substitute for Dr. Williams' Pink Pills. Such pills are a fraud. The receipts for Dr. Williams' Pink Pills

is only known only to the Dr. Williams' Medicine Co. All substitutes are therefore useless. To be sure of having none but the genuine pills, purchasers should not ask for Pink Pills, but for Dr. Williams' Pink Pills for Pale People, and see that they are put up in a package, the wrapper around which is printed with red ink on white paper and bears the full trademark "Dr. Williams' Pink Pills for Pale People." Inside the wrapper are Dr. Williams' directions for use. Pay no attention to any dealer who claims to have "the same thing under another name," or something else "just as good." In case of doubt it is better to write (enclosing price, 50 cents for one box or \$2.50 for six boxes) to the Dr. Williams' Medicine Company, Brookville, Ont.

##### Incipient Consumption.

Mrs. Walter Bovington, Croton, Ont., says:—"I was run down in health until I was a mere wreck. I occasionally spit blood, had distressing pains in the lungs and stomach, had no appetite, and could scarcely move about. The doctor said my trouble was consumption. As I was constantly growing worse instead of improving, my father advised me to try Dr. Williams' Pink Pills. I began their use and at the end of the first week I had gained one and a half pounds in weight. The doctor heard I was taking the pills and said I must discontinue them. I did so for a week and found that I had lost the weight I had gained, and I felt sure then that the pills had been helping me, and I again began using them. After taking them for a second week I had gained two pounds and could eat better than I had been doing. The result was that I continued the use of the pills until I had taken thirty boxes, when I was fully restored to my former health and strength, and while taking them my weight increased twenty-three pounds. I am now enjoying better health than I had done for years and have Dr. Williams' Pink Pills to thank for it."

##### Faure Rooms Bathtubs.

President Felix Faure devotes special and unceasing attention to cleanliness. He is doing more to spread the use of the bathtub in France than any other Frenchman of these or former times. A Paris correspondent says that wherever the president goes for a week or ten days there must be a bathroom with all modern improvements. He refuses to stop even overnight in a house or hotel that has no bathroom. His hobby causes many persons inconvenience, for the bathroom is not a universal institution in France, as in this country. In fact, the provincial French towns are as barren of private bathtubs as most prairie villages in this country. Nevertheless the president holds fast to the bathtub as a condition precedent to his visit to any town or castle.

In the presidential palace in Paris and in the castle at Fontainebleau M. Faure had elaborate bathrooms fitted with the latest appliances and luxuries. In the castle at Rambouillet last year the president caused 100,000 francs to be spent for bathrooms which he might use during his three or four weeks' residence there.

The president's passion for cleanliness has been a source of much vexation and industry at all the provincial prefectures which he has visited since succeeding M. Carnot. Usually on his excursions through the land he lodges at these prefectures, and, as none of them was provided with bathrooms when he began his tours, there has been a great bustling about to make good the deficiencies. A large bathhouse was built last year at the prefecture in Rennes, preparatory to his brief sojourn there, and a similar house was erected at the prefecture in Valence this year in anticipation of his visit. The vigor with which the president is leading his movement for bath reform is said to have brought him many converts and to

have given the neglected bathtub industry a great boom in the republic.—New York Sun.

##### He Saw Napoleon Buried.

When a man has reached the ripe age of 97, he has a pardonable pride in making a century run and a laudable ambition to end his days with an even record. As a general thing, however, the man or woman who reaches those advanced years has lost both the pride and ambition which make an effort at living on a possibility. This is not the case with one respected nonagenarian who lives in Detroit and whose age is coincidental with the year, he being born in 1800. Captain Francis Martin, U. S. N., has lived along easily without any thought of perpetuating his days beyond the average record of man, until, having passed the ninety-seventh milestone, he looks not forward, but lives in the present or busies himself with memories, and Captain Martin's memories are worth much to their possessor. He is the only man now living who was at Napoleon Bonaparte's funeral on the lonely island of St. Helena. He has sailed into nearly every navigable port on the face of the globe up to the year 1880. He was the friend of Audubon, the famous ornithologist. He fought pirates on the high seas in 1824. In 1836 he took part in the Seminole Indian war. In 1882, after making a record as a master of sailing craft on both sides of the Atlantic, Captain Martin entered the United States marine service, receiving his first commission from Andrew Jackson. In the following year he was stationed at Charleston, S. C., during the exciting times of nullification. He participated in the Mexican war, his cutter being part of the blockading fleet cruising off the Mexican ports.—Chicago Times-Herald.

##### His Exception.

Barker—I claim that every woman has the right to wear any kind of clothes that she likes. If she wants to appear upon the streets in bloomers, or even in tights, that should be her privilege.

Dunning—Do you mean to tell me that you would extend this privilege to all women?

Barker—Well, to all except members of my own family.—Chicago News.

##### The War in Cuba.

"We made the enemy run today," joyfully exclaimed the Spanish officer, "and we are to be congratulated."

"You did nobly, gallantly. What did you do with the enemy—capture him, or did you leave him at large?"

"We left him. That's the best part of it. He was at least half a mile behind us when we got back to the city."—New York Truth.

Be With You Soon.—Frankie.

##### Zurich to Improve Street Car Manners.

The Zurich city council has ordered that this notice be posted in every street car on the municipal lines:

"Women have the first right to the seats in the interior of this car."

It is predicted by Swiss and German newspapers that the policy thus announced will encounter obstacles when the attempt to enforce it is made. It is not customary in German countries of the continent—whether German Austria or Germany, or German Switzerland—for a man to give a woman the preference in any way on a street car. Not only have the women on the cars learned not to expect favors, but they are unwilling to accept them. The man who offers a Berlin, Vienna or Bern woman his seat in a car is pretty sure to be greeted with a polite but resolute declination of his courtesy; also with a look of wonder that says plainly, "You must be a stranger hereabout."

##### Gold For Wearing.

A collar button is one of the articles made of the precious metal which is valued more for its wearing qualities than the purity of the gold. A collar button of ten carat gold has all the appearance of the purest metal, and its wearing qualities are all that can be desired. There has been a great change in the use of gold in the last 10 or 12 years. The change seems to have come with the development of practical ideas among the people. Gold 14 carats fine in rings or watches would have been considered little better than plate at one time, while now that is the quality frequently used and liked for its wearing qualities.—New York Times.
