

THE DAILY EXAMINER.

JANUARY 21, 1892.

The Mayoralty.

The EXAMINER was not informed concerning the presentation of a requisition to the Hon. T. H. Haviland, its editor being deemed—by the gentlemen who have been trying to run the town—too insignificant or not sufficiently interested in civic matters to be asked to send a representative to report the ceremony.

There is now in the field as a candidate for the Mayoralty one who is intimately acquainted with civic affairs, one who has had long experience in the City Council.

Size of the Tunnel.

The Charlottetown Board of Trade will discuss the question of the tunnel on Wednesday evening next. We are now all agreed as to the perfect feasibility of the tunnel.

We shall not anticipate the speakers at the Board of Trade, further than to give a note of warning against demanding too much, with the probable result of losing all. To contend for the larger tunnel is to give to those members of Parliament who will oppose the tunnel a strong ground of reason upon which to influence the minds of those other members who may be disposed to yield the boon we ask.

The Bank of Rustico.

The EXAMINER was authoritatively informed on Friday last that the notes of the Bank of Rustico accumulated in the city banks were being redeemed, and that there were no grounds for the report then circulated. We have no doubt that this statement was made in good faith.

Another Big Steal.

The reigning sensation in Quebec is the discovery of the means by which \$100,000 were obtained by the party led by Mr. Laurier's friends for use in the last Provincial election. It appears that rumors have long been current to the effect that the lumbermen in the Ottawa region were very freely bled by Mr. Mercier's agents and put up a very handsome sum, on the understanding that they were to be recouped.

The concert in St. James's Church tonight promises to be the musical event of the season. Read the programme.

Notes and Comments.

The Empire says: "It is impossible to explain the heavy majorities polled in North Lunenburg and Glengarry for the Conservative candidates on any other ground than that the policy of the Government is meeting with popular approval."

Another scandal on the part of the Mercier Government is looming up. It appears that a deposit of \$100,000 was made in one of the city banks and that \$50,000 of it has disappeared in some mysterious way.

Mr. Mercier's little trip to Europe cost the Province \$162 a day from the time he left here till his return. This is what he means by living "modestly, but conveniently," as he said on his return.

The Guardian, which spells toffy with an "a," and daphne with a "f," which in forms the world that Shakespeare wrote the "School for Scandal," and that Sir Thomas More was an Irishman, which has the presumption to instruct the people of Charlottetown as to who they shall select to fill the office of Mayor, is laughed at by the children of the schools.

Board of Trade.

The adjourned annual meeting of the Board of Trade was held last evening. In the absence of the President, Thomas Handrahan, Esq., occupied the chair.

After the transaction of some preliminary business, the following officers were elected: President—L. L. Beer, Esq. Vice-President—P. Blake, Esq. Secretary—B. D. Higgs.

Mr. Crabbe gave notice that at the next meeting of the Board he would move that the membership fees be reduced from \$5 to \$2 per annum.

Meeting adjourned.

Marriage Bells.

St. John's Episcopal Church, Crapaud, was crowded on Wednesday evening with interested spectators who assembled to witness the marriage of Mr. Robt. D. Rogerson, to Miss Maggie Leard, eldest daughter of Solomon J. B. Leard, Esq., Collector of Customs.

Burns Anniversary.

The Scotch Concert in the Lyceum on Monday evening next, is the leading topic, not only among the sons and daughters of the Heather, but other nationalities as well. The Burns anniversary concert will be under the auspices of the Caledonian Club, an institution the members of which donated the whole amount of the proceeds of their concert of last winter, \$150 towards the relief of the poor and needy without distinction as to sect or nationality.

Debt of Quebec Province.

The Toronto Monetary Times says: "At the end of the last fiscal year, June 30, the total liabilities of the Province of Quebec were nearly thirty-five millions (\$24,888,267) with nominal assets of \$11,133,533. What is certain is that there was a net debt over assets of nearly twenty-four millions (\$23,754,734), but that the assets will cover the amount of the debt at which they stand is more than doubtful.

SOME WORDS IN SEASON.—The Moncton Times says: "The awful life destroying effect of tobacco, as commonly used, is clearly shown in the premature death of Mrs. Mangin, of P. E. Island, at the early age of 119 years. Mrs. Mangin was a smoker and not a chawer and had used the weed only about 60 years or thereabouts. Tobacco is evidently a very rank, active and speedy poison. The circumstance reminds one of the great danger incurred by people in going to bed. A celebrated writer points out that nine out of ten of civilized human beings die in bed. Nothing can be clearer than that tobacco and beds should be religiously avoided by those who would live a couple of centuries or so. Try it!"

Ladies underclothing greatly reduced in price at James Paton & Co's great sale.

LETTERS TO THE EDITOR.

College Bred Editor!

SIR,—I notice that the editor of the Guardian devotes one of his leading paragraphs to THE EXAMINER and wittily calls its editor "the daily fence viewer."

Printer's Devil.

Supreme Court.

James D. Tylor and another vs. W. E. Dawson.—Action for trover and trespass of goods. Verdict for Dawson, Q. C. for plaintiff; Peters & Peters for defendant.

Wm. Pratt vs. P. McCourt; action on account now before the Court. J. S. McDonald and W. S. Stewart for plaintiff, O. Rattabury for defendant.

Personal.

Prince George of Wales is to be made Duke of Kent. The Prince of Wales and family will not appear in public for a year.

The German Court will go into mourning for 10 days for the Duke of Clarence. Randolph Rogers, the celebrated American sculptor, is dead. He was born in New York State in 1825.

Sir Daniel Wilson's condition has greatly improved. Dr. Temple reports that the venerable President of Toronto University is now in a fair way to ultimate recovery.

Abbas, the new Khedive, was welcomed on his arrival on the shores of Egypt by a British fleet. The first thing he did after formally assuming his title was to review a British regiment. England's hold on Egypt has lost none of its firmness by the death of Tewfik.

There is a living precedent for the marriage (suggested with somewhat unbecoming haste) of Prince George to the Princess May. The present Emperor of Russia, who became heir to the throne on the death of his brother, the Grand Duke Nicholas, took to wife the Princess Dagmar, daughter of the King of Denmark, who had been his deceased brother's fiancée.

Now is your chance to get good winter apples at auction. Attend C. I. Morrison's sale to-morrow morning.

By the sickly tone of the Halifax morning Grit daily, you may conclude that it has a Chronic-ill.

SELECTIONS from the "School for Scandal" and "Henry VIII," will be read at the entertainment in St. James's Hall to-night.

FIFTY barrels of choice winter apples, Baldwins and Pippins, at auction to-morrow (Friday) at 10.30 a. m. at my Sale Rooms, 106 Queen Street.—Chas. I. Morrison, Auctioneer.

BOARD OF HEALTH.—There will be Board of Health meeting on Monday morning next, at 11 o'clock, to take into consideration certain applications for licensing slaughter houses within city limits.

MR. D. McDONALD, of Vernon River, has kindly consented to perform "Gillette Callan" at the Scotch Concert Monday night. It may not be out of place here to request the audience to remain seated during the programme. Please remember this.

HORSE SHIPMENTS.—Our enterprising horseman, Mr. W. G. Mackie, shipped twenty fine horses on the Northumberland this morning. They are for the New Brunswick and Maine markets. Mr. Mackie informs us that he has never before shipped horses so late in the season.

A GREAT YIELD.—From a sowing of two bushels and a half of wheat on an acre and a half of land last spring, Mr. E. Harrington of Nine Mile Creek, threshed out last Saturday 58 bushels of splendid white Russian Wheat. This did not include the raking of the field. Can this be beaten by any other farmer on P. E. Island.

ANOTHER CENTENARIAN.—Mrs. Mary Palmer, mother of Benjamin Ward, Long Island, N. S., have our thanks for their very advanced age of 102 years. Mrs. Palmer was a native of Gasperow Mountain, N. S. She is the third centenarian who has died in King's within a short time, the others being the late Mrs. Taylor, of Berwick, 107 years old, and the late Hor. Samuel Chipman, 102 years old.

MESSRS. Wm. Stairs, Son & Morrow, Ship Chandeliers and Hardware Merchants, Halifax, N. S., have our thanks for their very beautiful and serviceable calendar for 1892. On the calendar is an excellent view of the old town clock, on Citadel Hill, built in 1796—Herald.

The clock referred to was designed and built by William Hughes, of Her Majesty's dockyard, Halifax, grandfather of Frederick W. Hughes, Esq., who arrived in Halifax with the Duke of Kent.

FAST DRIVING.—In reference to the fast driving on the streets, referred to in THE EXAMINER yesterday, His Honor the Stipendiary Magistrate informs us that the police have a standing order to prosecute all persons guilty of the offence. In the past His Honor has never failed to mulct heavily all persons against whom the charge has been proven, and in the future he will also see that violators of the law receive the punishment they deserve. He invites citizens to report to the police any cases of fast driving coming under their notice.

THE ROYAL FUNERAL.—The funeral of the late Duke of Clarence and Avondale took place yesterday and was a very imposing affair. A funeral service was held in the garrison chapel, Halifax, which was largely attended by military men and citizens generally, and a salute of sixty minute guns was fired in the afternoon, corresponding with the time a similar salute was fired in England. Mourning will be worn by the officers of the British army till Feb. 26th.

The Trouble in Mexico.

Under date of Jan. 15, the Telegraph has brought a statement of the financial condition of the Bank of London and Mexico. According to this official announcement the bank has during the past year earned a dividend of 30 per cent. for its shareholders, and has earned 47 per cent. on a capital of \$1,500,000. The capital has been doubled and \$400,000 have been put into a reserve fund. Of course all these enormous earnings—enormous even if we grant that money has less purchasing power in the republic of Mexico than it has in this country—came out of the pockets of merchants and manufacturers, who recouped themselves out of the common people. It would seem strange indeed if people groaning under such burdens were not ripe to join the standard of revolt, no matter by whom unfurled. Under such circumstances the peculiar features surrounding the movement of Mr. Garza can be understood without much trouble, and the strange spectacle of a more "bandaged" head down by the forces of two warring parties, including all attempts to change the daily growing in importance, lose all mysteriousness.

MARRIED.
